Get a small package of Hamburg Breast Tea, or as the German folks call it, "Hamburger Brust Thee," at any pharmacy. Take a tablespoonful of the tea, put a cup of boiling water upon it, pour through a sieve and drink a teacup full at any time. It is the most effective way to break a cold and care grip, as it opens the pores, relieving congestion. Also loosens the bowels, thus breaking a cold at once.

It is inexpensive and entirely vegetable, therefore harmless.—Adv.

This city of 200,000 people apparently was taken without fighting. On the view of the fact that the small Russian garrison maintained in Tabriz in times of peace had been withdrawn it is believed that the sufferers by the occupation, if any, are the Armenians, whom the Kurds constituting the Turkish advance guard are always ready to attack.

To-day's dispatches from Petrograd say that the Turksish invasion of Persia continues and that the Turks are penetrating farther into the country. The Russians still claim to hold the upper hand in the fighting in the Cancaus, in the vicinity of Kara-Urgan, but that lack of details suggests that the battle which has now been in progress for seven days has not yet resulted decisively for either side.

The principal feature of to-day's news in London is the resignation of Count Von Berchtold, the Austrian foreign minister. Some maintain that his action indicates that a crisis in the affairs of the dual monarchy is at hand.

In Galicia and Bukowina, where Russia's activities are directed against Austria, there is now little activity, severe weather having checked military operations.

On the western battlefields the fighting in the region of Soissons has developed into unexpectedly large proportions. Both the Germans and the allies apparently have thrown in heavy reinforcements, and definite defeat for either side might result in the reshaping of the battle line-over a long section of the front.

Not only in the Soissons region, but elsewhere along the front Germany is believed to be sending in more troops in response to the movement of England, which is pouring in fresh soldiers weekly by the thousands. Ordinary passenger traffic over railroads in Germany has been suspended for several adays and it is assumed that extensive movements of troops are under way.
