This Is a Bad Month

The indoor life of winter, with lack of outdoor exercise, puts a heavy load on the kidneys. Nearly everybody suffers from rheumatism, backache, pain in the sides and back, kidney and bladder ailments. A backache may not mean anything serious, but it certainly does not mean anything good. It's better to be on the safe side and take Foley Kidney Pills to strengthen and invigorate the kidneys and help them do their work. They help rid the blood of acids and poisons. Sold by Geo. A. Gargas, 16 North Third street, and P. R. R. Station.—Adv.

SWEEPING ORDER ISSUED FOR THE CONSERVATION OF GERMANY'S FOOD SUPPLY

Berlin, Jan. 26, by Wireless to London, 9:40 A. M.—The federal council has put into effect sweeping regulations for the conservation of the food supply as follows:

"All stocks of corn, wheat and flour are ordered seized by February 1. All business transactions in these commodities are forbidden from January 26.

"All municipalities are charged with the duty of setting aside suitable supplies of preserved meat.

"The owners of corn are ordered to report their stocks immediately where, upon confiscation, at a fixed price, will follow."

A government distributing office for the regulation of consumption will be established, distribution being made according to the number of inhabitants. The "Imperial Gazette" to-day publishes the following notice regarding the confiscation of grain:

"There is no doubt that the measure ordered taken cuts much deeper into the economic life of our people than all the other economic regulations hitherto adopted by the federal council during the war. It is, however, necessary in order to make the sufficient and regular supply of our people with bread-stuffs until the next threshing of the new harvest and is besides a necessity of life for the government and the nation.

"The steps heretofore taken have proved themselves not far reaching enough to bring about the sparing use of our limited supplies of breadstuffs which, however, are in reality sufficient for our needs. In particular the measures hitherto introduced have not prevented the feeding of bread grain to cattle.

"The present order gives us the certainty that our enemies' plan to starve Germany will be upset and assures us of plentiful bread until the next harvest."

He stated that the boy did not indicate to any of the members of the family that he intended to leave home, and that he had apparently always been satisfied with his life, excepting he seemed to desire to make "big money."

16,000 MEN ON FULL TIME

Orders Call For Six Days' Operation of Frick Plant

Uniontown, Jan. 26.—Running orders issued by the U. S. Frick Coke Company to the plants in Fayette county and which went into effect yesterday morning called for six days' operations, instead of three, four and five days, which have been in effect for the last month. No new men are being employed, but officials of the company said things are looking brighter and the six-day run for the coming week is the result of a gradual improvement in industrial conditions extending over the last month.

During the depression of the last ten months, the operating forces at the various plants have been cut down considerably, approximately 16,000 men being employed throughout the Frick Coke Company region. While work was scarce, the men with greater family responsibilities were given more time, but the average laborer was forced to be content with only a few days work a week.

The new order in effect yesterday gives six days' work to all employees on the plants, the ovens already in operation being worked full time during this week.

During the last few weeks the company has been producing about 35 per cent. of its normal output and yesterday's order is said to follow an increase in the demand for coke, necessitating a larger supply.
