COCOANUT OIL FINE

If you want to keep your hair in good condition, the less soap you use the better.

Most soaps and prepared shampoos contain too much alkali. This dries the scalp, makes the hair brittle, and is very harmful. Just plain mulsified cocoanut oil (which is pure and entirely greaseless), is much better than soap or anything else you can use for shampooing, as this can't possibly injure the hair.

Simply moisten your hair with water and rub it in. One or two teaspoonfuls will make an abundance of rich, creamy lather, and cleanses the hair and scalp thoroughly. The lather rinses out easily, and removes every particle of dust, dirt, dandruff and excessive oil. The hair dries quickly and evenly, and it leaves it fine and silky, bright, fluffy and easy to manage.

annual gathering in the structure. It was expected that at lesst 30,000 members of the denomination will be in the famous chocolate town for one week. The building which M. S. Hershey is erecting for them will be a modefacouvention structure, the main auditorium to be 262 by 155 feet in dimensions. It will be a two-story structure, 71 feet high, and the main auditorium will have a seating capacity of over 5,000. There will be four committee rooms, 15 by 25 feet, and the main entrance will be 62 feet wide. On the second floor will be dwelling apartments, consisting of three bed rooms, dining rooms, kitchen and bath. The entire building will be constructed of steel and hollow tile, plastered on the outside. All of the latest improvements will be installed, thus making it one of the most complete convention auditoriums in the State.
