Twas the battlefield, and the cold pale moon Look'd down on the dead and dying;
And the wind pass'd o'er with a dirge and a wail,
Where the young and the brave were lying.

With his father's sword in his red, right hand,
And the hostile dead around him,
Lay a youthful chief; but his bed was the ground,
And the grave's ley sleep had bound him.

A reckless rover, 'mid death and doom, Pass'd soldier, his plunder seeking; Careless he stepp'd where friend and foe Lay alike in their life-blood recking.

Drawn by the shine of the warrior's sword,
The soldier paused beside it;
He wrench'd the hand with a giant's strength,
But the grasp of the dead defied it.

He loosed his hold, and his noble heart Took part with the dead before him; And he honor'd the brave who died sword in hand, As with soften'd brow he lean'd o'er him. soldier's death thou hast boldly died, A soldier's grave won by it;
Before I would take that sword from thine hand,
My own life's blood should dye it.

"Thou shalt not be left for the carrion crow, Or the wolf to batten o'er thee; Or the coward insult the gallant dead, Who in life had trembled before thee."

Then dug he a grave in the crimson tax...
Where his warrior foe was sleeping;
And he laid him there, in honor and rest,
With his sword in his own brave keeping.

Another Meteoric Movement in Wheat Has Effect of Further Checking Operacions In Stock Market—U. S. Steel Movement Uncertain

By Associated Press.

By Associated Press.

New York, Feb. 3.—(Wall, Street).

A downward trend was shown by today's stock market soon after the opening, Reading and Canadian Pacific losing a point each with some heaviness in other prominent issues. U. S. Steel movement was uncertain, opening with a slight loss, from which it recovered, only to fall back again. The metal shares held steady and petroleum stocks were a trifle higher in connection with reports of another advance in the price of crude oil. Trading was unusually Measure Appropriating \$500,000 P of crude oil. Trading was unusually light, with a further absence of outside inquiry. London's range of prices for Americans was lower, Reading yielding a point

a point.

Another meteoric movement in wheat had the effect of further cheeking operations in the stock market, trading operations in the stock market, trading in the early session aggregating less than half of the recent output. The demand for stocks continued irregular and narrow, with more selling of the speculative leaders at every favorable opportunity. Canadian Pacific and Reading continued to bear the brunt of those offerings, which were assumed to come in part from abroad. Fertilizer issues developed sudden strength. The situation at Washington, in its relation to the shipping bill, came in for some consideration. Bonds were firm, with a large over subscription of the Pennsylvania railroad issue.

The "WHY" OF A "HOT BOX"

In answer to the question "What is a hot box?" a Kansas City Southern of ficial has the following to say:
"A hot box is a sign that the safety first rule is not practiced by some car department man.
"There is no excuse for a hot box after the ear is sent out if the train is carefully looked over by the ear men at each terminal. Primarily a hot box is caused by poor waste and an insufficient 'greasing' at the time it should have been done, and there is no excuse for one. A hot box is liable to cause a wreck, and wreck on most railroads costs money, much more than the price of a sufficient quantity of waste and oil and grease to protect the journals of the car wheels.
