ENGLAND NOW AROUSED BY RISE IN THE PRICE OF FOOD

London, Feb. 5.—The entire question of food prices will be discussed in the House of Commons next Thursday, when Premier Asquith has promised to make a statement. Meantime a committee has been appointed to inquire into the congestion of goods on the docks.

The labor party has drafted a resolution for introduction in the House, insisting that the rise of prices is not justified by the economic consequence of the war, but is due to the holding up of stocks and inadequate transport facilities. The resolution calls upon the government to provide transportation facilities and to fix maximum prices by acquiring control of commodities.

Members of the corporations of Glasgow, Liverpool and other cities at a joint meeting yesterday proposed the passage of a petition to the government in favor of government control of foodstuffs and coal and shipping service. While the resolution was defeated, those present expressed strong views that immediate action by the government was necessary, as wheat, flour and coal are daily increasing in price.

Some of the speakers deprecated government control of sugar and the prohibition of sugar importations from countries desiring to send in supplies.

BATTLE AT ARMAGEDDON DECLARED TO BE LIKELY

London, Feb. 5.—A Cairo dispatch to the "Daily News" says: "Armageddon, on the historic highway connecting three continents, is passed through daily by Jews and Christians fleeing to the seacoast. A division of the Fourth Turkish army is encamped in the immediate neighborhood. The strategic position of Armageddon makes it not improbable that one of the battles of the present war will be fought there."

The place referred to in the above dispatch is probably El Lejjun, which by most authorities is said to be on or near the site of the biblical Megiddo, or Armageddon, the scene of the last great battle between the forces of good and evil at the day of judgment.

Dandruff Soon Ruins The Hair Girls—if you want plenty of thick, beautiful, glossy, silky hair, do by all means get rid of dandruff, for it will starve your hair and ruin it if you don't. It doesn't do much good to try to brush or wash it out. The only sure way to get rid of dandruff is to dissolve it, then you destroy it entirely. To do this, get about four ounces of ordinary liquid arvon; apply it at night when retiring; use enough to moisten the scalp and rub it in gently with the finger tips. By morning, most if not all, of your dandruff will be gone, and three or four more applications will completely dissolve and entirely destroy every single sign and trace of it. You will find, too, that all itching and digging of the scalp will stop, and your hair will look and feel a hundred times better. You can get liquid arvon at any drug store. It is inexpensive and four ounces is all you will need, no matter how much dandruff you have. This simple remedy never fails.—Adv.

Henry Harrison Harvey Was Prominent Citizen in Wyoming Valley Wilkes-Barre, Pa., Feb. 5.—Henry Harrison Harvey, pioneer coal operator and prominent in the industrial and club life of the Wyoming Valley, died here yesterday from heart trouble. For years he was superintendent of the Harvey mines at West Nanticoke and in 1883 he and his brother, the late Colonel William Harvey, took over control of all the Harvey mine interests, carrying on this business until 1871. He aided in the development of the Wilkes-Barre Electric Company, the Plymouth Water Company, the Plymouth Heat and Power Company, the Dallas Turnpike Company, the Wyoming Valley Ice Company and the Wyoming Valley Cattle Company.
