WEATHER FORECASTS

Harrisburg and vicinity: Fair tonight and Sunday. Colder to-night with lowest temperature about 25 degrees.

Eastern Pennsylvania: Fair to-night and Sunday. Colder to-night. Fresh

John D. Rockefeller, Sr., and Andrew Carnegie yesterday afternoon appeared on the same bill in what might almost be described as a vaudeville act. but which actually was a hearing before the United States Commission on Industrial Relations which is investigating a charge that philanthropic foundations such as the Oil King and the Iron Master have created out of their millions may become a menace to human liberty. Incidentally both of the great captains of industry said they did not believe there could be anything harmful in the foundations and told their reasons for such belief, but the greatest public interest in the hearing centered in the opportunity presented to the big crowd present to be entertained by these two noted men.

Mr. Carnegie was dressed in sober black while Mr. Rockefeller was arrayed in a mixed business suit and wore a green tie with an emerald pin thrust jauntily through it. Yet the Iron Master was by far the more jovial of the two, despite his sombre attire. Both, however, were very willing witnesses. Indeed Mr. Rockefeller had not been expected to be present in person but he came of his own free will, while Mr. Carnegie evidently relished the opportunity to air his views on lots of subjects and to give voice to lots of genuine witticisms that kept the audience in a constant uproar of laughter and completely banished dignity from what presumably were originally intended to be very earnest proceedings.

The fact that one of Mr. Carnegie's erstwhile em ployes at the Homestead plant had on one occasion referred to him as "Andy," in an affectionate sort of way, seemed to please the Iron Master immensely. In fact he referred to the fact two or three times, from which it may be concluded that Tribulation." even a great capitalist who has given away \$324, 657,399 in his lifetime and still has enough left to keep the wolf from the door, is not above feeling a keen sense of pleasure in the fact that one of his wage-earners refers to him in terms of intimate and friendly familiarity.

Mr. Rockefeller regarded the proceedings more seriously. Among the interesting things he said. however, was that he would be very glad to feel that laboring men, employed by his great enterprises, were his partners. When asked how that could be brought about, he replied:

It is very simple. The man who has money to buy one share becomes a shareholder and so a part owner of the enterprise. The more shares he has the greater will be

He didn't give any estimate of how rapidly the employes of the Colorado Fuel and Iron Company could acquire shares at the rate of wages that company pays.

One thing that is certain, however, is that the testimony of Mr. Carnegie and Mr. Rockefeller proved very entertaining to a "large and appreciative audience." Whether it will serve as an aid to the commission in trying to solve the problem it has tackled, we are not prepared to say.

CONCERN SHOWN FOR A CRACKED BELL

A controversy has arisen over the advisability of sending a certain cracked bell from Philadelphia to San Francisco to be displayed at the Panama-Pacific exposition. The directors of the exposition and the people of Califonia want the bell badly while members of patriotic organizations and other persons in Philadelphia do not care to let it make

ican in whom there exists not a particle of patriotism could wonder why the Liberty Bell is in such demand, and why such concern is being manifested for its safety. The old relic is in appearance certainly nothing more than a damaged article which can never be of any further use in the business for which it was intended. Yet every citizen of the United States worthy of his citizenship sees in the precious object the bell which proclaimed the country's independence,-the symbol of American liberty.

That the people of California should want the bell to be sent to the exposition is natural, for many of

If the trip to the exposition were to be made, and the bell to be irreparably damaged, the pieces would we honor in an enemy.' still be valuable as relics, but the accepted symbol of American independence would be gone forever.

CLEANLINESS MADE WORTH WHILE

Children are very often averse to cleanliness for no better reason, perhaps, than that it is easy for them to be dirty while no incentive is given them to be clean. They may be told that they look better when they are neat and spotless, but children are not self-conscious enough to care much for looks when they are having their fun. They may be instructed then, too, that cleanliness is essential to good health and that it is next to godliness, but name in the list of most famous genthey can hardly be blamed if these statements, unsupported by substantial evidence, do not fully convince them.

The Bristol Welfare Society is seeking to make eleanliness worth while by offering the children of the town moving picture entertainment in return for neat appearance. From four hundred to eight hundred youngsters are every Saturday afternoon literally admitted on their good looks to a "movie" theatre, and it is reported that the little applicants for tickets have been so careful to meet all requirements that so far not one has been turned away.

The Saturday afternoon cry: "I don't wanna be washed," is probably replaced in Bristol by the plea: "Wash me, ma! I wanna go to the movies," and the mothers of the community must be gratified by the change conditions have taken. When soap and water, instead of being avoided are invited, mothers probably save a great deal of energy that they would ordinarily expend on Saturday afternoons, alternately coaxing and commanding dirty little insurgents to submit to the necessary scrubbing.

The advantage obviously lies in rewarding children for courting cleanliness, rather than in punishing them for abstaining from it. A washing is generally punishment enough for children who prefer dirt to soap suds, and the only way it can be made desirable to them is to put it in the light of a means to a definite end,—an end which holds out all the glorious promises of, for example, a 'movie" show.

Now that the river dam is built and paid for, let's begin talking about that aquatic carnival!

French Soldiers a Surprise

The French soldiers, the "Lokalanzeiger" says, have proved a surprise. "We have seen," it asserts, "little of the supposedly French theatrical heroism and reckless braving of every danger. On the contrary, they have displayed estimable and praiseworthy military qualities. Their field artillery consists of good guns and performs ex-cellent work and at their head stands an army commander who, though he has won no decisive victory, has secured a erals."

Berlin View of Russians

The Russians, the critic said, has displayed an unexpected capacity to utilize the terrain and an accuracy in

"The fact that we found none of the \$5,000 enemy wounded in Lodz, they all having been removed in good time and transported to Warsaw, and the further fact that immediately after we compelled them to retreat they ofsuch a stubborn defense are proofs that the Russian command has earned much from celebrated retreats of Kuropatkin in Manchuria.

Long Presidential Term in China

A 10-year term of office for the Pres ident of China, with eligibility to fur ther terms, is the principal feature of the new election law passed by the Provisional Constitution Conference In a covering note published with the law the Conference declares that China cannot be subjected to the dangers and alarms of frequent Presidential elec

How China's President Is Picked

Other features of the law are: That the President shall be a male citizen of the republic (therefore not necessarily a Chinese) at least 40 years of age; and that he shall have resided in China for a period of twenty years.

That at the time of the Presidential election the President shall carefully and reverently nominate three persons from whom his successor must be

That the Electoral College shall be composed of fifty members of each house, the Li Fa Yuan and the Tsan Cheng Yuan, the members being elected by ballot amongst themselves. That the election shall take place in

Pekin.

CENTRAL HIGH HONOR LIST

Leads Upper Class

In the honor list at the Central High school just issued at the close of the first term, sixty-three students are given special mention for receiving over 92 per cent. Most of these are in the senior class, the individual leader of which is Miss Naomii Bevard. Thirty-five per cent. of the student body has received more than 87 per cent. for a general average.

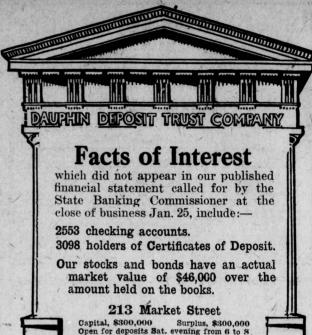

to be sent to the exposition is natural, for many of them would never get opportunities to see it in Philadelphia; but since they have shown by their carnestness in asking for the relic that they value it highly, they should be considerate of its infirmities and not be too hard on the Philadelphia and Penpsylvanians generally, because the latter fear for the safety of the bell in transport.

It has been shown by scientists,—Philadelphia scientists who may be prejudiced, but the truth of whose statements should nevertheless be accepted,—that the metal of the bell is "diseased" and that a trip across the continent would most likely prove fatal. For that reason, more than for any other,—and there have been very many good reasons advanced,—the Liberty Bell should be kept in its safe abode in Independence Hall.

If the trip to the exposition were to be made, and the half the help to the exposition were to be made, and the half the help to the exposition were to be made, and the half the help to the exposition were to be made, and the half the help to the exposition were to be made, and the half the help to the exposition were to be made, and the half the help to the exposition were to be made, and the half the help to the exposition were to be made, and the half the help to the exposition were to be made, and the half the help to the exposition were to be made, and the half the help to the exposition were to be made, and the half the help to the exposition were to be made, and the help the proving the creating of a big army, proves a will 10 conquer, which the first the firs B section, Laura Bretz, Mary Dietrich and Katherine Keene; C section, Hazel Hammil, Frances Weidenhammer and Margaret Weltmer; D section, none; E section, Margaret Landis; F section, Eleamor Kirk, Nora Lippi and Bernard Wert; G section, none; H section, Harry Dixon; K section, Isabel Phillips and Dorothy Taylor; L section, none; M section, Miriam Blair and Dorothy Rishel: N section, Stella Ulicio and section, Miriam Blair and Dorothy Rishel; N section, Stella Ulrich and Esther Voll. Chatterdon Stock Co.

With a powerful stock production of "The Sins of Society," Arthur Chatterdon and his excellent company, who have been delighting crowded houses at the Majestic all this week, will close the successful week's engagement. It is doubtful if a more evenly balanced and better all around popular priced company has ever appeared in Harrisburg.

In the closing play selected, Mr. Chatterdon will be seen in one of his most congenial parts, while dainty Adelyn Bushnell and the entire large cast offer unusual support.

The play was in New York City only last season at the Forty-fourth Street theatre, with Holbrook Blinn as the star, where it enjoyed a profitable run. Mr. Chatterdon is the first popular priced star to offer this intense play which will be presented in the usual Chatterdon manner with a full scenia and costume production.—Adv."
