

GUARANTEED FOR COUGHS

A Good, Cheap, Home-Made Remedy

Money spent for the old-style, ready-made cough syrups in bottles holding only 2 to 2½ ounces is very largely wasted, because most of them are composed principally of sugar and water. Yet you have to pay the same price as if it was all medicine. Stop wasting this money. You can make a better cough medicine at home at one-fifth the cost. Merely go to George A. Gorgas' drug stores and ask for 2 ounces (50c worth) of Schiffmann's Concentrated Expecto-rant. Mix this with one pint of granulated sugar and one-half pint of boiling water, which makes a full pint (16 ounces). This new, simple, pleasant remedy is guaranteed to relieve the worst cough or cold. Also excellent for Bronchial

BURIED 25 DAYS, HE LIVES

Survivor of the Recent Italian Earthquake Has Nerve-Wrecking Experience in Ruins

Rome, Feb. 9.—Few men have lived to tell a stranger tale than that of Michael Cairolo, who was extricated from the earthquake ruins at Paterno Sunday, after having been imprisoned for twenty-five days without food. Cairolo is recovering from the effects of his experiences, which he was able to describe yesterday.

"When the earthquake occurred," he said, "I attempted to escape but found myself blocked within a stable by my reins. Beneath the stable a cellar was being excavated from the rocks. I made my way into this excavation and so avoided being crushed to death.

"From the moment I entered the cellar, I saw no more light, and I believed I had become blind, as my mind could not conceive that the ruins covered the cellar so completely as to prevent a single ray of light from penetrating through. For a long time I cannot say how long—my despair increased until I became almost frenzied. I shouted with all my strength until I fell into an apathetic condition, almost like coma. This saved my life, for had I continued my desperate efforts to free myself I must have died of exhaustion.

"By feeling about with my hands in the darkness I found a wet spot and moistened by burning lips. This revived me, and with my hands I dug a hole in which water collected, and I was able to drink.

"Thus I managed to exist—how long I know not, as I lost count of the days—until yesterday I heard voices above me. Said one: 'All are dead.' Another answered: 'Quite so; but let us recover what we can of our property.'

"I aroused myself to make a supreme effort and screamed: 'I am alive, here in the cellar, Michael Cairolo.'

"Those above me, I am told, thought it was a ghost, but I continued my cries and convinced them that a living man was imprisoned in the ruins. They came to my rescue and in about three hours I was free."

BRIDAL PARTY OF 13 WAITS

Twelve Bridesmaids Among the Disappointed As Man Vanishes

Tamaqua, Feb. 9.—Miss Anna Firkin, in a suburb, was to have been married in the Greek Catholic church at Lansford yesterday, and twelve bridesmaids and ushers were to participate.

Melro Melneak, the groom-to-be, disappeared Sunday night, leaving an unpaid board bill of \$20 at the home of the girl's father, Wash Firkin, it is alleged, and the police have been notified.

CUB STAR ALLMONY VICTIM

Zimmerman Must Double \$20 Contribution in Playing Season

New York, Feb. 9.—At least one woman in New York will be glad when the baseball season opens, for Supreme Court Justice Brady, in the Bronx, signed an order yesterday decreeing that Heinie Zimmerman, third baseman of the Chicago Cubs, must pay his wife \$20 a week when the season is over and \$40 when he is pastiming at third for the Cubs. He must also pay \$200 alimony.

Mrs. Zimmerman is suing the great Heinie for a separation, charging the player with non-support of herself and infant child Helen. She asks \$500 counsel fee and \$200 a month alimony.

Practically Double on Pretzels

Lancaster, Feb. 9.—Pretzel bakers yesterday advanced the price of their output. Instead of two for a cent the ruling price is now a cent apiece, or six for five cents. Flour has advanced \$1.50 a barrel since January 1.

Buried Alive for 36 Hours

Butte, Mont., Feb. 9.—Richard Rogers was rescued yesterday from the cave-in at the Gagnon mine, after having been imprisoned 36 hours without food or drink. He suffered but little injury. The casualties as a result of the accident are four dead and two injured.

A STRONG DEFENSE

against general weakness can only be established and maintained by keeping the digestion good and liver and bowels active.

HOSTETTER'S STOMACH BITTERS

will help wonderfully in restoring the "inner man" to a strong and normal condition.

EXPORTS IN COMMERCIAL AUTOMOBILES INCREASING

Conditions Improving in Foreign Trade—Cotton and Woolen Goods, Rubber Boots, Shoes, Sole Leathers and Some Metals Show Big Gains

Washington, D. C., Feb. 9.—December, 1914, exports of manufactures regained the level shown by December of the preceding year, a decrease of 10 per cent. in finished manufactures being more than offset by the gains in manufactured foodstuffs.

In certain lines of manufactures, however, the exports during the month of December, 1914, show phenomenal gains over those of December a year earlier, as, for example, in the case of commercial automobiles, the value of which advanced from one hundred and one thousand to three and a third million dollars; cotton knit goods, from two hundred and ninety-five thousand to over two million dollars; woolen clothing, from one hundred and eighty-three thousand to one and one-third million; other woolen goods, including blankets, from one hundred and three thousand to two and three-fourths million dollars; and rubber boots and shoes from eighty-four thousand to eight hundred and sixty-four thousand dollars.

Leather goods also made a marked advance, sole leather exports increasing from three hundred and fifty-four thousand dollars in December, 1913, to three and three-fifths million dollars in December of last year; upper leather, from one and three-fourths million dollars to over three million, and boots and shoes from 1,254 thousand to 1,288 thousand dollars, while harness and saddles exports increased from forty-three thousand to one and one-half million dollars.

Zinc continues the large export movement which began during the fall of 1914. During the month of December, last, thirty-six and two-thirds million pounds were exported, as against only one hundred and thirty-seven thousand pounds in December a year ago. Metal-working machinery nearly doubled in value of exports, from 1,350 thousand dollars in December, 1913, to 2,432 thousand in December, 1914. Iron wire increased from 781 thousand to 951 thousand dollars; bars or rods of steel, from 777 thousand to 1,018 thousand dollars, and horseshoes, from a quarter of a million to three and three-fourths million pounds.

Europe is taking an unusually large proportion of the manufactures now being exported from the United States. Of the four and one-half million dollars' worth of automobiles, including both passenger and commercial vehicles, exported during the month of December, 1914, two and one-half million dollars' worth went to France and one million dollars' worth to the United Kingdom. Those two countries also took practically all of the metal-working machinery and England a preponderant proportion of the sole leather exports.

Denmark has the chief market for the cottonseed oil cake and meal exports and England and the Netherlands the chief markets for the cottonseed oil which left the country during the month of December. Practically all of the seventy-four million pounds of sugar exported during December went to France, and England and France were the chief destinations for woolen clothing, blankets and other manufactures exported during the month to the value of over four million dollars.

Facts in addition to these herein enumerated will be published in the December, 1914, "Summary of Foreign Commerce," which will contain a complete survey of the year's trade, showing the significant changes in our trade relations with the various countries.

ASKS ALL OF WIFE'S ESTATE

Pottsville Man Wants Deed He Gave Annulled

Pottsville, Feb. 9.—Benjamin H. Ray, of Pine Grove, yesterday filed a bill in equity, asking the court to dismiss Robert R. Miller as administrator of the estate of Louise Miller Ray, wife of the complainant, who died in Philadelphia, last summer, leaving an estate in her right of \$175,000.

The wife left no will and the husband declares that he did not know that under the intestate laws of Pennsylvania he was entitled to all of her personal estate, amounting to \$40,000 and a life interest in the remainder of her property. Consequently he signed a deed transferring half of the estate to Robert Miller. Ray now asks that the court annul this deed and in the meantime prevent Miller from selling any of the property. Robert Miller is a brother of Mrs. Ray.

Young Physician Dies

Columbus, O., Feb. 9.—Dr. Frank Whitlock, 32 years old, brother of Brand Whitlock, Minister to Belgium, died at Urbana yesterday. He contracted tuberculosis while an interne in a hospital in Cleveland.

DOES RHEUMATISM BOTHER YOU?

The Doctors Say "Use Musterole"

So many sufferers have found relief in MUSTEROLE that you ought to buy a small jar and try it.

Just spread it on with the fingers. Rub it in. First you feel a gentle glow, then a delicious, cooling comfort. MUSTEROLE routs the twinges, loosens up stiffened joints and muscles. MUSTEROLE is a clean, white ointment, made with oil of mustard. It penetrates to the seat of pain and drives it away, but does not blister the tenderest skin.

It takes the place of the musky, old-fashioned mustard plaster.

MUSTEROLE is recommended for Bronchitis, Croup, Asthma, Pleurisy, Lumbago, Neuralgia, Sprains, Bruises, Stiff Neck, Headache and Colds of the Chest (it often prevents Pneumonia).

At your druggist's, in 25c and 50c jars, and a special large hospital size for \$2.50.

Be sure you get the genuine MUSTEROLE. Refuse imitations—get what you ask for. The Musterole Company, Cleveland, Ohio.

1,000 MEN RESUME WORK

Gary Mill of Illinois Steel Company Begins Rolling Rails

Chicago, Feb. 9.—The Gary rail mill of the Illinois Steel Company resumed rolling yesterday and furnished employment for 1,000 men who have been idle some time. Four more open-heart furnaces are to be opened this week, according to officials of the company.

Solicitation of the \$500,000 fund to provide work for the unemployed began yesterday.

Spectacles May Trace Dead Man

Quakertown, Feb. 9.—Caked with ice after being exposed to the weather several days, the unidentified body of a well-dressed man was found in a woodland, near Rich Hill. According to a Norristown jeweler, a spectacle case, found in the dead man's pocket and bearing the dealer's name, was sold by him to Elias Meyer, a farmer near Norristown, and this may lead to identification. Coroner J. R. Umsted is investigating.

Appointed Freight and Ticket Agent

Bohrertown, Feb. 9.—George B. Grove, son of G. A. Grove, of Columbia, has been appointed freight and ticket agent at this place. He has been with the company about ten years in different places.

SPECIALIST EXPLAINS CAUSE OF STOMACH TROUBLE

Valuable Advice to Sufferers

"There are many different forms of stomach trouble," said a well-known specialist recently, "but practically all are traceable to excessive acidity and food fermentation. That is why the results obtained from the use of drugs are usually so disappointing. Admitting fermentation and consequent acidity of the food contents to be the underlying cause of most forms of indigestion, it naturally follows that the use of a reliable antacid, such as the pure bisulphated magnesia which is so frequently prescribed by physicians, will produce better results than any known drug or combination of drugs. Accordingly I am most gladly advising those who complain of digestive trouble to get some bisulphated magnesia (note the name carefully, as other forms are unsuitable for this purpose,) from their druggist, and take from one to two teaspoonfuls of the powder, or two or three compressed tablets, with a little water after meals. This by immediately neutralizing the acid and stopping the fermentation, probably advise those who complain of digestive trouble to get some bisulphated magnesia (note the name carefully, as other forms are unsuitable for this purpose,) from their druggist, and take from one to two teaspoonfuls of the powder, or two or three compressed tablets, with a little water after meals. This by immediately neutralizing the acid and stopping the fermentation, probably advise those who complain of digestive trouble to get some bisulphated magnesia (note the name carefully, as other forms are unsuitable for this purpose,) from their druggist, and take from one to two teaspoonfuls of the powder, or two or three compressed tablets, with a little water after meals. This by immediately neutralizing the acid and stopping the fermentation, probably advise those who complain of digestive trouble to get some bisulphated magnesia (note the name carefully, as other forms are unsuitable for this purpose,) from their druggist, and take from one to two teaspoonfuls of the powder, or two or three compressed tablets, with a little water after meals. This by immediately neutralizing the acid and stopping the fermentation, probably advise those who complain of digestive trouble to get some bisulphated magnesia (note the name carefully, as other forms are unsuitable for this purpose,) from their druggist, and take from one to two teaspoonfuls of the powder, or two or three compressed tablets, with a little water after meals. This by immediately neutralizing the acid and stopping the fermentation, probably advise those who complain of digestive trouble to get some bisulphated magnesia (note the name carefully, as other forms are unsuitable for this purpose,) from their druggist, and take from one to two teaspoonfuls of the powder, or two or three compressed tablets, with a little water after meals. This by immediately neutralizing the acid and stopping the fermentation, probably advise those who complain of digestive trouble to get some bisulphated magnesia (note the name carefully, as other forms are unsuitable for this purpose,) from their druggist, and take from one to two teaspoonfuls of the powder, or two or three compressed tablets, with a little water after meals.
