Life in the Falklands
The inhabitants of the Falkland islands are a prosperous race, noted for their hospitality. Living is cheap in the islands, and all kinds of English fruits and vegetables abound there. There are, however, two great drawbacks to life in the Falklands. The climate is never really warm and fires have to be kept up all the year round. Servants are procured with difficulty. Most people import them from England, but as English girls are frequently snapped up and married as soon as they land they have to sign an agreement to remain in service three years. If they break it in order to marry, the husband has to pay the passage out from England of another servant to replace his wife.—London Chronicle.

CURE—DRINK TEA!

It is inexpensive and entirely vegetable, therefore harmless.—Adv.

NEW DRUG LAW BECOMES OPERATIVE MARCH 1

Revenue Measure Approved by Congress and Now in Effect Restricts the Sale of "Habit Forming" Medicines

A new drug law, which is essentially a revenue measure but which will also have a far reaching effect in restricting the sale of certain medicines familiarly known as "habit forming" drugs, becomes operative on March 1. The law is drastic and effects physicians, dentists, veterinarians, private hospitals, dealers and manufacturers. Under this law physicians, dentists, veterinarians and others who wish to dispense, prescribe or sell the many drugs and medicines included in this class are required to make application to the collector of the internal revenue or of the district for registration upon blanks to be obtained from such collector and pay a required tax.

The act makes it unlawful for any persons, even one who has registered and paid the special tax to sell, barter, exchange or give away any of the aforesaid drugs except in pursuance of a written order on a form to be supplied by the collector of internal revenue.

The provision requiring order forms however does not apply to the sale, dispensing or distribution by physicians, dentists and veterinarians who register under this act and who keep a record of the drugs dispensed and distributed to patients whom they do not personally attend.

The provision requiring official order also does not apply to the sale, dispensing or distribution by a dealer who has registered under this act upon the prescription of a physician, dentist or veterinarian, provided the prescription is dated on the day it is signed, receipted for by the person presenting the prescription and preserved for two years for official inspection.

Any person who violates or fails to comply with the requirements of the act shall, on conviction, be fined not more than \$2,000 or be imprisoned not more than five years.

Druggists claim that under this law they will not be allowed to refill prescriptions written previous to the time the law goes into effect.

The law will have a very beneficial result in restraining the indiscriminate sale and use of such drugs as cocaine, morphine, heroin, laudanum, opium, chloral, etc., familiarly known as "dope" or habit-forming drugs.

A number of druggists, however, have

Home Relief Division Pays Out \$175 in One Day to Needy Women Who Are Doing Sewing—53 Workers Dropped From List

Appreciation of the work done by the local Home and War Relief committee and citizens in providing supplies for the war refugees and the wounded is expressed in the letter received by Mrs. James F. Bullitt, chairman of the Foreign division, yesterday. It is from Miss Mabel T. Boardman, of Washington, and in addition to complimenting the members of the local committee and the contributing citizens, describes the conditions confronting the nurses in the war zone.

The letter reads: "You certainly have a splendid energetic committee, and I was very glad to learn of the shipment of such good boxes for Serbia. We are just making arrangements for another shipment for that country, and will be glad to have those to send."

"Our nurse writes us there that the need is very great. Our new units are stationed in an old tobacco factory where there are 1,500 wounded and 400 fever cases, where there are no windows and men have to live on bean and cabbage soup."

"I am glad to see the fine spirit of the nurses; they say nothing of any discomforts on their own part."

One of the largest day's pay in the history of the Home relief division was last Friday, when more than \$175 was paid out in wages. At present 307 women are sewing while 116 are on the waiting list. Because some of the men

NEW PAIGE IS ON DECK

First Appearance of the Popular Machine a Great Event

The first appearance of the new Paige six-cylinder car in Harrisburg was heralded last evening. It was driven from Philadelphia to Harrisburg yesterday afternoon by Paul Bentley, son of George R. Bentley, of the Riverside Garage, the local dealer.

Quite a number of times the young man at the wheel, delighted with the action of the car on the homeward trip, asked, as they were approaching a steep incline, "Is this a hill?" and with perfect speed and no apparent engine effort, the mount was made; and this remark each time followed: "Doesn't it work to perfection?"—Adv.
