POLICE BELIEVE AEROPLANE STORY OF SHIPS CROSSING ST. LAWRENCE UNFOUNDED

Ottawa, Ont., Feb. 15.—After an all-night watch for the air visitors to three or four aeroplanes which were reported to have crossed the St. Lawrence river at Morristown, N. Y., and to have dropped a fire yesterday as they passed over Brockville, the Dominion police and officials were of the opinion to-day that the report was unfounded.

The chief of police of Ogdensburg, N. Y., 12 miles down the St. Lawrence river from Brockville, had heard nothing of the passage of the aeroplanes over Brockville or of excitement incident thereto. He said, however, that on Friday last a farmer, living five miles from Ogdensburg, had reported the passage of an aeroplane over his farm, traveling in the direction of the Canadian border.

After receiving the report last night, Premier Borden notified Colonel Sherwood, Commissioner of the Dominion police. The lights around the Parliament building, the royal mist and the residence of the Governor General were immediately ordered extinguished. This was the first time in its history that the mist has been darkened.

Sharpshooters from the Dominion police were stationed on Parliament Hill and guards were held in readiness to repel an attack should one be attempted.

The Duke of Connaught, Governor General of Canada, is on an inspection trip to Winnipeg, but the Duchess and the Princess Patricia are in the capital and were informed of the precautions taken to guard the city.

BORCHA'S CAPTURE OPENS ROAD TO COPPER WORKS

London, Feb. 15, 4.25 A. M.—A dispatch to the "Times" from Petrograd says:

"The 'Bourse Gazette' of Tiflis correspondent declares that the capture by the Russians of Borcha, a village beyond the river Chokh, Asia Minor, which the enemy had converted into an almost impregnable fortress, opens the road to the Zanzan copper smelting works which the Turks seized at the beginning of the war and are holding for German engineers and workmen to take possession of. It is a valuable property upon which the Germans had cast longing eyes before the war."

Russians Fortifying Bukovina Capital London, Feb. 15, 3.17 A. M.—The Russians are fortifying Cernowitz, capital of Bukovina, according to a "Daily Mail" dispatch from Botosani, Rumania, and it adds that the bridges over the Sereth river have been blown up. The Austrians, according to the same dispatch are holding the town of Sereth, twenty-four miles southeast of Cernowitz.

Japs Order Five Expelled Yokohama, Japan, Feb. 15, 9.30 P. AMERICA MUST BE CAREFUL Dr. Smucker Tells Congregation Country Must Not Lose Its Soul In a sermon, yesterday morning, full of live things Dr. Clayton A. Smucker said:

"It is time for the American folk to stop and think. American export trade, despite old difficulties and new ones, is growing by leaps and bounds. But what shall it profit the American republic if she gain the trade of the whole world and lose her own soul—the soul of her unity in thought and feeling of citizenship?"

"That is the danger of the situation confronting this nation to-day. Under the shadow of that danger it is time for the plainest of plain speaking. Seeing that danger, he is no American who sits silent."

"The European war-madness has invaded American business, finance, commerce and industry. Because of it some American men walk the streets in despair and some American women and children are in want of food. It will take our wit and will, all our zeal and strength, to remedy these evils at home and to do what we may to bind up the wounds and relieve the distresses abroad."

"Keep the war out of American politics, the American city, the American home. Bar it everlastingly from American citizenship. This we can and this we must. When tempted to do otherwise let us remember the words spoken by Him who spake as never man spake:

"If a kingdom be divided against itself, that kingdom cannot stand; Every kingdom divided against itself shall be brought to desolation; and every city or house divided against itself shall not stand."

SIGHT IS RESTORED TO CARRY VENDOR

Edward Aurand, Who Is Known to Many School Children, Can See Cross River Now

SEEKS NEW KIND OF EMPLOYMENT

Man Long Deprived of the Use of His Eyes Has So Far Recovered It That He Applies for Work at Government's Bureau in the Postoffice

Among the score of applicants for work who have taken out blanks at the United States government's employment bureau in the local postoffice since it opened for business several days ago, is a man who had been blind for nearly three years, but whose sight was restored in a successful operation in this city seven weeks ago and who, with his now strengthened sight, is eager to get work after his enforced idleness that he may gain a livelihood for himself and wife.

It was years ago that an accident destroyed the sight in the right eye of Edward Aurand, of 1625 Logan street, and cataracts in the left eye then brought blindness. Seven weeks ago today an operation was performed in the Harrisburg Polyclinic hospital on the left eye by Dr. Samuel Z. Shoop, specialist, and sight was restored.

The operation is considered a noteworthy one by members of the hospital staff and many other city physicians and surgeons who witnessed the operation, since the new novocain method which is at present creating lively interest was used for the first time in this city and with marked success.

Sold Candy to School Children Mr. Aurand is a middle-aged man. He came to this city twenty years ago, and was the conductor on the first car that crossed the Walnut street bridge in the lines of the Valley Railways Company, on which he was employed. It was when his eyesight failed that he was thrown out of employment.

During the last year, while blind, the unfortunate man gained support by making his way to school buildings and selling candy made by his wife. He has been a familiar figure on the edges of the playgrounds at up-town schools, and has made himself a favorite with the children through his wares.

He always had difficulty in getting about, he says, and several times narrowly escaped death in crossing streets.

Can See Across River Now During the operation at the Polyclinic hospital, which occupied fifteen minutes, Mr. Aurand was aware, he says, of all that was going on. The pain, of course, was deadened by the novocain. When the bandages were removed later, he says, he remembers seeing first the face of the surgeon, then he exclaimed:

"Now I can see you, doctor. Thank God!" Then he thought of a friend in this city in a position similar to his, and he rejoiced at the idea that the sight of that man might also be restored.

There is a striking similarity between this case and the case of a Scranton woman who not long ago had cataracts removed in Philadelphia and whose first thought after the bandages were removed was that a blind friend of hers in Scranton might receive sight through a similar operation.

Mr. Aurand is undergoing careful treatment, and says his sight is strengthening rapidly, and with great delight he assures those who speak to him on the subject that he can "see clear across the river now." He says his sight is better to-day than it had been for twenty years.

TWO MOTHERS WILL TELL OF THE "TWILIGHT SLEEP" Will Lecture Exclusively to Women Next Monday on the Wonderful New Method of Treatment Which is Little Understood in This Country

Next Monday, February 22, will be "Ladies' Day" at the Majestic Theatre. The audience will be composed exclusively of women with the exception of such practicing physicians as may care to attend, and the speakers on the stage will be women. Even the ushers will be replaced by girls. The occasion for this boycott of the male sex will be the appearance of Mrs. Mary Sumner Boyd and Mrs. Francis X. Carmody for the purpose of delivering lectures on the much discussed and little understood subject of "Twilight Sleep."

Although the famous Dr. Gauss and Dr. Kronig have treated more than five thousand cases during the last ten years in Freiburg, Germany, no whisper of this boon to womankind ever penetrated to the United States until a few short months ago. Since then the words "Twilight Sleep" have been on every one's lips.

Recently the "Twilight Sleep Association" was formed by Mrs. John Jacob Astor, Mrs. Orme Wilson, Miss Marguerite Tracy whose magazine articles on "Twilight Sleep" first awakened public interest, and other prominent women, with the object of sending on tour such of their members as had actually become "Twilight Sleep" mothers at the Woman's Hospital in Freiburg.

It is hoped to enlighten women throughout the United States as to the benefits of this treatment and eventually to endow a hospital and training school where women can receive the proper treatment when their babies are born without leaving their native country, and where physicians can be instructed in the proper use of the drug "
