Will Continue Until Saturday Evening

Thursday and Friday were days of continual surprises for style seekers—they had never seen such a showing in Harrisburg before so far in advance of the usual time for showing the new fashions. It pleased us also, because we COULD show the new things first—that is part of our service.

To-morrow there will be lots of interesting fashion sights, and every woman is invited to pay especially the millinery and suit departments a visit.

Visions of Grace and Beauty Are the New Spring Suits

If we could only stretch our imagination to the point of creating proper words, there might be some possibility of giving a fair description of these suits.

But we want you to see them, for you can secure a better idea of the coming spring styles than any fashion magazine can picture.

We'll expect you to-morrow.

Our Millinery Department Is Keeping Time With Fifth Avenue

—in showing the latest style tendencies, first. This is because our millinery chief is in constant touch with designers. Right now, the beautiful models here, are precisely the same that high-class Fifth Avenue shops are showing.

Trimmed Hats are presented in the most authentic styles such as only designers of note produce and you will agree with us that no showing in Harrisburg can compare with this one, for exclusiveness of style and variety.

Untrimmed Shapes—we cannot say too much about the assortment. While we feature shapes of rare beauty and fineness—the finest that are made, yet for **\$1.95** you may secure chic styles in good materials that will trim-up splendidly.

FISH STOLE HIS GASOLINE

Michigan Boatman Explains a Mysterious Disappearance

Detroit, Mich., Feb. 19.—Leo Kelly, director-general of Portage Lake, has solved one of the oldest of mysteries. Kelly operates the motor boat ferry service. A few weeks ago he observed a mysterious disappearance of gasoline from his reserve tank in the boat. Each night a gallon or more gasoline disappeared.

Kelly searched for leaks, tested his valves and could not find the cause of the shrinkage in the supply. He began to suspect that some one was pilfering during the night.

Watching his vessel to learn the cause of the loss of gasoline he heard an odd sound under the keel, and casting his light down to the surface of the water he saw large pickered sucking the gasoline from the escape pipe of the water line.
