Washing Won't Rid Head of Dandruff

The only sure way to get rid of dandruff is to dissolve it, then you destroy it entirely. To do this, get about four ounces of ordinary liquid arvon; apply it at night when retiring; use enough to moisten the scalp and rub it in gently with the finger tips.

Do this to-night, and by morning most if not all of your dandruff will be gone, and three or four more applications will completely dissolve and entirely destroy, every single sign and trace of it, no matter how much dandruff you may have.

You will find, too, that all itching and digging of the scalp will stop at once, and your hair will be fluffy, lustrous, glossy, silky and soft, and look and feel a hundred times better.

You can get liquid arvon at any drug store. It is inexpensive and never fails to do the work.—Adv.

Willis Discope one of the most simple ailments to over-come. Get about four ounces of Jad Salts from your pharmacist and take a tablespoonful in a glass of water before breakfast, continue this for two or three days. This will neutralize the acids in the urine so it no longer is a source of irritation to the bladder and urinary organs which then act normally again.

SPIRITED INCIDENT IN THE HIGH VOSGES

FRENCH INFANTRY ATTACKING A GERMAN CUSTOM-HOUSE IN THE HIGH VOSGES

This incident, drawn specially for this newspaper, the New York Heraid and the London Sphere, took place on a high point in the Vosges Mountains during a French attack on a German custom house. A lientenant rushed forward with a rifle with which to batter down the door of the house, but he was immediately killed by the fire of the Germans inside. Another officer who tried to do the same was also killed. Finally the French decided to rush the house and were successful in capturing it. The Germans did not give in until the last man fell.
