

RUSSIAN CORPS IN DESPERATE FIGHT

Plight of Twentieth Army, Described in Official Report

REPEL ATTACKS ON FOUR FRONTS

Russians Claim That Although Their Troops Were Surrounded by a German Army, the Former Inflicted Heavy Losses Upon Kaiser's Forces

Petrograd, Feb. 24.—The desperate resistance offered by the Twentieth corps of the Russian army to the advance of the Germans in East Prussia after it had been cut off from the Twentieth army is described in an official communication issued here last night.

Russian Communication Broken

"The communication of February 21 which described the unusually difficult position of parts of our army corps during the retreat in East Prussia applied to portions of the Twentieth corps commanded by Lieutenant General Bulgakov, comprising the Twelfth division and three reserve regiments. Communication between this corps and the Twentieth army was broken on February 13 and the corps found itself surrounded in the country between Goldap and Suwalki by a German army which constantly increased in numbers.

Heavy German Losses Reported

"According to accounts given by prisoners our corps inflicted heavy losses upon the Germans who attempted to bar the way, particularly in the lake region and the forest near Chita. Reports just given by various individuals belonging to the corps who managed to escape show the corps was ready to fight until its strength was completely exhausted, gallantly repelling attacks on our four fronts, retaining its artillery and taking with it many German prisoners.

Severe fighting continues on the right banks of the Bobr and Narow rivers.

German Offensive in Przasnysz

"A German attack along the Szezew-Kolno road was supported during the night of February 22 by armored automobiles and unusually intense fighting.

Austrian Attacks Repulsed

"In the Carpathians the Austrians bombarded a convent south of Mezolaborz with 12-inch mortars. We repulsed persistent Austrian attacks in the region of Miko, Smolinka and Tiszovca and inflicted enormous losses upon the enemy in the region of Mylo Kozourka.

CASH NEEDED TO INSPECT THE STATE'S BUSY BEES

"Foul Brood" of Both European and American Types Is Worse Than the Foot and Mouth Disease According to Beekeepers Now in Session

The European foul brood and American foul brood are destined to be as famous as the foot and mouth disease if the Pennsylvania Beekeepers' Association has its way. The foot and mouth disease loses in comparison with this bee pestilence and efforts will be made by the association to curb it with state aid, just as the disease that affects live stocks is curbed.

BEES WILL BE QUARANTINED, BUT MIND YOU, THEY ARE NOT KILLED LIKE CATTLE, THEY ARE TREATED AND AFTER THE DISEASE IS CHECKED, THE BEES INCREASE THE OUTPUT OF HONEY, AND THAT IS THE ARGUMENT THE BEEKEEPERS PUT FORTH.

The legislative committee reported this afternoon that it favors a bill to be sent to the General Assembly carrying an appropriation of \$10,000 to carry on the State inspection work. This work was localized four years ago but there was no money to pay salaries of inspectors, several of whom worked for two years without pay and two more with only part pay.

THE BEE INDUSTRY IN PENNSYLVANIA, ACCORDING TO PROFESSOR H. A. SURFACE, STATE ZOOLOGIST AND PRESIDENT OF THE BEEKEEPERS' ASSOCIATION, IS \$2,500,000.

The annual honey output is valued at \$1,000,000, the value of the bees in 300,000 colonies at \$1,000,000 and the value of fixtures for the industry \$500,000.

N. B. CRITCHFIELD, STATE SECRETARY OF AGRICULTURE, OPENED THE ELEVENTH ANNUAL CONVENTION LAST NIGHT WITH AN ADDRESS OF WELCOME.

Professor Surface spoke. There was a formal discussion of the diseases of bees this morning. The legislative committee's report took up most of the afternoon. The closing session will be held to-night. Thirty members attended the sessions which were held in the Senate caucus room in the State Capitol.

LATE WAR NEWS SUMMARY

Continued From First Page. lent attacks made by the French were repulsed.

Along the Eastern Prussian border, in Northern Poland, some of the fiercest engagements of the campaign in the east are taking place. An official statement from Petrograd reports that in these battles villages changed hands several times. Three German attacks on Przasnysz, where the conflict is sharpest, are said to have been repulsed. A Berlin dispatch says it is reported there that "further obstacles have arisen" to prevent an invasion of Russia. The correspondent of a Paris newspaper estimates that the Germans lost 50,000 men in the fighting in the north.

In the Carpathians the series of detached battles continues with no sign of a conclusion. The Russian War Office announced the American attacks at several points were repulsed, with enormous losses for the attacking forces. It is claimed that during the last month more than 48,000 Austrians have been captured.

It was announced officially in Berlin that a British transport had been sunk off Beachy Head, England. The location and time given make it probable, however, that the Berlin announcement has reference to the sinking of a British naval collier, which was made known last night.

A report from French sources is that the Rumanian army will take the field in April. The Rumanian Minister to London, according to this unconfirmed statement, will shortly present to the British government a communication to this effect.

GERMAN SUBMARINE SINKS OAKBY, A BRITISH VESSEL

London, Feb. 24, 2.18 P. M.—The British steamer Oakby was torpedoed by a German submarine off Rye yesterday. Her crew was rescued by a fishing smack and landed at Ramsgate to-day.

The Oakby was bound in ballast from London for Cardiff, Wales. She was struck on the port side. Her main hatch was blown off, her decks were splintered and the binnacle was hurled into the air. One lifeboat was swamped by the great volume of water thrown up by the explosion of the torpedo.

The fishing smack Gratia, which was four miles off, felt the shock of the explosion and hastened to the scene. The fishermen arrived in time to take off the crew of the Oakby, none of the members of which was injured.

The periscope of a submarine was seen before the explosion by the chief engineer of the Oakby. An attempt was made to tow the Oakby to Dover, but she sank off Folkestone this morning.

The loss of the Oakby apparently was mentioned in a dispatch from Lydd, England, last night. This message referred to the torpedoing of two vessels off Hastings. One sank, but her crew was saved and landed at Ramsgate. The other was in a sinking condition and a mine sweeper was described as endeavoring to tow her into Dover. The Oakby was 275 feet long and of 1,251 tons. She was built in 1897 and was owned in West Hartlepool.

AUSTRIANS LEAVE POSITIONS ON THE BUKOWINA FRONTIER

London, Feb. 24, 3.29 A. M.—Austrian troops and artillery have evacuated the positions they occupied on the Bukowina frontier across the Pruth river from Marmorita, Rumania, says a dispatch from "The Mail" from Marmorita dated Monday. The retreating forces are said to have moved back to Czernowitz because of the accurate Russian artillery fire.

The Austrians fear, says the "Mail's" correspondent, that the Russians are preparing a new offensive in the direction of Czernowitz and there are no signs of a "Pai Mai" from the Austrians to a further advance. The roads are deep in slush and mud because of a thaw.

Marmorita is situated almost at the point where the frontier of Rumania joins those of Galicia, Bukowina and Podolia, a government of South-western Russia.
