Miss Marsh in Recital

Miss Marsh in Recital

Miss Lucy Marsh will give a recital in the auditorium of Technical High school on Thursday evening, March 18. The proceeds of the recital will be used toward the payment of the debt of the Bethiehem Lutheran church.

Lucy Marsh, whose reputation on the concert platform is very firmly established, has successfully resisted the lure of the operatic stage despite the number of alluring opportunitifies that had been held out to her to win distinction in that province. Miss Marsh is unquestionably born to fulfill the higher artistic requirements of concert singing, as all who are familiar with her capabilities have unhesitatingly agreed.

Eat Less Meat if You Feel Backachy or

Bladder Troubles You—Salts Is Fine for Kidneys

Meat forms uric acid which excites and overworks the kidneys in their efforts to filter it from the system. Regular eaters of meat must flush the kidneys occasionally. You must relieve them like you relieve your bowels; removing all the acids, waste and poison, else you feel a dull misery in the kidney region, sharp pains in the back or sick headache, dizziness, your stomach sours, tongue is coated and when the weather is bad you have rheumatic twinges. The urine is cloudy, full of sediment; the channels often get irritated, obliging you to get up two or three times during the night.

To neutralize these irritating acids and flush off the body's urinous waste get about four ounces of Jad Salts from any pharmacy; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine and bladder disorders disappear. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to clean and stimulate sluggish kidneys and stop bladder irritation. Jad Salts is inexpensive; harmless and makes a delightful effervescent lithia-water drink which millions of men and women take now and then, thus avoiding serious kidney and bladder diseases.—Adv.
