AN EASY WAY TO END CATARRH FOREVER

Simple Home Treatment Destroys Germs of This Dangerous Disease The reason why so many people who suffer from Catarrh never seem able to get cured is that they are continually seeking the momentary relief of sprays, douches, greasy creams, ointments, etc. Such things do open up the swollen nostrils and clear the head temporarily, besides stopping for a while the disgusting blowing, hawking, spitting and choking, but they never cure. To drive out Catarrh for good you have got to get down to its real cause. Catarrh is a germ disease. The air is always full of catarrh germs thrown off by one person and absorbed by another and when the system does fail to throw off such germs they get permanent lodgment in the nose, throat and head and multiply rapidly.

The germs of catarrh can best be destroyed by inhaling the pure medicated air of Hyomei (pronounced High-o-me). This splendid and powerful combination of oil of Eucalyptus with other healing agents has a wonderful germicidal action. You breathe its air into your nose, throat and lungs by means of a small hard rubber inhaler which H. C. Kennedy and other leading druggists here in Harrisburg and vicinity supply with every treatment. This medicated air is certain drive to the germs of catarrh and drives them completely out of your system and when the germs are destroyed the catarrh with all its disagreeable symptoms will stop. Even two or three minutes use will give refreshing relief, while, if you will use it two or three times a day for a few weeks it will completely banish catarrh and every symptom of catarrh. As Hyomei is pleasant to breathe and is always sold by druggists everywhere with a positive guarantee of successful results or money back, surely no Catarrh sufferers should go long before trying this simple home remedy.—Adv.

In the Augustowo forest two regiments of the Twenty-ninth division, who had been surrounded during the retreat, broke through the enemy's lines and rejoined our forces. "Fighting is becoming very intense in the Przasnysz region. On the left bank of the Vistula we repelled attacks of the enemy at the village of Roguslaw, west of Potechno and Lopuschnko. There has been desperate fighting east of Lapkow pass in the Carpathians. Our troops have had several successes in the region of Munkato.
