## The Educator Shoe for Men and Boys Is Built to Conform to the Shape of the Natural Foot

U. S. Army tests prove that 20 per cent. or more of bodily efficiency is lost through narrow, pointed shoes. Such shoes bend and crumple the bones, causing corns, callouses, ingrowing nails and falling arch—and in a short time the whole system is affected. A shoe on the other hand, that is built to conform to the shape of a natural foot without extra looseness, will permit the foot to grow as it should and it will correct bent bone troubles that have not gone too far. Such a shoe will restore energy. That shoe is the good-looking, roomy-toed Educator. Made for men, women and boys. In tan, willow calf, gun metal, calf and black vicci kid, blucher lace style, with wear-resisting oak leather soles. Your money back for the asking if a pair of Educator fails to give satisfaction. Price, \$4.50

## Men's and Boys' Mackinaws at Clearaway Prices

The mackinaw is a popular style of topcoat in fancy plaid patterns, and because Spring is fast approaching we have reduced prices to hurry out the balance of our Winter stock.

Men's mackinaws that were \$6.50 and \$7.50, reduced to	\$5.00
Boys' \$3.98 mackinaws, reduced to	\$1.98
Boys' \$5.00 and \$6.00 mackinaws, reduced to	\$3.98

### Knit Hoods and Skating Caps

Tan, pink and green, with white stripes—	
50c caps reduced to	39c
95c caps reduced to	59c

## Combination Serge and Satin Dresses Reduced

The final clearance of winter dresses for women and misses occurs to-morrow, on the second floor. Exceptional values will be offered in combination satin and serge poplin and velvet.

\$18.50 velvet dresses in taupe and navy with trimming of satin. Reduced to	\$10.00
\$18.50 navy and black serge dresses, bound with black silk braid; sizes 18, 34 and 38. Reduced to	\$10.00
\$18.50 navy poplin dresses, with satin waist and skirt; sizes 36, 42 and 44. Reduced to	\$10.00
\$16.50 black serge Peter Thompson dresses; sizes 14 and 16. Reduced to	\$6.50 and \$8.50
\$18.50 navy serge dresses with white braid trimming; size 14. Reduced to	\$10.00

## U. S. FOREST COMMISSION DOES MUCH WORK IN 1914

### Annual Report Shows Many Improvements Were Made for Farmers, Grazers and Timber Growers in All Sections of Country

Washington, D. C., March 1.—Selling some billion and a half board feet of timber and supervising the cutting on several thousand different areas, overseeing the grazing of more than 1,500,000 cattle and 7,500,000 sheep, and building more than 600 miles of road, 2,000 miles of trail, 3,000 miles of telephone line, and 700 miles of fire line are some of the things which the government forest service did last year, as disclosed in the report by the chief forester for 1914. These activities were all on the national forests, which at present total about 185,000,000 acres.

There is need, says the chief forester, to increase the cut of timber from the national forests wherever a fair price can be obtained for the stumpage, because a great deal of it is mature and ought to be taken out to make room for young growth. Unfavorable conditions in the lumber trade caused new sales of national forest timber to fall off somewhat during the past year, though the operations on outstanding sales contracts brought the total cut above that of the previous year by 130,000,000 board feet. There was, however, a big increase in small timber sales, these numbering 8,298 in 1914 against 6,182 the previous year. Desirable blocks of national forest timber have been appraised and put on the market, and it is expected that these will find purchasers when conditions in the lumber industry improve.

## A CROUP SCARE

### Foley's Honey and Tar Compound Quickly Masters It.

**CROUP SCARES YOU.** That loud, hoarse croupy cough, that choking and gasping for breath, that labored breathing, have only too often foretold fatal results. Lucky the parents who have FOLEY'S HONEY AND TAR COMPOUND in the house, for you can be sure that the very first doses will master the croup.

"I'll get a bottle of Foley's Honey and Tar and stop being scared of croup."

FOLEY'S HONEY AND TAR COMPOUND cuts the thick mucus and clears away the phlegm. It opens up and eases the air passages, stops the strangling cough, and gives quiet easy breathing and peaceful sleep.

No wonder a man in Texas walked 15 miles to a drug store to get FOLEY'S HONEY AND TAR COMPOUND.

P. H. GINN, Middleton, Ga., says: "I always give my children FOLEY'S HONEY AND TAR COMPOUND and in every instance they get quick relief and are soon sleeping soundly."

Every good druggist is glad to sell FOLEY'S HONEY AND TAR COMPOUND for all coughs, colds, croup, whooping cough, bronchitis and whooping cough, and other throat and lung troubles. It satisfies every user, it helps infants, children and grown persons, and it never contains opiates. In 25c, 50c, \$1.00 sizes.

Geo. A. Gargas, 16 North Third street and P. R. R. Station.

## A NEW CHEAP INSECTICIDE THAT WILL BANISH PESTS

### Para-dichlorobenzene, Non-inflammable and Inexpensive, Will Kill Moths, Flies, Roaches and Ants and Insects Attacking Stored Grain

Washington, D. C., March 1.—"Para-dichlorobenzene" is the formidable name of a chemical compound which has only recently been used as an insecticide, but which, in being non-inflammable and comparatively inexpensive, possesses advantages over other fumigants. The U. S. Department of Agriculture's new bulletin (No. 167) is entitled, "Para-dichlorobenzene as an Insect Fumigant" and points out that the compound, although deadly to insects, is harmless to human beings under ordinary conditions and does not have an odor which clings to fabrics, as do many insecticides.

Para-dichlorobenzene is applied in most instances in the same manner as camphor and naphthalene. It is not, however, necessary to sprinkle it around in corners or over rugs and other material, as is often the case with camphor and naphthalene, but merely to expose a sufficient quantity in one or two open or partially closed receptacles, placed over, or higher, than the infested cases, goods and material which require fumigation.

Para-dichlorobenzene at the present time is sold in 5, 10, 25, 50 and 100-pound and barrel lots, the prices for which are as follows: 23 cents per pound, in 5, 10 and 25-pound lots; 18 cents per pound in 50-pound lots; 15 cents per pound, in 100-pound lots; 15 cents per pound, in barrel lots.

If any considerable quantity is to be used, it is much better to purchase of some wholesale druggist or direct from the manufacturers.

Para-dichlorobenzene is applicable to many insect pests living under various conditions and environment and, therefore, requires specific methods of application, and, unlike carbon bisulphide, it is at the present time used only indoors and in other places where its vapors can be closely confined. As there is a great variation in the tenacity of life among insects, the existing conditions should be carefully noted before para-dichlorobenzene is applied.

Beetles, such as the rice weevil, granary weevil, the confused flour beetle, the cadelle, the yellow mealworm and a few others less common, are particularly hard to kill when in the adult stage. The larvae of certain other mealworms are likewise found by experiment to possess great tenacity of life. It is, therefore, recommended that a proportionately larger amount of para-dichlorobenzene be used when combating these species. Moths, flies, roaches, ants and aphids are readily killed by para-dichlorobenzene when used in the ordinary straghten, as previously recommended.

## HAIR COMING OUT?

Dandruff causes a feverish irritation of the scalp, the hair roots shrink, loosen and then the hair comes out fast. To stop falling hair at once and rid the scalp of every particle of dandruff, get a 25-cent bottle of Danderine at any drug store, pour a little in your hand and rub it into the scalp. After a few applications the hair stops coming out and you can't find any dandruff.—Adv.

## STUDYING THE MISSOURI

### Water Resources of Entire River Basin Being Investigated by United States Geological Survey

Washington, D. C., March 1.—A systematic study of Missouri River and its tributaries is being carried on by the United States Geological Survey. Considering the varied character of the streams of the Missouri River basin and their great economic value for irrigation, power, and other purposes, the investigation is one of the highest importance.

The water supply of this great drainage area is the subject of a publication recently issued by the Geological Survey, entitled "Surface Water Supply of the Missouri River Basin, 1912" (Water-Supply Paper 326), by W. A. Lamb, Robert Follansbee, and H. D. Padgett. This report contains the records of flow at 130 permanent stations of the Survey during the year 1912, data which are necessary to every form of water development, whether it be power, navigation, irrigation, or domestic water supply. Some of the tributary streams are exceedingly variable in flow; others, like the Niobrara in Nebraska, are remarkably uniform.

## ORCHARD DEMONSTRATIONS

### Program for Dauphin and Nearby Counties Next Week

The second week of orchard demonstrations and general instructive and educational work under the auspices of the State Agricultural Department will begin next week. The following is the program for Dauphin and nearby counties:

Dauphin County—S. W. Kerr, demonstrator, Wednesday, March 10, A. M. Hoffman, Enterville; Friday, March 12, Middletown Orphanage, Middletown.

Cumberland—E. F. Pierce, demonstrator; Friday, March 12, G. Arthur Rea, Newville.

Juniata—J. S. Hochlander, demonstrator; Monday, March 8, Thad. Musser, McAllisterville; Wednesday, March 10, S. A. Robinson, Port Royal.

Lancaster—E. C. Bowers, demonstrator; Monday, March 8, Elizabethtown College, Elizabethtown; Wednesday, March 10, C. B. Snyder, Ephrata, R. No. 1; Friday, March 12, Dr. J. E. Hostetter, Gap, R. No. 1.

Adams—E. F. Pierce, demonstrator; Wednesday, March 10, D. Clarence Jacobs, Gettysburg, R. No. 5.

Lebanon—S. W. Kerr, demonstrator; Monday, March 8, Ira A. Glick, Mt. Zion.

York—E. F. Pierce, demonstrator; Monday, March 8, Albert Shorb, Hanover, R. No. 2.

Mifflin—J. S. Hochlander, demonstrator; Friday, March 12, Thurston Liddick, Lewistown.

Bedford—R. P. Madore, demonstrator; Thursday, March 11, W. S. Madore, Hyndman; Friday, March 12, Levi Wolford, Buffalo Mills.

Snyder—T. C. Foster, demonstrator; Monday, March 8, W. G. Snyder, Beavertown; Wednesday, March 10, W. W. Bruner, Paxtonville.

## DOCTOR'S HOME BURNS

### Residence Valued at \$20,000 Destroyed by Fire

Williamsport, Pa., March 1.—The large home of Dr. S. S. Koser, on Grampian boulevard, was totally destroyed by fire of unknown origin early yesterday morning. Six persons, including the surgeon's family and servants, escaped from the burning structure in their night clothes. The loss is about \$20,000.

Escape for two women down the stairway was cut off and they climbed to the porch roofs and gained the ground by means of ropes made of bed clothes. The fire was discovered by Dr. Koser when he arose early, and at that time had spread through the house. Jewels valued at \$2,500 were lost.

## 8,000 OPEN BIG REVIVAL

Lancaster Delegation March as Prelude to Stough Campaign

Lancaster, Pa., March 1.—Lancaster witnessed a remarkable religious demonstration yesterday afternoon, the largest in its history, which occurred at the tabernacle built for the six-week evangelistic campaign, which is next Sunday. The auditorium, with a seating capacity for 8,000, was packed.

Great delegations marched from every co-operating church, hundreds of men carrying small American flags, and a chorus of 1,500 voices led singing. The meeting, preliminary to the campaign, was addressed by Billy Shannon, Miss Dora Cain, of the Stough, and the Rev. E. A. Bawden and E. S. Snyder, of Lancaster.

## JUDGES ANGER SALOON FOES

### Anti-Liquor Forces Threaten to Begin Impeachment Proceedings

Middleburg, Pa., March 1.—Alleging that Associate Judges J. Frank Keller and Joseph Hendricks, of Selinsgrove, exceeded their authority in granting four liquor licenses last Saturday and overruling President Judge Albert W. Johnson, of Snyder county, the anti-saloon forces declare that impeachment proceedings will be instituted to oust the Judges from their office.

After deliberating since February 12 on license applications from Beaver town, Beaver Springs, Shamokin Dam and Port Trevorton, which were held up because of alleged violations of the liquor laws, the Associate Judges Saturday granted all four of the licenses over Judge Johnson's head.

## BOY SCOUT CRUSHED TO DEATH

### Lumber Pile Falls on Him While Searching for Hickory Story

Ashland, Pa., March 1.—Harold, the 14-year-old son of Charles Goyno, a wealthy foundry owner of this town, with a number of scout boy companions made a trip on the mountain late Saturday afternoon, and on the way home Master Goyno left his companions, telling them he was going to look for a piece of hickory. As he failed to return to his home for his evening meal his parents became alarmed.

The police were notified and a posse organized. Yesterday morning his mangled body was found crushed to death under a pile of lumber in Waldner's lumber yard on the outskirts, where the boy evidently went in search of the piece of hickory when the lumber fell upon him.

## ARREST FAKE EVANGELIST

### Boy of 16 Says He Had Easy Time Traveling Over Country

Reading, Pa., March 1.—After traveling through many States during the last six months, earning a living by singing in moving picture houses during the week and denouncing them and card playing and dancing when he played evangelist on Sundays, James Miller, 16 years old, of this city, was lodged in jail here yesterday following his arrest at Nazareth, Pa., at the instance of his sister, Mrs. Phoebe Focht, who charges him with larceny of \$100 worth of furniture and money from her home.

Miller's one regret was that he could not go to church yesterday and use the well-worn Bible which he exhibited. He said he had traveled all over the country and had an easy time of it playing evangelist.

CONKEY'S POULTRY TONIC FOR YOUNG CHICKS

It's all in getting them started right. CONKEY'S regulates and strengthens the sensitive organs and makes the chicks thrive and strong. Get a Pail of CONKEY'S STARTING FOOD is a wonderful aid in getting the chicks started. Feed it to every brood you hatch.

Harrisburg and Everywhere

## TROOPERS KILL RIOT LEADER

### Battle Opened by Foreigner Beating Woman With Poker

Washington, Pa., March 1.—A negro desperado supposed to be Charles Smith, 33 years of age, is dead; State Trooper Charles Nicholson is dying in a Pittsburgh Hospital and several citizens are suffering from minor wounds, as a result of a pitched battle, following a riot on the outskirts of the new manufacturing town of Langloeth, near here, the model town to which the late Jacob Langloeth, of New York, left \$100,000.

The trouble which resulted in the tragedy had its beginning in the beating of a woman by a drunken foreigner. Smith, the man later killed, was not concerned in the initial trouble, but later became the leader of a mob which battled the State police, who had been called.

Early yesterday morning State troopers were called to a foreign settlement near Langloeth by report of a riot. On arriving they found that a general fight had been started by a drunken alien attacking a foreign woman with a poker and beating her almost to death. The arrival of the State troopers seemed the signal for a still further outbreak.

Holding the maddened foreigners in check as best they might, Corporal Mauk and Troopers Nicholson and McCormick started on a search for the man who had wielded the poker. They were succeeding in their effort to quiet the foreigners when suddenly Smith, a giant of a man, appeared on the scene.

Smith was armed with two heavy revolvers and, running out into the front of the mob of foreigners, he yelled at them to charge the three troopers. The lines of the foreigners came together with some system and a disastrous charge seemed imminent.

## OLDEST MEMBER OF CHURCH DIES

Churchtown, March 1.—Mrs. Anna J. Boyd, 89 years old, died Saturday, from the infirmities of age. She was the oldest member of the Methodist Episcopal church. Two daughters survive.

## THE UNITED STATES COAST GUARD CUTTER MOHAWK MINES A WRECKED SCHOONER

The wrecked five masted schooner Elizabeth Palmer was mined off the Newick Island Shoals, at the entrance to Delaware Bay, by the United States coast guard cutter Mohawk.

The work of mining the Palmer was carried on in a moderate easterly swell, which made the placing of the mines exceedingly difficult. Standard United States Navy forty-nine pound gun cotton mines were employed, singly and in pairs. The destruction of the spars had to be undertaken piecemeal, in order to clear a way into the submerged hull.

The Elizabeth Palmer sank after she was in collision with the steamship Washingtonian, of the Hawaiian-American line, on January 26. As a result of the collision the schooner was very badly damaged, and on the night of January 27 she went down.

News of the collision was received by Captain G. L. Carden, of the Coast Guard cutter Mohawk, when he was three hundred miles off the coast. When the Mohawk arrived where the collision occurred, Captain Carden could see no sign of the Washingtonian. The Elizabeth Palmer was lying in eleven fathoms of water. She was on her beam end and only her port rail and her five masts were visible. The water was lashing the masts of the wrecked schooner.

A boat crew from the Mohawk was sent aboard the wreck and worked for hours trying to do something to save the schooner. As night approached the waves broke with greater fury over the wreck, and it was finally decided that the only thing to do was to destroy the schooner.

The wreck sank deeper in the water, and on the night of January 27 was completely submerged. Captain Carden then asked for authority to mine the wreck. He proceeded to that work last Tuesday.

The Mohawk, like other vessels of the Coast Guard Service, is constantly engaged in patrolling the United States coast to aid vessels in distress. She was one of the first ships to respond to the call for help sent out by the steamship Titanic.
