NEWS OF THE SPORTING WORLD

JOHNSON FEARED HOLD-UP

Fighter Afraid He Would Be Robbed of His Winnings, \$30,000, in Mexico

El Paso, Tex., March 2.—An entirely different angle is put on Jack Johnson's present attitude regarding the Havana-Juarez-El Paso controversy by a private letter received from the black champion.

Johnson never at any time was worried about the means that were selected to get him into Mexico and up through the rebellion-cursed country. What he was chiefly concerned in was how he was to get out of Mexico with his \$30,000 after the fight with Jess Willard.

The champion felt satisfied, he said in his letter, which was dated at the Barbados, B. W. I., that he could get into Mexico without anything but the loss of a lot of time.

But it appears that a lot of people have told him things about conditions in the northern section of the republic. This got him thinking. He figured out that if he was paid off on the Mexican side he would either have to send the money into the United States with some trusted friend, or run a big risk of being held upon his way out.

It was a tough proposition and Johnson could not fathom it. That's why he did not come to Juarez and battle Willard. At least this is the intimation in his letter.

STIFF FOOTBALL WORK

Michigan Candidates to Condition by Gym Practice

Captain Cochran, of the Michigan football team, proposes a strenuous indoor course of training for the Wolverine candidates by systematic work in the gymnasium. Last year an attempt was made to carry on an extended indoor training schedule, but the innovation was not taken to kindly by the Wolverine athletes, and the benefits derived were not as great as anticipated.

Several of the athletes who will be candidates for the varsity gridiron squad next year are now working out with either the track or baseball squads, and for this reason will probably not take part in the gymnasium drills with the football men.

Trainer Farrell and Dr. George A. May, the gym director, will help out Captain Cochran and his assistants in directing the work of the various squads.

Stallings Greets His Advance Guard

Macon, Ga., March 2.—Members of the Boston National League team who had arrived here were ready to begin spring training yesterday. Captain Johnny Evers, catcher Gowdy, Whalen and Traggesser and pitcher, Hess, were greeted on their arrival by Manager Stallings, who spent the winter on his farm near Macon.

A number of candidates for the Harrisburg Academy baseball team reported for practice yesterday and worked out in the gymnasium and on the field.

DUNN DICKINSON'S COACH

Noted Red and White Backfield Star Succeeds "Tae" Harrington of Penn

Carlisle, March 2.—The athletic advisory committee at Dickinson College has elected Francis A. Dunn, who is recognized as one of the greatest football players who has ever represented Dickinson, as football coach for 1915, to succeed Coach "Tae" Harrington, a former halfback from the University of Pennsylvania, who has had charge of Dickinson's eleven for the last two years.

Harrington's work here was entirely satisfactory, but he had raw material. Professional work prevented Harrington's making another contract. Dunn had a very successful season at Elking Park High school, where he trained football and taught English. Dunn, who is about 25 years old, has played as halfback and full back, and was graduated here last year.

MACK DENIES RUMOR

Says Yanks Did Not Offer \$25,000 for Frank Baker

Jacksville, Fla., March 2.—Connie Mack yesterday denied that Bill Donovan or any of the New York Yankee officials had made him any offer for the services of Frank Baker. Mack stated that he had seen such reports in the papers, but reiterated that Baker was not for sale to any one.

All the varied reports about Baker going with this and that team are fakes or just mere rumors which no one will ever be able to verify," said Connie Mack yesterday.

"If Baker plays again he will play with us. It has been published that he is tired of farming already. I don't think that's true, and I don't believe he would play ball this season for any amount of money. He's not a money grabber. I have not received an offer of \$25,000 from the New York Club for Baker."

FLYNN AT JUAREZ, DEFIANT

Will Box Smith or Anybody Else—Willard Waiting for News

El Paso, Tex., March 2.—Firemen Jim Flynn arrived here last evening with Chicago ready for a bout in Juarez with Gunboat Smith or any other man of his weight. For several days efforts have been under way to locate Flynn, but he finally dropped in unannounced. Smith now is said to be in New York and even if a match can be arranged it will require some time before he can come here and train for the fight.

Willard did not stop his training work yesterday, as he expects to hear something definite from Jack Curley and Jack Johnson from Havana today.

Score of Cubs Reach Tampa

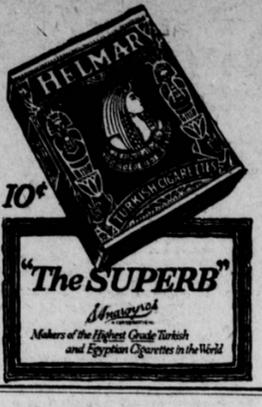

Tampa, Fla., March 2.—Twenty members of the Chicago Nationals began yesterday their spring training here. Other players are expected later. The clubs will meet the Philadelphia Nationals at St. Petersburg, March 8, in their first practice game of the season. The latter team arrived at its training camp at St. Petersburg last night.

Red Sox Grab Bill Sweeney

Boston, March 2.—William Sweeney, who was recently released by the Chicago Nationals, yesterday signed a contract to play with the Boston Americans during the coming season. Sweeney was formerly captain and second baseman of the Boston Nationals, going to Chicago in connection with the Braves' deal for Johnny Evers.

Yankees Invade Savannah

Savannah, Ga., March 2.—Manager Donovan and ten players of the New York Americans reached here yesterday to begin spring training. Eight more arrived last night. The battery candidates are expected later from Hot Springs, Ark., where they have been at work for a week.

MAGNESIA IN SEA SHELLS

Effect of Climate on the Composition of Echinoid Skeletons

Washington, D. C., March 2.—Chemical analyses of starfishes, sea urchins, and crinoids, collected from all parts of the world, show that the skeletons of these animals contain much magnesia. The amount present is found by the United States Geological Survey to vary with the temperature of the water in which the creatures lived. The percentage of magnesia is highest in those specimens that lived in tropical waters and lowest in forms from the icy seas of Greenland and the Antarctic, with a regular gradation between which even shows the local effect of cold ocean currents upon life at the sea bottom.

The investigations suggest that the skeletons of these animals have the composition of magnesian limestone, or dolomite, and it is possible that they furnish clues not only as to the climatic conditions under which such limestones are now formed, but also as to the temperatures of the oceans in different regions of the earth where, during different periods of geologic history great deposits of magnesian limestone were formed. Examinations of these marine invertebrates will, it is hoped, yield definite information as to the processes of dolomite formation.

Ten Years' Misery Ended

J. T. Chambers, merchant, Jonesboro, Ark., writes: "Foley Kidney Pills cured me of a ten-year standing case of rheumatism. I suffered miserably. A friend told me of being cured; so I used them, and they cured me, too."

Most middle-aged men and women are glad to learn that Foley Kidney Pills afford a way to escape sleep-disturbing bladder weakness, backache, rheumatism, puffiness under eyes, stiff and swollen joints, and other ills attributed to kidney troubles. Geo. A. Gargas, 16 North Third street.—Adv.

Washington, March 2.—President Wilson has decided not to have a public hearing on the seaman's bill, because of the crush of other work attending the closing days of Congress.

The President has asked the State Department how it affects existing treaties, and it is understood he has been told that about twenty-two conventions with foreign nations would be concerned.

WANT BETTER SERVICE

Travelers' Association Asks P. & E. to Run Night Trains

Lebanon, March 2.—The movement calling on the Philadelphia & Reading Railroad Company to better its night passenger facilities between Harrisburg and Easton is well under way with Post E. of the Travelers' Protective Association of America as the prime mover. The traveling men in this city and other towns between these points request the Railroad Company to run later passenger trains East and West on the Harrisburg division.

They contend that at the terminals at Easton and Harrisburg it is impossible to make connections after 6.30 o'clock in the evening and this they declare seriously handicaps them as well as the transient public. They say that the lack of night train service through this territory with schedules that do not permit changing from the South, West and North at both terminals, is detrimental to all the towns on the division.

ALLEGED BIGAMIST HELD

Mt. Carmel Man Was Taken on a Farm Near Syracuse, N. Y.

Mount Carmel, March 2.—After he had been missing two years, Walter E. Weissinger, of the firm of L. W. Weissinger & Brother, prosperous beef packer here, was located at a farm near Syracuse, N. Y., where it is alleged he was living a bigamous life and has a child with his second wife. His whereabouts was discovered by F. A. Witmer, a brother of Federal Judge Charles B. Witmer, of Sunbury, lawyer for his deserted wife, who lives here.

Weissinger, it is said, in July two years ago, left his wife and five children, whistling and jovial. He disappeared. Later she got a postcard saying he was drowned at Niagara Falls. Last week word was received that he was on a farm near Syracuse and he was located and identified.

He is now in jail here. Weissinger was said to be well to do when he disappeared.

PENROSE INQUIRY DROPPED

Committee Refuses Appropriation for the Investigation

Washington, March 2.—There will be no investigation by this Congress into the charges of Representative A. Mitchell Palmer that \$1,000,000 was expended to elect Senator Penrose to the United States Senate last November. Action on the Norris resolution, providing for an inquiry into the election in Pennsylvania and in the primary in Illinois, was indefinitely postponed yesterday by the Committee on Contingent Expenses.

The advice of Senator Williams, Democrat, the chairman, and Senator Reed, of Missouri, another Democrat, led the committee to refuse to consider an appropriation for the expenses of such an inquiry. It is not thought likely that the next Congress will authorize the inquiry.

Sentenced to Death

Pottsville, Pa., March 2.—Judge Bechtel yesterday sentenced Michael Louis, of St. Clair, to the electric chair for the murder of his wife. It was the first time a Schuylkill county court passed the sentence on a man, "to be shocked by electricity until you are dead."
