ATTEMPT TO HAVE CATTLE EMBARGO LIFTED IN STATE

Representatives of Meat Firms Try to Induce State Officials to Continue Shipments From Districts Infected With Foot and Mouth Disease

An unsuccessful attempt was made by live stock shippers yesterday afternoon to induce Dr. Marshall, head of the Live Stock Sanitary Board, to lift the embargo on the shipment of cattle from the districts infected with foot and mouth disease through Pennsylvania.

It was represented to Dr. Marshall that the Jews in the Eastern States who depended on their meat supply through the cattle shipped from the West could not get sufficient because of the Pennsylvania embargo, all cattle from the West being shipped through Pennsylvania.

Saving Fund Deposits Reports of Pennsylvania savings fund institutions made to Banking Commissioner Smith for the period from June 1, 1914, to January 25, 1915, show that the assets of these institutions are \$244,267,692, an increase of \$3,000,000 over the same period last year.

Maurer Goes Free Representative Maurer, of Berks county, who was arrested in Allentown last August for attempting to hold a meeting in Centre Square, Allentown, despite the order of the Mayor that the meeting should not be held, and who was fined \$100, will not have to pay the fine.

Gessner Fined, but Not Jailed Captain William C. Gessner, of Allentown, former commander of Company D, National Guard of Pennsylvania, yesterday pleaded non vult to a charge of having embezzled \$600 of the State's money entrusted to his care at the last encampment.

Benjamin F. Crane Benjamin F. Crane, aged 50 years, 1517 1-2 North Third street, an engineer on the Philadelphia division of the Pennsylvania railroad, died suddenly in his auto near his home yesterday morning.

Lewis P. Slaughenbapt Lewis P. Slaughenbapt, aged 29 years, an employe of the Harrisburg silk mills, died at his home in Lemoyne, yesterday. He is survived by his wife, two daughters, mother and three sisters.

Ambrose McElroy Sourbeer Word was received here yesterday of the death of Ambrose McElroy Sourbeer, foreman of a brass foundry at Parsons, Kan. Mr. Sourbeer was 69 years of age, and had a number of relatives in this city.

Supper at Camp Hill Camp Hill, March 4.—The ladies of the Trinity Lutheran church will give a supper at the fire house to-morrow from 4.30 to 8 o'clock.

COCOANUT OIL FINE FOR WASHING HAIR

If you want to keep your hair in good condition, the less soap you use the better. Most soaps and prepared shampoos contain too much alkali. This dries the scalp, makes the hair brittle, and is very harmful.

ONE SPOONFUL GIVES ASTONISHING RESULTS

Harrisburg residents are astonished at the QUICK results from the simple mixture of buckthorn bark, glycerine, etc., known as Adler-ika. This remedy acts on BOTH upper and lower bowel and is so THOROUGH a bowel cleanser that it is used successfully in appendicitis.

HAUGHTY SEMINOLES.

They Don't Like White Men and Wish Only to Be Let Alone.

Many people in the northern states are unaware that there dwells in the fastness of the Florida Everglades one of the most interesting and picturesque bands of American aborigines in the United States, known as the Seminole Indians, who are now as separate and distinct from the white race as when Columbus first held mass on the shores of Cuba.

While the numerous wars and forced emigration have reduced their numbers to a few hundred, their mode of living, dispositions and customs are in many respects the same as when the haughty De Soto sailed into Tampa bay in 1539. The Seminoles live to themselves, avoiding contact with the white race as much as possible and seldom if ever taking whites into their confidence.

ELECTRIC SPARKS.

Simple Homemade Apparatus by Which They May Be Produced.

The ordinary person either does not understand or is afraid of electricity and could scarcely be persuaded to manufacture it himself, and yet after all a little electrical experiment at home is both amusing and instructive.

Afterward take a tray, also perfectly dry, and place it upon the glass in such a way that it shall preserve its equilibrium. Finally take a sheet of paper slightly smaller than the tray, heat it and rub it rapidly with a brush, and it will become quickly electrified.

If, when the sparks are being drawn from the tray, the room in which the experiment is performed be darkened these sparks will appear extremely brilliant.

TREAT CANCER QUICKLY.

"It is Not Surgery, but Delayed Surgery, That Fails to Cure."

That cancer is at first a local growth and not a general disease of the system is now clearly established. This fact is of the utmost importance, since it holds out a high hope of cure if the malignant growth is removed before it has time to spread to other parts of the body.

The reason why so many people came to believe that cancer was a blood disease is doubtless because it was observed to come again in the same or other parts of the body after having been apparently cut out.

The trouble which started this fallacious reasoning was that in those earlier days cancer was not so well understood as it now is. Surgeons then did the best they knew how, but without the advantages of modern methods they were unable successfully to exterminate the disease.

"It's pretty hard to sleep on an empty stomach," said the tramp wearily to the hustling farmer's wife.

"Why, you poor fellow!" she replied sympathetically. "Why don't you turn over and sleep on your back for a little while? Ye hadn't wore it out lying on it, hev ye?"—Judge.

"Those envelopes with the glass fronts are great time savers, aren't they?"

"You bet they are. When I get one of them I never have to bother to open it. I know right away it's a bill!"—Detroit Free Press.

Modesty of Bach

From the time when Bach was so fortunate as to receive the appointment of organist at Arnstadt, with an annual salary of \$70 to \$80, his desires were apparently fulfilled. He sought for no higher post, and only when a new one was offered him did he accept it thankfully as a gift of Providence.

Ocean Cables

The diameter of the Atlantic cable varies according to the depth of the water, the character of the bottom on which it lies and the probabilities of interference from anchors. It is smallest in midocean depths. There is little or no movement at the bottom, and it is important that the cable should not have great weight.

He Was Acquainted The visitor to the links at Hayseed-on-the-Mud had the oldest caddy in the district allotted to him as his beast of burden.

"Well," said the visitor, "as you have been living in the neighborhood so many years I suppose you know all the ins and outs of this place?"

The Black Watch. In 1730 six companies of Highlanders were raised for the protection of Edinburgh, and the following year were consolidated into a regular regiment, the Highland regiment, and were numbered the Forty-second. On becoming amalgamated the colors on their tartans were extracted, leaving only the dark green ground as a tartan, and from this they took the title of the "Black Watch."—New York American.

MUSIC LOVERS WILL HAVE OPPORTUNITY TO HEAR HER IN THIS CITY

The appearance of Miss Lucy Marsh, the noted soprano in song recital at Technical High school auditorium the evening of March 18, will be one of the musical treats of the season.

Miss Marsh, whose reputation concert platform is very firmly established, has successfully resisted lure of the operatic stage despite number of alluring opportunities have been held out to her to win distinction in that province. No one listens to her faultless singing can feel that she is unquestionably born to fulfill the higher artistic requirements of artistic singing. Her voice is a soprano, of unusual compass and volume. Vocal teachers consider it of the loveliest voices now before the public.

An opportunity to hear Miss Marsh is very rare indeed. Her appearance in this city is under the personal direction of Miss Mary Corbett for benefit of Bethlehem Lutheran church. Seats sold open to-day at the J. Troup Music House, 15 South Main square.
