PITTSSTON AWARDED RAG

Penna. State League's First Season Proved a Financial Success. Hazleton, Pa., March 9.—At the final meeting of the Pennsylvania State Basketball League at Hazleton the pennant was awarded to Pittston, which finished first in the race which closed last week. It will be presented to that team by T. R. B. Winkell, manager of the Rockwood five, of Philadelphia.

The first year of the State League closed with every club financially ahead of the game. Each club reported balances in its treasury and each team was given back its forfeit money posted at the opening of the season. Votes of thanks were tendered the managers for their economical handling of the funds.

President Scheffer, of the Eastern League, responding to a challenge from President Lewis, of the State League, stated that it was optional with the Eastern circuit pennant winner if it desired to play a post season series of games with Pittston, which landed the Pennsylvania flag.

JOE BUSH HURT

Jacksonville, Fla., March 9.—Joe Bush and McConnell, the young infielder, who is rapidly making a name for himself, were injured in yesterday's practice. Neither is seriously hurt; at the same time, both will not be able to go through the regular routine for a few days.

Bush's injury was a dual affair. He was pitching to Lapp, when a wild throw came his way. He saw the ball just as Lapp was tossing the ball back to him. Trying to avoid both balls, Joe was hit on the left ankle by the will heave, and on the middle finger of his right hand by the ball Lapp threw.

McConnell was hurt at third base in fielding practice. He leaped into the air after a high liner and in coming down hit his ankle on the bag and turned it.

TO FIGHT ON APRIL 3

Johnson-Willard Bout Now Scheduled for Havana. Havana, March 9.—A fight for the world's heavyweight pugilistic championship will take place at Havana, Saturday, April 3, between Jack Johnson and Jess Willard.

The last obstacle in the way of having the fight take place here was removed yesterday afternoon when Jack Carley, who endeavored to have the men meet at Juarez, Mexico, March 6, received a cable from Willard saying that he would start immediately for Havana, arriving here from New Orleans March 15.

The terms for the fight are identical with those which would have prevailed had the encounter taken place at Juarez. Mr. Curley will act as the chief promoter, and will be assisted by Richard Klegin, as managing director. The site for the battle has not yet been selected, but several excellent places are available.

Johnson began training yesterday. Willard probably will have training quarters at Marianao.

James to Join the Braves. Chicago, March 9.—"Big Jim" James, pitcher of the Boston Nationals left here last night for Macon, Ga., with the intention of working out the two years his contract with Manager Stallings called for. He spent much of Saturday with Charles Wegman, president of the Chicago Federals and sought to sign a contract with the Federals according to Wegman, but was not held eligible to the Federals because of his contract with Boston.

American Assc. Without a Schedule. Chicago, March 9.—George Tebeau, president of the Kansas City club and head of the schedule committee of the American Association who passed through Chicago yesterday on his way West, declared that the association is still without a schedule for the coming season. He said the delay was due to the failure of the advocates of a 168 and 154 game season to agree, but that the program for the longer season would be adhered to.

CUT IN WAGES PROPOSED

Employees of Factory Asked to Accept Five Per Cent. Reduction. Wilkes-Barre, Pa., March 9.—Notices were posted at the tin factory of W. B. Bertels & Sons yesterday, to the effect that employees will either have to accept a 5 per cent. reduction in wages or else be satisfied to work but four days per week.

The factory, in good times, employs 200 persons. This force has been reduced to 150. The factory has been working six days per week. Charles E. Bertels, president of the company, yesterday said: "Price-cutting by other companies and the depression of the market makes it necessary for us to devise some plan if we are to continue in business. We have asked employees to accept a 5 per cent. reduction or work only four days per week. Whichever proposition is accepted will be only temporary."

Seek Heirs to \$100,000

Pottsville, Pa., March 9.—A law firm of New Brunswick, Canada, is in communication with Chief of Police Hopstine here, trying to locate two miners, brothers, who have inherited \$100,000 from their father's estate. They are Hugh and James Reedy. They had come on account of a disagreement with their father.

Court Officer Blames Them for Driving Husbands to Drink

Boston, March 9.—Women who do not keep their homes in order should be subjected to arrest, as well as the man who becomes intoxicated, is the opinion of Albert J. Sargent, chief probation officer of the Municipal Court.

"If a man deserts his wife she can have him arrested and yet the wife can neglect her home until she drives the man away and to drink, and go unpunished," he said. "When a man is arrested for drunkenness his home should at once be visited and conditions there investigated. If this home is slovenly kept the wife should be arrested along with her 'better half,' and should be given the same sentence."

"There are women coming to this office for the money paid by their husbands through the Court for their support whom I feel like arresting every time they appear. Not a few of them were so neglectful of their homes that they drive their husbands from them. If a wife fails to give her husband proper food and makes him seek the free lunch of the 'barroom' she should be punished."

When is a Bug a Pest? Six Lawyers Ask Northumberland Court to Answer Question. Sunbury, March 9.—When is a bug a pest? This is the question six lawyers yesterday asked Judge Moser to decide in an equity suit over an invasion of millions of bugs into the home of George Oyster, an ex-Councilman.

Oyster alleged that a willow tree on the property of Mrs. Levy, his next door neighbor, each summer becomes infested with millions of insects of vermillion color, which make his life miserable, infest his home, ruin his carpets and cause much distress. He asks the Court for a removal of the tree.

The defense contended that the bug has never been a pest, inasmuch as the tree has been there for more than a century, and that Oyster was the first to complain. After a day's testimony it was left to the Court to decide.

Lawyers for Oyster last night offered to call in State Zoologist Surface, in an effort to prove their contention.

CHEAT CREEKS OF MILLION

Charge Results in Receiver for Tommy Atkins Laid Alotment. Muskogee, Okla., March 9.—A receiver for the Tommy Atkins allotment, said to be worth \$1,000,000, was appointed yesterday by the Federal Court. In this case the government, for the Creek Nation, contends that the allotment made to a fictitious person and that it should be canceled and the property revert to the Creeks. An oil company has a lease on the land and is producing 8,000 barrels of oil per day.

The government made an arbitrary allotment to "Tommy Atkins" because his name was on an old Indian roll. Now, it contends that there never was such a person, while the two oil companies have produced two women, each of whom claim to be the mother of "Tommy Atkins."

Cautious, Though Courting Death. Towanda, Pa., March 9.—Roy Van Laven, aged 17, "hopped" a Lehigh train at Athens Sunday, rode a few miles toward Towanda, dropped off in front of a fast passenger train and was instantly killed. Van Laven shouted: "Be careful, fellows!" just as he dropped to his death.

Trapped in Flaming Caboose. Lancaster, Pa., March 9.—The caboose of a freight train on the Pennsylvania railroad broke loose yesterday morning, rolled over and shot along the track 292 feet. Its stove was overturned and the car's woodwork caught fire, but Conductor G. W. Sheasley, brakeman C. Campbell and flagman Banks, all of Enola, were rescued, badly burned.

Send Drug Fiend to Asylum. Berwick, Pa., March 9.—Deprived of his "dope" since the enforcement of the new federal drug law, Thomas Harris, of East Ninth street, became violent, and, fearing he would carry out his threats to kill his mother and several of the neighbors, he was committed by the Poor Overseers of Berwick to the Danville Hospital for the Insane.

Minersville Merchant Acquitted of Trying to Get Insurance Money. Pottsville, Pa., March 9.—Isaac Diamond, a clothing merchant of Minersville, accused by Deputy Fire Marshal Charles Qandoli with setting fire to his own place of business December 17 in order to get the insurance money, was acquitted yesterday afternoon after a trial lasting four days.

The fire was a small one, no damage being done, but the discovery on the spot of piled up wood, under which was paper soaked in oil, led to the prosecution. The insurance company presented the defense that it would be required for him to try to destroy the building and stock for this sum when the market value of the property was \$10,000.

Two Peeps From One Egg. Marietta, March 9.—Vernon Deitz, an electrician and fancier of single comb Black Minorcas, three weeks ago set a hen with fifteen eggs, and yesterday a large egg double-yoked brought forth two healthy chicks, the first time that this has been heard of in this section. They were the first two to arrive.

STEELTON WILL PLAY TECH

High School Teams Will Battle for Second Time This Season Tomorrow Evening. Steelton will engage Tech for the second time this season in the Technical High school gymnasium to-morrow evening. The Blue and White terrors played an uphill game and defeated Tech in Felton Hall in the first meeting and should Steelton trim Tech in this game the local school will be out of the three-cornered scholastic championship series which includes the Central High school.

Unusual efforts are being made to perfect team play for the coming battle with Steelton and Coach Grubb feels confident that Tech can emerge with a victory. The local school outplayed Steelton in the opening half of the first game between these two teams but went to pieces in the latter half of the contest and Steelton won easily.

Melville and Yoder will both be in the game for Tech. Melville was out for some time on account of illness and Yoder was out suffering with a torn ligament. Both have fully recovered. The scrub teams of the two schools will play.

CAMDEN TO RETURN

Eastern League Five to Play Harrisburg Independents. Camden of the Eastern League will make its second appearance in Harrisburg on Saturday night. As the Harrisburg Independents defeated the Jersey five in the first game Camden will try and even up the series.

The regular Eastern League lineup will appear and Captain McCord of the Independents will put his men through a hard practice this week to have them in the best of condition. The game will be called at 8 o'clock and will be followed by the usual dance. L. P. Dickey will give another of his interesting exhibition of dances between the halves.

INTERNATIONAL MOTOR TRUCKS IN GREAT DEMAND

Can Attain a Speed Four or Five Times That of a Horse—Permits Larger Expansion of Trade Than the Wagon. The beginning of 1915 finds hundreds of International Motor Trucks used by representative firms of all kinds in Dauphin and a few surrounding counties, and the proportion of horse-drawn vehicles are constantly decreasing.

Business firms now recognize the fact that without new trade their business will languish and die. Horse-drawn delivery will limit a firm to a restricted district, while a motor truck permits a large expansion of trade. We are constantly placing the International with progressive firms who are serving customers throughout the cities and suburban towns, whom they would otherwise lose.

The responsibility of the manufacturer, the service facilities of the selling department and the figures on which are based the claims for economy are regarded to-day as the most vital considerations by the purchaser.

Many owners of International Motor Trucks report to us their experience in penetrating extreme conditions of roads, such as deep mud and heavy snow drifts, that are considered impassable for horse service. Instances of this nature only remind us of the fact that the International is thoroughly reliable for twelve months service each year, regardless of weather or road conditions. Business men know that nothing is worse for trade than an infrequent delivery service. Modernizing delivery service by adopting motor trucks is only partly solved by the delivery system, but providing competent drivers has been one of the difficult problems. Regardless of how "fool-proof" the mechanism and adjustments may be arranged, the motor truck still remains a mechanical piece of engineering and will require some intelligence for its successful operation.

The drivers should not only understand the simple method of steering, steering and stopping the truck, but should be familiar with some certain adjustments and the proper lubrication of the truck of which he has charge. Sorry to say that many employers do not realize the importance of selecting a thoroughly capable driver for his motor truck, but applies the old fatal maxim, "Penny wise and pound foolish," by employing some cheap, inefficient boy, thereby jeopardizing his delivery system, and finally declares the use of the motor truck a failure.

The motor truck loaded to its capacity can safely, on good condition of roads, attain about four to five times the speed of horses under similar conditions, and the habit of working faster in loading and unloading motor trucks is being adopted by many leading firms and has eliminated to a large degree the necessity or demand for heavy capacity trucks, and now favoring the medium sizes as a matter of economy in purchase, convenience, quicker deliveries, less upkeep expense and storage.—Adv.
