You've Never Heard of a Sale Like This
Disposal of Women's
Sample Neckwear at 39c

It's the same familiar story about a salesman selling out his sample lot, but in this case the values are so wonderful. There are a few that represent 50c pieces, but most of them are of the \$1.00 to \$2.00 grade. They're clean and fresh looking—and just the proper styles. Lot consists of 350 pieces, made up of vestees, collar and cuff sets, and a few individual collars. Very special,39c

Main Floor—BOWMAN'S.

No Woman Need Wear An Unbecoming Hat

It seems to be the custom of various millinery shops to favor a particular shape as "the style," and their patrons are asked to wear that certain one regardless of whether it is becoming or not, just to be "in style."

'Tis Different at Bowman's--

Here our tremendously large assortments are made up of hats designed by a score or more designers, and it's not likely that many are alike.

There are small hats; so small that they appear to be a part of the head—there are large hats, so large that 1830 could call them it's "namesake,"—there are medium hats—and all are in style. Every woman can select a hat to become her own person, and feel that she is very much in style.

Untrimmed Hats and Trimmings

Selection is unlimited in untrimmed hats, and from a small hemp shape at 95c to the fine imported hats at \$13.50, are styles for every taste.

Trimmings, floral and other, will be found in unusual abundance.

We make a very small charge for trimming, at the same time furnishing without cost to you, all materials outside of the actual trimmings, as silk lining, and other requisites.
