**A SAFE WAY TO STOP INDIGESTION**

Without Fear of Weakening the Stomach. Works Fine in Any Case and Brings Relief in Ten Minutes

The greatest folly of to-day is committed by people with weak dyspeptic stomachs who take artificial digesters to cure indigestion.

Your stomach must be strong enough to expand and contract with a sort of churning movement so as to mix its digestive juices with your food. If your stomach isn't strong enough to properly churn your food, you will keep right on having indigestion after every meal until you make it strong.

There is one Stomach remedy that every dyspeptic can depend on as surely as that the sun will rise to-morrow and that is the famous old M.I.-O.-N.A. Stomach Tablets. Most stomach remedies let the stomach rest and digest the food themselves. M.I.-O.-N.A. won't digest anything, but it will strengthen and stimulate the stomach and make it do its own digesting. It stops stomach pains, gas, bloating, burning, belching, etc., in ten minutes and does still better by making the flabby, inflamed and inactive stomach do its own work strong and elastic and able to do their own churning. M.I.-O.-N.A. Tablets never lose their effect and unlike mere artificial digesters need not be used forever. A few weeks use is generally sufficient to put any stomach in fine shape and H. C. Kennedy and many other leading druggists hereabouts sell it with that understanding, agreeing to refund money to anyone who does not get complete relief.—Adv.

**BILL TO LICENSE STEAM ENGINEERS IN THE STATE**

Measure Creates Examining Boards in Cities of the Third Class and Contains Stringent Rules to Carry Out Its Provisions

Harrisburg is interested in a bill which was introduced in the House yesterday by Representative Ramsey, of Delaware, creating an Examining Board of Steam Engineers in cities of the third class. By the proposed law City Commissioners would name two practical engineers of not less than six years' experience each as members of the board. The Director of Public Safety would sit with the two engineers in the examination of all applicants for license as qualified steam engineers.

The Ramsey bill would make it unlawful for any man not a licensed engineer to operate any steam boiler and engine of more than 20 horse power and carrying more than fifteen pounds per square inch. The act would not apply to boilers and engines under the jurisdiction of the United States and locomotives operated by railroad companies.

No one under 21 years of age would be allowed to stand an examination. A fee of \$3 is to be paid when the license is granted. Annually the engineer would be required to renew his license, paying a fee of \$1. The examiners are to receive \$5 per day for each day they sit to conduct the examinations.

**Governor in Philadelphia**

Governor Brumbaugh left this afternoon for Philadelphia where he will to-morrow hear several delegations regarding legislation to come before him. He will return on Monday, and that evening will leave for Newport News to witness the launching of the battleship Pennsylvania.

**Bills Settled**

Auditor General Powell said to-day that he has settled all of the bills for advertising the constitutional convention, but indicated that they had not been settled according to "bills rendered." He exercised his prerogative of "adding" and scaled some of the bills down, but an effort will be made by legislation to have them all paid as per "bills rendered" through the Hagood bill making an appropriation, which is now in the Senate having passed the House.

**SAY POLICEMEN INTERFERE WITH FIREMEN'S WORK**

Embodied in his platform is accomplished. The adjournment resolution is now in the hands of the House clerks to be messaged to the Senate on Monday evening. It is said that it will be rushed to the Senate as soon as possible on that day in order that the Senate may stay it away and keep watch over it to produce an action on it, but just what that action will be is not problematical.

**U. S. CITIZEN WAS SLAIN IN MEXICO**

Continued From First Page.

He fired the first shot at the Zapatistas as they were trying to force an entrance to his house. Others said the Zapatistas had begun the shooting.

The American's hat was full of bullet holes, and that is said to indicate that the attack on him had been made from a short distance. After he had been killed the house was looted. The matter was immediately reported to Generals Barona and Guerra, who promised to make an investigation.

Chicago, March 12.—John B. McManus was one of the best known and most responsible members of the American colony in Mexico City, according to a prominent Chicagoan who has large interests there. He was financial agent from Bryant, McIlhenny and Company, a big firm which manages a large group of mines in the Guanajuato district. He has been in business in Mexico City for about 15 years and was a leader in the affairs of the American colony.

**ALL PERRY COUNTY TO BECOME "DRY"**

Continued From First Page.

The judges disagree. Judge Bernhisel, who, with Judge Lucius C. Wox, of Marysville, is an Associate or "lay" Judge, contended that the technical error raised by the court, if it be an error, was one that precedent has overlooked for half a century, if not more, and he held that the licenses should be allowed.

Among the attorneys in court here this morning it was said the higher court has held that where a law and a "lay" Judge disagree, "the applications shall not be allowed."

Chicago, March 12.—Two thousand Mexicans stormed the National Palace at Mexico City yesterday in an effort to release 250 Catholic priests imprisoned there, according to advices received here to-day. A riot followed. Gustavo, chief of police of the capital, was stabbed and two Mexican assassins who attacked him were killed, and a large number of persons injured.

**WITHDRAWS APPLICATION**

In the case of McClellan Cox, proprietor of a hotel in Blain, even of the signers to the application testified in court that the license was not necessary and for that reason Judge Seibert said he would have denied the licensing of that place.

**ELAINE DE SELLEM, TO COME HERE WITH BOSTON OPERA COMPANY**

There are few persons in the country to-day more qualified from a standpoint of experience to advise ambitious vocal students, particularly girls with operatic inspirations, than Elaine de Sellem, the leading contralto of the Boston English Opera Company which comes to the Majestic theatre to-morrow, matinee and night, in a magnificent production of Verdi's famous opera, "Il Trovatore." Miss De Sellem says: "The pity of it, I have been requested to explain why with so many engaged in vocal study—so few attain anything like success. Studies are filled with aspirants, who spend time and money to say nothing of nervous energy, in striving for the artistic goal, and the question arises, why so few succeed. I'll tell you in one sentence—not ten per cent. of the students have any just reason for aspiring to vocal eminence—and here is another reason. "It may seem brutal but it is a deplorable fact—not twenty-five per cent. of those who give vocal instruction are qualified to teach the art correctly. There is more chicanery and humbug in voice teaching than in all other departments of the musical profession combined; it is for this reason that there ought to be laws prohibiting the incompetent from ruining voices and blasting hopes. Not a week passes but what I hear a number of girls sing, who are studying for the operatic stage, most of whom could not become artists if they studied a lifetime."—Adv.
