Here's a Safe Easy Way to Gain 10 to 30 Lbs. of Solid, Healthy, Permanent Flesh

Thin, nervous, undeveloped men and women everywhere are heard to say. "I can't understand why I do not get fat. I eat plenty of good, nourishing food." The reason is just this: You cannot get fat, no matter how much you eat, unless your digestive organs assimilate the fat-making elements of your food instead of passing them out through the body as waste.

What is needed is a means of gently urging the assimilative functions of the stomach and intestines to absorb the oils and fats and hand them over to the blood, where they may reach the

soils and fats and hand them over to the blood, where they may reach the starved, shrunken, run-down tissues and build them up. The thin person's body is like a dry sponge—eager and hungry for the fatty materials of which it is being deprived by the failure of the alimentary canal to take them from the food. The best way to overcome this sinful waste of flesh building elements and to stop the leakage of fats is to use Sargol, the recently discovered regenerative force that is recommended so highly by physicians, here and abroad. Take a little Sargol tablet with every meal and notice how quickly your Take a little Sargol tablet with every meal and notice how quickly your cheeks fill out and rolls of firm, healthy flesh are deposited over your body, covering each bony angle and projecting point. G. A. Gorgas and other good druggists have Sargol, or can get it from their wholesaler, and will refund your money if you are not satisfied with the gain in weight it produces as stated on the guarantee in each package. It is inexpensive, easy to take and highly efficient.

-While Sargol has produced remarkable results in overcoming nerv ous dyspepsia and general stomach troubles, it should not be taken unless

"Under Cover"

"Under Cover"

If a consistently maintained story, holding the interest of the audience to the final curtain, and withholding its most tense scene until a few moments before that occurs, constitutes a good play, then "Under Cover" is assuredly one. For many months past "Under Cover" has been supplying that sort of entertainment to large audiences in New York and Chicago, and these audiences went forth nightly to send new ones. Selwyn & Company under whose direction "Within the Law" was produced, are also the producers of this latest success which will come to the Majestic, Wednesday, matinee and night. "Under Cover" is essentially a detective story, but so intricately are the strands of the plot woven that it seems a play of real life. Roi Cooper Megrue wrote the play and with it achieved his first great success. Selwyn & Company will

send an excellent company of players to this city and each character will be played for its full value.—Adv.
