BAYANO'S SINKING TOLD BY RESCUER

Heartrending Scenes Enacted In the Latest Disaster to Great Britain's Navy

FEW ON BOARD ARE RESCUED

Captain of Collier Picks Up More Than Forty Survivors of Big British Cruiser Sent to the Bottom by a German Submarine

Ayr, Via London, March 13, 4:22 A. M.—Most of the survivors of the auxiliary cruiser Bayano, torpedoed off the coast of Scotland by a German submarine, left for Portsmouth by train last night. In clothing contributed by sympathizers and still suffering from their experiences, they were grateful to have escaped death. Those who were injured are still in a hospital here.

The survivors say there was no panic aboard the Bayano, but there was no time to lower the boats before the vessel sank. It was a case of every man for himself, but none of them left the ship until she went down. They praised the patriotism of their captain, who was at his post when the steamer was engulfed.

Heroic Work of Rescue

London, March 13, 3:15 A. M.—The captain of the Belfast steamer Balmerino, which rescued some of the Bayano's crew, in an interview with the "Daily Telegraph" correspondent at Belfast, said that the collier was on a voyage from Belfast to Ayr, when at 8:30 o'clock Thursday morning, four miles from Blockhead, he saw a low-lying object in the water. His first impression was that it was a submarine, but he did not alter his course until after a closer inspection, when a cluster of men were observed making signals with garments attached to an oar.

"When the collier got closer the crew of the Balmerino found two rafts and a ship's boat upturned with 26 men on one of them.

Plight of the Survivors

"Two of the men," said the captain, "had no clothing other than shirts and others only their sleeping garments. One had an ugly wound on his head and was covered with blood, while nearly all of them were bruised and bleeding. They were more dead than alive from wet, cold and exposure, but cheered us as we neared them. Boats were promptly lowered and the men were transferred, which took a long time, owing to the difficulty of moving the wounded and famished members of the group."

The captain said that two of the rescued men were so far gone that in an hour half-hour, he believed, they would have perished. Eighteen of the men on the raft, including two doctors, were removed to the Balmerino. After these were safely got aboard, a boat was making a second journey to the raft when the armed merchantman Tara arrived on the scene and took off the remaining eight survivors.

The Bayano Quickly Sank

"The men were given warm clothing and restoratives," continued the captain. "They were overjoyed at their rescue. They said the Bayano sank within a few minutes after being torpedoed. There was a terrific explosion and the vessel went down by the bows. The explosion created a great amount of damage and some of the life boats were smashed and rendered useless.

"The men were left struggling in the water in the darkness, clutched for any piece of wreckage to which they could cling. Heartrending tales of the last awful moment were told by the group rescued by the Balmerino. They believed themselves to be the only survivors, as they saw no other rafts with men on them."

The Balmerino proceeded to Ayr with the rescued men and returned to Belfast to-day.

London, March 13, 4:35 A. M.—The auxiliary cruiser Tara has landed six survivors of the Bayano at Stranraer, on the coast of Scotland.

Glasgow, Via London, March 13, 4:22 A. M.—The Bayano left here Wednesday night. She had been taken over by the Admiralty only recently. The steamer was equipped with wireless.

MAY BE APPEALS IN PERRY COUNTY

Continued From First Page.

licenses which, among other things, required the applicant to provide a his tavern at least four sleeping rooms, eight beds and stable accommodations. The "restaurant" licenses applied only to joint saloons and lunch bars.

By the time the appellate court decision was rendered the then proprietor of the station restaurant thought it unwise to sell liquor at his station stand and he did not again make an application. However, in the next succeeding license court a new form of liquor license application was adopted in this county, containing the specific request for "a license and, of course, setting out whether it was retail, wholesale, bottlers, distiller's or brewer's."

Under the ninth paragraph of Section 5 of the Perry county application the license applicants' bondsmen certified that they are not directly or indirectly interested in the manufacture of malt or brewed liquors. Barnett argued that the law requires this certification to be an affidavit that the applicant himself and not the bondsman is not interested in the manufacture, etc., and the court also sustained him on that point.

It is believed that Judge Seibert will hand down a written opinion in the Perry license cases in which he will set out his "specific reasons for not being in favor of granting the license," and Harrisburg attorneys to-day said that opinion will pave the way for the Perry county hotel men to appeal the cases to the Superior Court.

However, it is said, that if the court writes an opinion and simply writes the word "refused" across the applications, then the applicants will be in no position to appeal since the court's decision would not raise a legal point which could be subjected to the higher court for consideration.

Attorneys here say that the Perry county court's failure to grant the license applications "because of the technicality," is of interest generally because of the fact that the county goes "dry" after April 1 and, they say, it raises legal points that concern every county in the State.

Up to the present time upwards of forty cases of scarlet fever have been reported to the State Department of Health, which has been acting in an advisory capacity.

State Architect

The Hilton bill for the employment of a state architect and the establishment of a state engineering department, now in committee, will probably be replaced by one now in course of preparation which will be introduced next week and which carries an appropriation of \$10,000. The intention is to arrange for the drawing of all plans for state buildings by the State's own employes and not to seek such service from the outside as has heretofore been the custom.

Former Governor Tener, former Senator Tustin and Chester P. Ray, members of the Pennsylvania Commission to the Panama-Pacific Exposition in San Francisco, are on the way to that city to preside at the dedication of the Pennsylvania State Building on March 18. The Senators asked many questions with a view to introducing similar work in their home schools.

30,000 MORE JAP SOLDIERS SAIL FOR CHINA GARRISONS

Pekin, China, March 13.—The Chinese government has official information to the effect that the second Japanese squadron, conveying two divisions of approximately 30,000 soldiers, has sailed for China.

The forwarding of these troops will increase the number of Japanese soldiers in the garrisons in China to nearly 60,000. The new troops will be distributed in Manchuria, Shantung, Tientsin and Hankow, where the present forces at the Japanese garrisons number nearly 30,000.

It was made known in Tokio several days ago that new forces of troops would be dispatched to the Japanese garrisons in China. The explanation was given that this was merely a shifting of troops such as is made at regular intervals, and it was understood that the troops now in China would be withdrawn on the arrival of the new force. Subsequently, however, it was intimated that the garrison now on duty would be retained pending the settlement of the differences which have arisen consequent to the presentation by Japan of demands upon China.

GERMANS FAIL IN TRYING TO RETAKE NEUVE CHAPPELLE

Berlin, March 13, By Wireless to Sayville, N. Y.—The German official report of to-day on the progress of the war reads as follows:

"To the south of Ypres isolated British attacks were easily repulsed. Our movement for the recapture of the village of Neuve Chapelle began successfully but thereafter encountered a superior British force and for this reason it was not continued. The British in this locality have been showing great aerial activity. The day before yesterday one and yesterday two British aviators were brought down by German fire.

"In the Champagne district there has been a renewal of fighting at isolated places. All the attacks made by the French have been repulsed, the enemy losing heavily. Two hundred French soldiers were taken. Rain and snow have hampered the operations in the Vosges.

"The Russians have retreated from the Augustow district, and the country to the northeast, until now they are beyond the river Bobr and under the Merkurs of Grodno. At a point northeast of Pryzansky near Orzye river, a Russian attack has been repulsed."

ITALY IS SILENT REGARDING NEGOTIATIONS WITH AUSTRIA

Rome, via Paris, March 13, 4:30 A. M.—The Italian government continues to maintain an impenetrable silence regarding negotiations reported to be under way with Austria concerning territorial concessions. Nothing has been added to the semi-official announcement that Italy has instituted no negotiations but simply has listened to proposals emanating from Germany through that country's Ambassador, Prince Von Buelow.

There are persistent reports in Rome that Austria has refused absolutely to even discuss the possible cession of Trent and would concede only a small part of the province of Trent. The assertion is made in military circles that Italy now is prepared for any eventuality.

BRITISH SHELLS FALL WIDE OF MARK IN DARDANELLES

Dardanelles, Sunday, March 7, Via Constantinople, March 8, Berlin March 9, and London March 13, 11:25 A. M.

The fire to-day of the British ships upon the Dardanelles forts was scattered and virtually without effect.

From the point of vantage occupied by the Associated Press correspondent on shore, British shells could be seen falling wide of the mark.

During the early afternoon of to-day, March 7, the Turkish fire forced a British battleship in the gulf of Saros to retreat.

LATE WAR NEWS SUMMARY

Continued From First Page.

as no serious engagements were in progress except in the vicinity of Neuve Chapelle.

The German war office states that the new attack in Northern Poland has thus far been successful and that the Russians have been compelled to fall back beyond the Bobr river.

An announcement from the French ministry of marine states that the bombardment of the Dardanelles was continued yesterday but leaves in doubt the amount of damages inflicted on the Turkish fortifications. The statement refers to an attack on batteries commanding the Bay of Morto at the entrance to the Dardanelles and to mine sweeping operations in the first mine field. Previous official reports gave the impression that the forts at the entrance of the straits had been badly damaged if not destroyed, that the defense works at the narrowest part of the passage were under attack and that one-third of the straits had been cleared of mines.

The German movement in North Poland is developing rapidly, is straining the resources of the Russians to prevent a further advance and the penetration of their fortified line. The Russian war office reports that the German advance on Praznysky, said by Berlin yesterday to have been pushed within two and one-half miles of the city, had been checked. The Germans are bringing in new forces and attempting flanking movements.

The Turkish armies in Turkish Armenia, along the Black Sea and in Northwestern Persia have sustained further defeats. In Ararat the Russians captured the entire Turkish battery and in Persia the Turks were again compelled to fall back.

It is reported in Rome that Austria has refused to discuss the cessation of Trieste to Italy and is willing to yield only a small part of the province of Trent. Italy, it is said, has completed military preparations "for any eventuality."

MAY NOT REORGANIZE

Police Take Names From Petition Asking For Meeting

Whether the members of the Harrisburg police force will hold a meeting Monday morning before the returns are made to court for the purpose of reorganizing the police baseball association remains to be seen. The coppers do not seem to be so keen for the meeting and since the petition was sent to Chief of Police Hutchison asking for permission to hold a meeting about half the policemen have taken their names from the petition.

What the outcome of the effort to reorganize the team will be remains to be seen when every member of the team gathers previous to marching to court to make the quarterly returns.

FINANCE TRADING DULL AND NARROW IN BRIEF MARKET SESSION

Initial Prices Mostly Lower, the Automobile Shares Adding to Yesterday's Losses, With Heaviness in Other Specialties

New York, March 13.—Wall Street.—Trading was exceedingly dull and narrow throughout the day's brief market session, the undertone reflecting an uncertain tendency. Initial prices were mostly lower, the automobile shares adding to yesterday's losses, with heaviness in other specialties. Speculative leaders were inclined to droop at the outset, but made full recovery later on recovering by the short interest. Bonds shaded, with free offerings of Baltimore and Ohio convertible 4s and St. Paul convertible 5s. The closing was irregular.
