"This Is a Very Attractive Store"

When you get a customer thinking and talking this way about your store, you can refer to her as "an old customer of ours."  
The stores which make "a hit" with the buying public are the ones which are bright, clean and up-to-date looking. We are showing some new gas lamps this Fall, which are the very last word in artificial lighting for business places.  
New Semi-Indirect Gas Lamps  
They are up-to-date and there are shapes and designs to suit every store, no difference what the decoration may be or what is sold in it.  
See them at the gas office, or ask us to send a representative.

On Thursday evening Melita Lodge, Knights of Pythias, conferred the esquire rank on four pages.  
Miss Bertha Zullinger, of Mount Holly, is the guest of Miss Mae Singler, East Main street.  
Mrs. A. G. Richwine, of Harrisburg,

**RUSSIANS IN BLACK SEA, ALLIES IN AEGEAN, CLOSING ON CONSTANTINOPLE.**  
RUSSIA'S Black Sea fleet has bombarded Zunguldiak, a coaling station for the Turkish war ships on the south shore of the sea, 168 miles east of Constantinople, destroying the coal chutes and the docks and silencing the batteries which defended them. Eregli (or Bender Eregli), another coaling port, forty miles further west, the Hercules of the ancients, was also bombarded by the Russian fleet, which is slowly moving along towards the Bosphorus. At the same time, while the Dardanelles are stopped by the greater part of the allied fleet, other British and French war ships are destroying the Turkish fortification batteries and supply stations on the Aegean Sea coast of Asia Minor as far south as Smyrna. Batteries on Besika Bay, north of Dekili, in the Gulf of Adramyti, and at Avallik and Fort Jeni Kale, at the entrance to the Gulf of Smyrna. The East Indian squadron, under Rear Admiral Sir Richard Peirse, is shelling the Turkish batteries on the hills back of Smyrna, preparatory to occupying the city.

#### 53,113 ACCIDENTS IN 1914

Of These 38,126 Were Reported to the Department of Labor and Industry  
Some time ago the bureau of statistics of the Department of Labor and Industry completed its statistics of industrial accidents for 1914, according to industries, a resume of which has been widely published. The bureau has now finished the tabulation of these accidents by causes and injuries, from which the following interesting data and useful suggestions are culled. A. K. Houck is chief of this bureau.  
"The total number of accidents reported to the Department of Labor and Industry during the year 1914, is 53,113. Adding the number of accidents reported to the Mining Department and to the Public Service Commission, the grand total is 53,113. This number, though large, cannot be considered the sum of all accidents that occur in our State, since the accidents reported to the Department of Labor and Industry are only those occurring in industrial establishments. There is also a rule in the latter department that accidents occasioning a loss of less than two days' work need not be reported. Therefore, 53,113 represents only a part of the total number of accidents for the past year.  
"The causes from which the greatest number of accidents occur are, first, in hand labor, chiefly from being caught between, or struck by, material or hurt with tools, a total of 20,339 accidents; second, from falling from ladders or scaffolds into unprotected holes, or slipping or tripping, a total of 4,178 accidents; third, from coming into contact with moving machinery, a total of 2,836 accidents; fourth, from burns of various kinds, a total of 2,444 accidents.  
"Figures of such size, representing accidents from being caught or struck by material, or from coming into contact with moving machinery, would seem to show carelessness on the part of workmen, or lack of sufficient guards. If the proper machine guards were installed and used in the proper manner, the majority of such accidents could surely be avoided.  
"The inspectors of the Department of Labor and Industry have found in their visits to industrial plants that the greatest force towards the elimination of accidents and the maintenance of personal safety is the establishment of safety organizations. The education of workmen in the avoidance of careless methods, and in the thought of individual responsibility, is the greatest force in the furtherance of the safety movement."

#### EPWORTH LEAGUE RALLY TO BE HELD NEXT WEDNESDAY

Dr. Dan B. Brummitt, of Chicago, Editor of the "Epworth Herald," Will Address Young People at Grace Church  
The presidents and representatives from the Epworth Leagues of the city met at the home of Ross K. Bergstresser, the president of the Stevens Memorial Epworth League last evening and formulated the preliminary plans for the mammoth league rally which is to be held in the Grace Methodist church next Wednesday evening at 8 o'clock. All of the leagues of the city are co-operating in this rally, and an invitation will be extended to the leagues of the surrounding towns within a radius of twenty miles to join in this young people's meeting.  
The Rev. Dr. Dan B. Brummitt, of Chicago, the editor of the "Epworth Herald," has been secured as the speaker of the evening. Charles Boll, the president of the Grace Church League, will be the presiding officer, the Stevens Memorial male chorus, under the direction of George W. Sweigert, will sing and several other musical numbers will be provided. Ross K. Bergstresser will conduct the opening song service at which the song book "Make Christ King," will be used.  
Prior to the mass meeting, a reception will be tendered Dr. Brummitt by the members of the league cabinets of the city in the social parlors of Grace Church.  
At the meeting of the league representatives last evening an aggressive campaign for the advertising of this mass meeting was authorized and provided for, as it is the intention of the league leaders that the Methodist young people of the city shall have opportunity of hearing the man who has editorial supervision of their official paper—a paper that goes into thousands of Epworth League centers in this country and in many foreign countries.  
At the preliminary meeting last evening were present Ralph Neiman, representing the Grace church league; H. F. Asper, president of Fifth street church league; Don F. Manahan, president of the Rivve avenue league; Harry R. Matter, president of Epworth Church league, and John N. Fergoy and Ross K. Bergstresser, representing the Stevens Memorial league.

#### TO USE FANNY CROSBY'S HYMNS

Congregation at Fifth Street Church Will Sing Familiar Numbers  
In place of the usual Sunday evening services at Fifth Street M. E. church, six of the most popular hymns of Fanny Crosby will be studied and sung. The recent death of this gifted writer brings to mind a multitude of her lyrics which the American people have been singing for half a century. Such songs as "Some Day the Silver Cord Will Break," "Safe in the Arms of Jesus," "Pass Me Not, Oh Gentle Savior," and other equally well-known hymns will be sung for generations to come. After a brief history of the authoress by the pastor, the Rev. B. H. Hart, and of the circumstances that caused the hymns to be written, they will be sung by the choir and congregation.  
To-morrow marks the close of another conference year for the Methodist pastors of this city, and at the morning services at Fifth Street a brief summary of the year's work will be given.

#### Safety Razor Blades RESHARPENED

ORDERS TAKEN BY HENRY GILBERT & SON, HARDWARE AND FINE CUTLERY, 219 Market St., Harrisburg, Pa.

#### Dies After Falling into Cesspool

Lebanon, March 13.—Philip Garman, aged 60 years, a native of Annville, accidentally fell into a cesspool at Annville last evening and after being removed to the county almshouse for treatment he died as the result of exposure.

#### Five-Year-Old Drinks and Dies

Tamaqua, March 13.—Joseph Raskick, aged 5 years, of Coaldale, died at the Panther Creek Valley hospital yesterday of acute alcoholism from drinking a large quantity of whiskey from a bottle he found.

#### Overhauling Police Motorcycles

The motorcycle policemen will likely begin the spring riding season early next week. The machines are now being overhauled and they will be ready for service about Tuesday. The riders will be Policemen Petrow and Schelhas.

#### LAWYERS' PAPER BOOKS

Printed at this office in best style, at
