1,200 MARCHERS IN THE S. S. CONVENTION PARADE

Organized Bible Classes in Monster Procession at Mechanicsburg Proves An Interesting Feature of the Successful Gathering of Workers

Mechanicsburg, March 13.—Yesterday morning's session of the Sunday school convention convened at the appointed hour. After music by the convention, the Rev. H. B. Stock, D. D., of Carlisle, conducted the quiet hour service. This was followed by a business meeting, after which the Rev. F. W. McGuire, of Lisbon, made an address upon "The Teacher's Vision." While the county and district officers met in another room, Dr. A. P. Stover, of Carlisle, and F. B. Konhaus, Mechanicsburg, reported on the mid-winter conference, and James L. Young, of Mechanicsburg, county president, spoke upon "Planning the Year's Work."

At the afternoon session the Rev. Dr. Stock again had the quiet hour service. The nominating committee nominated the old officers, who were elected by the convention. Their installation followed. Among the resolutions was one endorsing Governor Brumbaugh's stand on the liquor question. W. G. Landes was present and made an excellent address upon "Safety First."

ence was held in the main auditorium. Addresses were made by J. A. Witmyer, of New Cumberland, and I. E. Reiser, of Shippensburg. At the same time the Sunday school room was given over to the elementary conference. The speakers for the conference were Mrs. C. B. Wagner, Mrs. T. L. Gray, Miss Mary Harshbarger, and Miss Mary Harshbarger.

In the evening a great mass meeting of women was held in the St. Paul Reformed church, where devotions were conducted by the Rev. John S. Adams, pastor of the church. At the same time, in the U. B. church, the devotions of the men's mass meeting were conducted by the Rev. George Fulton, pastor of the Presbyterian church. Both meetings were addressed by W. G. Landes, general secretary of the State association, and by Dr. Hutcheson, headmaster of Conway Hall, each speaking from one meeting to the other. Before the mass meetings a great parade of about 1,200 men marched up Main street and counter-marched to the church of meeting. They were the various organized Bible classes, some of which had come by special car or train. They carried banners, transparencies, colored lights and similar accompaniments of a parade. Several bands were in the procession. The houses on the line of parade were illuminated and many persons burned red lights. It showed that political parades are not more popular nor more appreciated than religious ones.

The parade was led by the officers of the county Sunday school association and by the Rev. Charles Basch, who was chief marshal of the parade. The convention just closed was one of the most successful ever held in the county in point of attendance and interest.

CONCERT EASTER MONDAY UNDER AUSPICES S. P. C. A.

Society Will Give One of Their Famous Old Folks' Entertainments—Well Known Society Folk Will Sing and Dance

Society is to be "en fete" on Easter Monday night, when one of the famous Old Folks' entertainments is to be given at Technical High school auditorium for the benefit of the Society for the Prevention of Cruelty to Animals. There is to be a little of everything on the program, and those who remember the delightful affair under the same auspices of two years ago will look forward to the coming one with much interest.

Included in the program will be old folks' songs and old folks' dances by the younger set in old folks' costumes, and even now old chests are being ransacked for ancient toggery that grandma wore and grandpa donned when he went a-courting. All of the principal artists in the city and the younger social set will take part in the entertainment, which will be in charge of Mrs. David Watts, a sufficient assurance of its perfection. Among the dances will be one by the little folks in fancy costumes, and the older set will gracefully go through the minuet, and the ancients will dance the Virginia Reel, all of which is sufficient to arouse curiosity and a desire to be there.

NEW ARMOR PLATE The New Process, it is Claimed, Will Make Large Guns Useless

Another of the series of experiments to determine the resisting power of a certain class of armor was recently conducted with extremely satisfactory results. The bullet, which is of this metal might be made indestructible and it would be useless to bombard them. It is also useless to try to make a success in life if handicapped by poor health. You lack the strength and stamina necessary to win. In the majority of cases of poor health, stomach trouble is the real cause; but this can be corrected by careful diet and the assistance of Hostetter's Stomach Bitters. It tones, strengthens and helps the digestive functions and when the food is properly digested, strength and renewed vigor is sent coursing through the entire system. The proper time for action is when you notice the first symptoms of weakness, such as loss of appetite, headache, bloating, heart burn, sour stomach, indigestion or constipation and by resorting to Hostetter's Stomach Bitters you can help Nature conquer them. Delay only aggravates matters and prolongs your suffering. Take a bottle home with you to-day but see that the stamp over the neck is unbroken.—Adv.

Wishing you all success possible in the enterprise—will be glad to receive any information at any time concerning your plans for this run.'—Adv."

ROCKEFELLER OBSEQUIES Plans in Abeyance Awaiting Arrival of Husband and Son on Special Train From Florida

Tarrytown, N. Y., March 13.—Plans for the funeral of Mrs. John D. Rockefeller, who died at her home here yesterday morning, were held in abeyance to await the arrival of Mr. Rockefeller and his son, who were speeding north in a special train from Orlando, Fla. They were due to reach here late this afternoon or this evening. In the absence of definite plans, however, it was regarded as probable that funeral services would be held here to-morrow afternoon and that Mrs. Rockefeller would be buried at Cleveland, Ohio, where she grew to womanhood and where she spent much of her time in recent years. Only one member of the Rockefeller family, it was thought, would be unable to attend the funeral. This is Mrs. Harold Fowler McCormick, of Chicago, Mrs. Rockefeller's daughter, who is now in Switzerland recovering from an illness. Mrs. E. Parmalee Prentice, the other daughter, and Miss Lucy M. Spawan, Mrs. Rockefeller's sister, were both at the Rockefeller home here today. The arrival of Mr. Rockefeller and his son will complete the family circle, with this single exception. Mr. McCormick, who was to have sailed today to join his wife in Switzerland, is also at Pocantico Hills.

PUTS STOMACH IN FINE CONDITION Says Indigestion Results From Excess of Hydrochloric Acid

Undigested food delayed in the stomach decays, or rather, ferments the same as food left in the open air, says a noted authority. He also tells us that indigestion is caused by Hyper-acidity meaning, there is an excess of hydrochloric acid in the stomach which prevents complete digestion and starts fermentation. Thus everything enters the stomach much like garbage, sour in a can, forming acid stomach like gases which inflate the stomach like lumpy misery in the chest, we belch up gas, we eructate sour food or have heartburn, flatulence, water-brash or nausea.

He tells us to lay aside all digestive aids and instead, get from any pharmacy four ounces of Jad Salts and take a tablespoonful in a glass of water before breakfast and drink while it is effervescing and furthermore, to continue this for a week. While relief follows the first dose, it is important to neutralize the acidity, remove the gas-making mass, start the liver, stimulate the kidneys and thus promote a free flow of pure digestive juices. Jad Salts is inexpensive and is made from the acid of grapes and lemon juice, combined with lithia and sodium phosphate. This harmless salt is used by thousands of people for stomach trouble with excellent results.—Adv.

WHEAT ACREAGE IN STATE INCREASED TEN PER CENT

Farmers Have Planted What Is Expected to Be a Record Crop in View of Higher Prices Prevailing as Result of the War in Europe

The high prices asked for and obtained for wheat in this country just now, because of the demand for grain in Europe, has stimulated the Pennsylvania farmer to planting an increased acreage of the cereal, and the State Agricultural Department is in receipt of reports to show that the acreage in fall, the fruits of which will be gathered in Pennsylvania in June and July is about ten per cent. more than last year, and a corresponding increase in the production is looked for.

This is in evidence all over the State and some farmers are going to put a spring wheel to take advantage of the high prices, although the soil and climate of Pennsylvania are not very favorable for raising spring wheat. In 1913 there were planted in Pennsylvania 1,312,000 acres of wheat, of from this was harvested last year, more than 28,000,000 bushels, the crop being an especially good one owing to fine conditions in all sections. This year, with the ten per cent. increase in acreage, it is expected that there will be a ten per cent. increase in crop. Reports received at the department show that wheat all over the State at the present time looks very promising. There will be an increase of acreage in all cereals this year, and, weather conditions being all right, the yield will be enormous.

Take Care of Your Jewelry

A careful examination of your jewelry by an expert repair man is real economy. He will be able to detect a weakness in a mounting or fastening which, if neglected, is almost certain to cause the loss of a jewel or the ornament. Diener's Repair Department will examine your jewelry without charge. A report of its condition will be given you. If there is something which needs attention, it will be the part of wisdom and economy to have the repairs made at once. Charges for jewelry repairing are always reasonable, and the work is done with all possible dispatch.

The Size of the Ash Pile

How big is your ash pile? You paid for coal, and the winter's ash pile larger than it should be, you didn't get the best you were entitled to. Let Kelley show you the way to save by burning the kind and size of good coal that costs no more than the wasteful, ash-pile contributing kind. How is your supply?
