Begins Where the Others Leave Off

The Angelus test for a player-piano begins where the test for an ordinary player leaves off. You need but compare others with it to realize the absolute truth of this statement.

In every way, at every point, the Angelus outdoes any other player. All the desirable features found in other players are embodied in the Angelus and in addition, the Angelus possesses many exclusive advantages (necessary to perfect piano-playing), which others can never have because they are protected by United States patents. A new shipment of Angelus Player-Pianos has just arrived. We are anxious for you to see and hear them. Stop in to-day and allow us to give you a complimentary demonstration.

### KEEN INTEREST IS SHOWN IN MEETINGS FOR MEN

The Rev. R. W. Runyan Entertained Hundreds in the Methodist Church Auditorium Yesterday Afternoon—Splendid Music Part of Program

Interest in the meetings for men being held in various borough churches each Sunday afternoon at 3.30 o'clock, shows no sign of abating and the fifth of the series of meetings, held in the First Methodist Episcopal church yesterday afternoon, was very largely attended. An able address was delivered by the Rev. R. W. Runyan, pastor of St. Paul's Methodist church, Harrisburg, and the large gathering was splendidly entertained with special selection by the Methodist Sunday school orchestra under the direction of J. Elmer George.

A quartet composed of Thomas O. Smith, John Bethel, Evan Evans and William Crump took part in the program. The United Brethren male chorus did not make its appearance at yesterday's meeting on account of the impossibility to get the members together owing to working arrangements at the steel plant.

The sixth meeting of the series will be held next Sunday afternoon in the Main Street Church of God when an address will be made by the Rev. G. W. Getz.

### SPECIAL COUNCIL MEETING TO BE HELD TO-NIGHT

Bills Will Be Opened for Paving Highland, South Third and Conestoga Streets and Rearrangements of Street Lights Will Be Made

A special meeting of Council which will likely be of great interest to many residents and property owners of the borough will be held in the Council chamber this evening at 7.30 o'clock. In addition to the opening of bids for paving of Highland, South Third and Conestoga streets, the location of lights under the new agreement with the Harrisburg Light and Power Company will be decided on and the report of the ordinance committee will be made on its recent meeting with a committee of the Steelton Merchants' Association held for the purpose of having the license fees of hucksters and peddlers increased.

Considerable opposition has developed in the last few weeks to paving South Third and Conestoga streets because many of the property owners have felt the pinch to the steel uprisings and claim they will not be financially able to meet the assessments for the improvements when they become due. Petitions reciting this fact have been circulated in the districts affected and will be presented to the borough fathers this evening.

## Foley's Honey and Tar Stops those Night Coughs

They Are Weakening, and Disturb the Whole Family.

Coughs and colds usually grow worse at night. Keep **Foley's Honey and Tar Compound** at hand. Use it freely—there is nothing in it that can possibly harm you. But it clears the throat of phlegm and mucus, stops the coughing and tickling, and heals the raw inflamed surfaces.

GEO. D. COBBES, Many, La., says: "My wife was troubled with a terrible cough, and we could get nothing to relieve her until I asked Dr. Self of Hornbeck, who recommended **Foley's Honey and Tar** so strongly that I purchased a bottle. Before the contents of this bottle were used, the cough had entirely disappeared and her health was completely restored."

PHIL DESORMEAUX, Schaffer, Mich., writes: "Last winter I could not sleep at night on account of a bad cough. It did not bother me during the day, but started up at bedtime and kept me from sleeping. I was very weak and in bad shape. I started using **Foley's Honey and Tar** and was greatly pleased to find that the cough left me entirely, my appetite improved, and I slept soundly at night."

Good druggists are glad to sell **Foley's Honey and Tar Compound** because it always satisfies the customer and contains no opiates. Refuse substitutes.

reported the raising of the blockade in his official dispatch early to-day and reported that the Zaragosa had returned to Vera Cruz.

The admiral's dispatch telling of relief of the situation crossed a new note from the United States which was sent on its way to Carranza this morning giving notice that the United States was determined to raise the blockade and, if necessary, to use the cruiser Des Moines to do so.

It became known for the first time to-day that last week the Mexican gunboat had stopped one American ship with a shot across her bows, had held up another and had interfered with British shipping.

### Seriousness of Situation

The seriousness of the situation growing out of the blockade of Progresso was pointed out by Secretary Houston, of the Department of Agriculture, who advised the President that 200,000,000 pounds of twine are used each year in the United States in binding grain, hay and corn crops and that nine-tenths of the supply is made from sisal grown in Yucatan and exported through Progresso.

Telegrams from manufacturers and farmers in the grain growing States pouring into the White House and the State Department pointed out that unless sisal was obtained through Progresso the harvesting of this year's grain crops by usual method would be entirely barred and would have to be done almost entirely by hand. Secretary Houston believed the situation a very serious one for the grain growing States.

### Steady Protest to Carranza

Since February 25 the State Department had steadily protested to Carranza against closing Progresso, where there have been factional troubles between Mexicans nominally under his control. The people of Yucatan, it was said, obtained all their food from outside sources and were as anxious that the embargo be raised as was the United States. Carranza allowed no food to go into Progresso since there has been blockade.

The American notice made it plain that the United States had no intention of interfering in the factional troubles at Progresso, but was interested only in the sisal question.

State Department advice also reported that Progresso was open for the present at least although they assigned a severe storm as the reason for the return to Vera Cruz of the gunboat Zaragosa. A British steamer which had been detained, sailed Friday.

Naval officials declare there is little probability of a renewal of the effort to close the port.

### Carranza's Apology to Spain

The Spanish Ambassador Riano announced to the State Department that his had government accepted in principle an apology which Carranza has offered for having expelled the Spanish Minister from Mexico recently on the ground that he was concealing in his legation Juan Caso, a Spaniard whom Carranza accused of working in the interests of General Villa. As Carranza suggested to the Spanish government, that it would be better for Spain to send another Minister, it was said that it would be done. It has not been announced who the new minister will be.
