WELCOMING NEW CITIZENS

The reception to be given in Philadelphia the latter part of next month to almost four thousand newly admitted citizens will be the first affair of its kind in the United States. Although this country began with aliens and has ever since been admitting multitudes of foreigners to citizenship, the idea of welcoming publicly with appropriate ceremonies the newly made Americans has not suggested itself until recently, when somebody in Philadelphia got hold of it.

That the plan should have found favor is natural, since it has not only novelty but also the possibility of making better citizens of the new Americans because they will be properly impressed through he proposed ceremonies with the importance of the tep they are taking and of the responsibilities in-The presence of President Wilson, who is cheduled as the principal speaker, will give the irst reception of its kind more than local imporance. Not only Philadelphia, but the United States will be giving a formal welcome to persons of foreign birth declaring allegiance to the Stars nd Stripes and entering upon the privileges and luties of American citizenship.

The conditions on which aliens are granted the ranchise in this country are not only that they ave lived here for five consecutive years and are ble to speak the English language, but also that hey are of good character and have some knowldge of the Constitution and of the methods of govrnment. The chances are therefore that they will ften make better citizens than such native Amerians as may be entitled to citizenship simply beause of birth in the country, and not by reason of ctual fitness to east votes and in consequence of ctive endeavors on their part to have the precious rivileges bestowed upon them.

Immigrants to the United States who after some ears decide to take up their residence permanently the republic, and, losing sight of the virtues of eir native lands while considering the vaster adantages of their adopted country apply for naturlization, deserve more than passing notice from heir new fellow citizens. When men transfer their llegiance from one flag to another it seems fitting nat they should be made welcome under the new unner with ceremonies more inspiring than the ere filling out of the necessary papers.

SHIP OWNERS USING CARE

Although steamship companies have within the st few days been refusing to accept merchandise or transportation from this country to Switzerland, way of Italy, it is not likely that the refusals ill continue any great length of time. Indications e that the condition is temporary and that as soon certain complications can be overcome, the usual ipment of goods to the small republic will be re-

The government of Switzerland has been unable satisfy the British authorities that Swiss merants are not acting as agents for the Germans and e not sliding supplies across the border to the belrents. As a consequence it seems that the Brithave held up at Gibraltar ships bearing merdise which was destined avowedly for Switzernd but which the British thought might possibly d its way farther north if they permitted it to

The steamship companies of course do not care too many interferences with the progress of the ps on their lines and prefer not to handle goods

when such handling is likely to meet with British disapproval. They may be forced to bar exports to Scandinavian countries as well as to Switzerland, it appears, unless these countries assure the Allies in some satisfactory way that shipments which they receive from the United States do not find their ultimate abiding place in Germany. The precautions may be necessary, but no doubt, only for the time being. It can reasonably be expected that adjustments will be made without great delay.

Tongue-End Topics

At the suggestion of the Society of Sponsors of the United States Navy, composed of ladies who have acted as ors of vessels of the United States Navy, prayer was offered at the launching of the U. S. S. Pennsylvania at Norfolk to-day. Between the years 1843 and 1914, there were no religious ceremonies incident to the launching of vessels of the Navy. The custom was revived when the Oklahoma was launched on March 21, last. Just a short while before the launching was to occur it was suggested that prayer be included in the exercises. The Governor of Oklahoma and his party desired that prayer should be offered by an Oklaclergyman, preferably Bishop Hoss, and it was supposed that he was then in Oklahoma. At the suggestion of some friends, a relative of his in Baltimore was telephoned and it was ascertained that through strange coincidence he was then in Philadelphia. As across the river at Camden, it was a small matter to complete the arrangements and Bishop Hoss offered the pray er. This plan was continued to-day when the Penusylvania was launched.

Text of the Prayer To-day

Governor Brumbaugh nominated Bishop Joseph F. Berry to deliver the prayer to-day. It was as follows:

"O Eternal God, Creator of the Universe and Governor of Nations: Most heartily we beseech Thee with Thy Favor to behold and bless Thy servant, the President of the United States, and all the officers of our Government, and so replenish them with the grace Thy Holy Spirit that they may always way. If you must have your meat every day, eat it, but flush your kidneys with salts occasionally, says a noted author.

Ity who tells us that meat forms uric acid which almost paralyzes the kidneys in the kidney region, sharp pains in the back or sick headache, dizziness, your stomach sours, tongue is coated and when the weather is bad you have rheumatic twinges. The urine gets cloudy, full of sediment, the channels often get sore and irritated, obliging you to seek relief two or three times during the night.

Going Out of HAT Business

In order to make room for our growing Furnishing and Clothing business we intend to discontinue selling HATS.

To close out this stock quickly we will give you an excellent opportunity to obtain the very best and newest styles at a ridiculously low figure.

Here Is Our Proposition For \$3.50

Any \$3.00 HAT in Our Stock, Any Other HAT in Our Stock,

When you consider that in your choice of second HAT you have for selection HATS that sell from \$3.00 to \$8.00 (made by Knox and best foreign makes) you can readily see what this offer means. The majority of these hats have not been in our stock two weeks.
