HOUSING BILL

Two Bills for **Better Business**

When an employer finds that the machines that he has provided for his employes hinder rather than help them in their work, he loses no time in throwing out those machines. His instant need is for other machines that will do the work better.

Such is the present situation in regard to the Full Crew—"excess man crew"—Laws. You citizens of New Jersey and Pennsylvania have found that the cum-bersome machinery of these laws causes a waste of two million dollars a year in unearned wages and seriously impairs the efficiency of your employes, the railroads of your States. Agreed that it is high time to be rid of this wasteful machinery, your need now is for something to take its place that will do the work better.

In the Legislatures of both your States bills have been introduced putting the control of the proper manning of trains in the proper hands—those of the Public Service Commissions. If these bills are passed they will do all that the Full Crew Laws were intended to do-insure safe and efficient train operation-without the present huge waste.

As a straightaway business proposition, the imme-diate passing of these bills is a pressing public necessity. Write to your elected Representatives at Harrisburg and Trenton, urging them to work and vote for these sorely needed bills.

American Made Goods," Representa-tive McCaig, of Allegheny, introduced a concurrent resolution in the House this morning calling on Pennsylvanians to buy only such good as are made in this country. The resolution urges the State, coun-ties, cities, boroughs, townships, boards of education, public and private institu-tions as well as private citizens to pur-chase products manufactured in the United States. It sets forth that the General Assembly is desirous of promot-ing the business of American mafufac-turers who have been operating at a small percentage of their capacity on account of the present business condi-tions of the country. Old age pensions will be investigated by a commission appointed by the Gov-ernor if a bill introduced in the House this morning by Representative Alcord, of Clearfield, becomes a law. It pro-vides for a commission of three to in-vestigate this subject. port, Perry county, attacked the Phila-debpin housing bill in the House this morning when it was called up from the postponed calendar for final passage. He said he understood the Select Council of Philadelphia was under in-dictment in Philadelphia for not carry-ing out the provisions of the housing bill of 1913, which bill is repealed by the one acted on this morning. The re-form administration had the appoint-ment of 100 tenement inspectors under the old measure which Republican lead-ers are said to oppose.
