LATE WAR NEWS SUMMARY

Continued From First Page. ... the Belgian border. Regarding the latter which has been in progress for the spur of a hill on the Lorette heights both the French and Germans make direct claims of having won.

Germany has scored again in her submarine warfare on British shipping. The British Admiralty announced today that the steamers Atlanta and Fingal had been torpedoed. The crew of the Atlanta was saved, but six lives are reported to have been lost on the Fingal.

The last of news concerning the attack on the Dardanelles is explained in a dispatch from Constantinople, which says that only unimportant operations have been attempted by the allied fleet during the last few days. Two attempts of cruisers to approach the outer fortifications, in connection with mine-sweeping operations, are said to have been frustrated by the fire from shore.

Increasing activity is indicated along the western end of the Franco-Belgian battle line. A message from a correspondent at the front to a Paris newspaper says that Newport has been bombarded by the Germans and Westende by the allies. The Belgians are reported to have made some headway against the Germans, capturing positions in two localities. The British army is still on the offensive, although its advance apparently has been checked by the Germans.

NEW SON-IN-LAW FIGHTS

Doesn't Relish Eviction by Fellow Who Marries His Ma Coatesville, Pa., March 17.—When Clyde Wynn, making his home with his mother, Susan Wynn, whose husband died recently, went home Monday night, he was ordered out of the house by William G. Rowe, whom he believed to be a boarder.

"I am married to your mother," asserted Rowe, who is half as old as Mrs. Wynn. "Is that so?" replied Wynn; "then I'll give you a wedding present." Wynn gave Rowe a severe trashing.

Wynn was arraigned before a Justice of the Peace on an assault and battery charge, but at the hearing Rowe agreed to withdraw the charge, provided his stepson should secure another boarding house and pay the costs of the suit, which the defendant agreed to.

Rowe told the Justice he was married to Mrs. Wynn yesterday, following the attack on him by Wynn. Wynn declared that he was named as an heir in his father's will, and at the death of his mother the property reverts to him. Rowe came here from Philadelphia a few years ago.

BANKER'S DAUGHTER WEDS

Most Notable Society Event of the Season in Pottsville Pottsville, Pa., March 17.—Miss Eldora Estelle, eldest daughter of Jacob Ulmer, a wealthy packer and president of the Miners' National bank, was wedded to Lewis Conrad, purchasing agent of the Reading Coal and Iron Company, and it was the biggest society event of the year here.

The ceremony took place at the residence of the bride's parents, on Mahantong street, and was performed by the Rev. J. H. Umbenhen, pastor of Trinity Lutheran church.

A large floral altar was erected for the occasion, while arches over the doorway and against the masonry of the large fireplace transformed the mansion into the appearance of a fairy palace.

The bride wore a gown of soft white satin, with a long court train, and wore a veil in Egyptian style, gracefully draped over her forehead, with bandeaus and discs of pearls at the side of the head and covering the ears.

With the exception of one amendment, the measure passed in its original form. The clause providing for the instructor to remain in the room or leave it at his own option was amended to read "at the option of the class."

KEEP LOOKING YOUNG

It's Easy—If You Know Dr. Edwards' Olive Tablets

The secret of keeping young is to feel young—do this, you must watch your liver and bowels—there's no need of having a sallow complexion—dark rings under your eyes—pimples—a bilious look in your face—dull eyes with no sparkle.

Your doctor will tell you ninety per cent. of all sickness comes from inactive bowels and liver.

Dr. Edwards, a well-known physician in Ohio, perfected a vegetable compound mixed with olive oil to act on the liver and bowels, which he gave to his patients for years.

Dr. Edwards' Olive Tablets, the substitute for calomel, are gentle in their action, yet always effective.

You will know Dr. Edwards' Olive Tablets by their olive color. 10c and 25c per box. All druggists.

LAUNCHING PARTY RETURNS

Governor and the Pennsylvanians Get Back at 4 A. M.—Wine, Not Water, Used in Christening

The gubernatorial party that went to Newport News yesterday to witness the launching of the battleship Pennsylvania, returned home this morning at 4 o'clock, and the members reported having had a most delightful trip. After the launching the party were guests at luncheon in the Hotel Chamberlain at Old Point Comfort, and at 6 o'clock took the special train for home.

At the luncheon Governor Brumbaugh made an eloquent address in which he eulogized Pennsylvania, and in response Secretary of the Navy Daniels referred to this great State in complimentary terms.

Contrary to the general impression and the Governor's wishes, the big battleship was not christened with water from the Delaware, Ohio and Susquehanna rivers, as contemplated, but an ordinary bottle of domestic wine, made in New York, was smashed against the ship as she slid into the water.

With the Governor to-day, as his guests, were John C. Gribble, president of the Union League, Philadelphia; Louis J. Kolb, of Philadelphia, whose daughter christened the big battleship, and Attorney General Francis Shunk Brown, and the party breakfasted with the Governor at the Executive Mansion.

Later Messrs. Gribble and Kolb accompanied the Governor to the Executive Department, where they remained a while and then visited the House of Representatives, which was in session.

Members of the legislative committee who attended the launching were pleased with the arrangements and the satisfactory manner in which the launching was carried out. The majority of the Governor's party returned to their homes on early trains this morning.

CALLS FOR PROBE OF JUDGE

House Resolution Provides for Inquiry With Regard to Umbel

Providing for an inquiry into a so-called "corrupt bargain" alleged to have been entered into by Judge R. E. Umbel, of Fayette county, and H. S. Dumbold, whereby the former was to resign from the bench in time to permit his successor to be elected in 1916 if Dumbold would withdraw impeachment proceedings instituted in 1913, a resolution was introduced in the House this morning by Representative Sinclair, of Fayette.

The resolution gives Speaker Ambler power to appoint five members of the House to make inquiry into the charges which have appeared in the public prints and report to the House its findings.

The committee is directed to draw up articles of impeachment if it finds the charges are true. The Sinclair resolution was sent to the Judiciary General Committee, which will take it up at its meeting to-morrow.

INSURANCE MEN ON TRIAL

Former Reading Residents Charged With Defrauding Investors Reading, Pa., March 17.—Charged with being involved in a conspiracy whereby thousands of investors were defrauded out of about \$840,000 in three local insurance bubbles, which burst a few years ago, Frederick G. Anderson and Charles Stephens, both of Philadelphia, and David W. Rothensieser, of Delhi, N. Y., and all formerly of Reading, were placed on trial yesterday.

The three concerns were thrown into the hands of a receiver in May, 1911, and although the case has come up at almost every session of court since June, 1913, has been continued, the most recent reason assigned by the defense being the illness of the late W. U. Hensel, who was senior counsel.

Says No One Need Remain Thin Now

Physician's Advice for Thin, Underdeveloped Men and Women

Thousands of people suffer from excessive thinness, weak nerves and feeble stomachs who, having tried advertised flesh-munkers, food-fads, physical culture stunts and rub-on creams, resign themselves to life-long skinniness and think nothing will make them fat. Yet their case is not hopeless. A recently discovered regenerative force makes fat grow after years of thinness, and is also unequal for repairing the waste of sickness or faulty digestion and for strengthening the nerves. This remarkable discovery is called Sargol. Six strength-giving, fat-producing elements of acknowledged merit have been combined in this peerless preparation, which is endorsed by eminent physicians and used by prominent people everywhere. It is absolutely harmless, inexpensive and efficient.

A month's systematic use of Sargol should produce flesh and strength by correcting faults of digestion and by supplying highly concentrated fats to the blood. Increased nourishment is obtained from the food eaten, and the additional fats that thin people need are provided. G. A. Gorgas and other leading druggists supply Sargol and say there is a large demand for it.

While this new preparation has given splendid results as a nerve-tonic and vitalizer, it should not be used by nervous people unless they wish to gain at least ten pounds of flesh.—Adv.

Good Coal Proves Its Quality

Some coal is richer in carbon than others. The thing is to find the veins that supply it.

The coal that's rich in carbon is going to burn satisfactorily and throw out plenty of lasting heat.

For the intensity of heat depends upon the amount of carbon.

Kelley's Coal proved its richness in carbon years ago.

Why go limping around with aching, puffed-up feet—feet so tired, chafed, sore and swollen you can hardly get your shoes on or off? Why don't you get a 25-cent box of "TIZ" from the drug store now and gladden your tortured feet? "TIZ" makes your feet glow with comfort; takes down swellings and draws the soreness and misery right out of feet that chafe, smart and burn. "TIZ" instantly stops pain in corns, callouses and bunions. "TIZ" is glorious for tired, aching, sore feet. No more shoe tightness—no more foot torture.—Adv.
