

BOWMAN MILLINERY

Has Yet To Be Equalled In Harrisburg

Involving all that fashion authorities have designed, and with the new—the newest—always being added just as soon as the original model is shown, the Millinery Department is a center of life and activity, and a festive garden of springtime beauty.

The women folk are fast realizing the supremacy of Bowman styles—qualities, and service—with no promises of "free-trimming" and other such masks. We require a very small sum for trimming hats, which barely covers the amount of materials, such as silk lining, etc.

SEAGULLS SAVE WARSHIP FROM GERMAN SUBMARINE

London, March 17.—The German submarines which are attacking British and French ships in the North Sea have found dangerous foes in the seagulls, which follow everything afloat.

How a British warship was saved from destruction through these birds is related in a letter received by the rector of Sanby from the son of one of his parishioners, who is a sailor in the British navy. He says:

"A flock of seagulls has been following our ship throughout our cruise. In the afternoon after they have found their morning meal they generally settle on deck for a nap. I was watching them the other day when I suddenly saw the entire flock leave our ship and fly out to sea to a point where they remained. By carefully watching the water I soon discerned a black object on the surface and immediately warned the officer of the watch, who recognized the periscope of a submarine. This timely warning enabled us to get up speed and proceed along a zigzag course and this manoeuvre saved us from the torpedo which was fired at us shortly afterward."

It is a well known fact that seagulls in their eager search for food surround everything afloat on the surface of the water.

SUSPECT IS IDENTIFIED

Pawnbroker Says Wilmington Prisoner Had Slain Priest's Watch

Wilmington, Del., March 17.—Peter Melba, alias Krakas, indicted Monday by the Grand Jury on the charge of murdering Police Officer Tierney, and who, according to a confession made by Bernard Montvid, took part in the murder of the New Britain (Conn.) priest on February 8, in that city, was yesterday morning identified as the man who pawned the murdered priest's gold watch and chain in Philadelphia on March 1.

The identity was established by George W. Magg, a pawnbroker, of Philadelphia, who went to the workhouse to see him. He also identified Montvid as a man who had called at his store about the same time.

Dandruff Heads Become Hairless

If you want plenty of thick, beautiful, glossy, silky hair, do by all means get rid of dandruff, for it will starve your hair and ruin it. It is not a disease, it doesn't do much good to try to brush or wash it out. The only sure way to get rid of dandruff is to dissolve it, then you destroy it entirely. To do this, get about four ounces of ordinary liquid arvon; apply it at night when retiring; use enough to moisten the scalp and rub it in gently with the finger tips. By morning most, if not all, of your dandruff will be gone, and three or four more applications will completely dissolve and entirely destroy every single sign and trace of it.

You will find, too, that all itching and digging of the scalp will stop, and your hair will look and feel a hundred times better. You can get liquid arvon at any drug store. It is inexpensive and four ounces is all you will need, no matter how much dandruff you have. This simple remedy never fails.—Adv.

EXPORTS \$27,229,659 AHEAD Revenue Bearing in Trade Balance of \$411,483,009

Washington, D. C., March 17.—Exports exceeded imports passing through the thirteen principal American customs districts during the week ended March 13, by \$47,229,659, giving the largest balance in favor of the United States ever produced by a single week's foreign trade business.

The total value of exports for the week was \$69,840,719 and of imports \$22,611,060.

An analysis of foreign trade conditions issued by the Department of Commerce last night, shows that exports for the three months from December 1, 1914, to February 28, were estimated at \$778,118,711, and imports, \$367,028,862, netting a favorable balance of \$411,483,009.

Referring to the recent prediction by Chairman Fitzgerald, of the House Appropriations committee, that the government would face a Treasury deficit at the end of the fiscal year, President Wilson said yesterday he was not sure that measure would have to be taken for raising additional revenues, and that he had not yet considered the sale of Panama canal bonds. The question will have to be studied as it develops, he said.

The President said postoffice revenues were gaining, reflecting better business conditions, and he indicated he was hopeful there would be similar increases in other ordinary revenues.

Before the next session of Congress, the President said, he plans to consider a budget system.

Five Remonstrances Fall Stroudsburg, March 17.—Judge Staples yesterday granted licenses to five applicants against whom remonstrances had been filed, the objectors failing to show any specific violation of the liquor laws. One new applicant was refused. The petitioners' side will be heard in eight cases on Friday.
