The Mayor has been informed that the contract has not been submitted, and the Commission will ascertain from the Philadelphia Electric Company and the Keystone Telephone Company whether such a contract has been made, and if so, to advise when it is to be presented for approval in accordance with the provisions of the Public Service Company law.

TO STAY AT INDUSTRIAL HOME

Nursery Children Given Part of Institution Until New Quarters Are Completed on Cameron Street

Announcement was made this morning that the Day Nursery children, who were burned out of their home on North Third street, Tuesday evening, will remain at the Children's Industrial Home, Nineteenth and Derry streets, until their new home is completed on South Cameron street.

Following the fire Tuesday evening, a committee composed of Miss Anne McCormick and Mrs. J. D. Hawkins, were appointed to secure temporary headquarters for the children. A number of places have been selected and several offers made, but none came quite up to filling the needs of the home.

Yesterday the managers of the Industrial Home turned over a part of the building to the nursery, which answers the purpose quite well. The three infant children who were quarantined with the measles have been placed in the hospital department of the institution.

The new building on South Cameron street, was not expected to be completed until June, but carpenters and workmen said they will hurry the work so it will be ready for occupancy before that date.

TO GROUP LEGAL BUSINESS

Law Planned to Put All of It In Hands of Attorney General

The Attorney General's Department will have presented in the Legislature on Monday night a bill for the reorganization of the Attorney General's Department, establishing a legal sub-department. It will provide that the department shall have charge of all legal matters in connection with every other department requiring the services of an attorney, and that there shall be a sufficient force of deputies to take charge of all legal matters.

At present almost every department when in need of the services of an attorney, if the force of the Attorney General's department is not available, retains private attorneys and their services are paid for by the State. Hardly a department on Capitol Hill but has at some time obtained legal talent outside of the Attorney General's Department, and some of the departments have regular attorneys who are paid annual salaries. It is proposed to do away with all of these in the future, and center the entire legal force in the one department.

HUNTERS' LICENSES DELAYED

Changes in the Game Laws Will Hold Them Back Until July

Dauphin county hunters will not get any hunters' licenses until some time after the Legislature adjourns. It is the law that a digest of the game laws relating to the open seasons for different kinds of game, shall be printed on the back of the license, but there are so many changes contemplated in the laws by the Legislature that it will not be possible to get them all until they are enacted, and some of them may not be disposed of until after the Legislature adjourns. This will make it impossible to get the new licenses ready for the hunters before the latter part of July at least.

RUSSIAN FORCES AGAIN IN EAST PRUSSIA, AT MEMEL

Petrograd, March 19, 12 Noon, via London, 2.30 P. M.—The campaign in the east has assumed a new aspect with the penetration of the northernmost point of East Prussia by Russian forces.

This invasion in the north in many ways parallels the advance into East Prussia of two months ago when the Russian Tenth army, which it was thought might flank the German positions near the Mazurian lakes, was defeated and driven out. On this occasion, however, Russian military authorities say unanimously that the invasion does not possess a like strategic significance.

The Russian force has penetrated East Prussia to within twelve miles of the important sea port of Memel. (The official report from Berlin today, evidently based on later information, says that the Russians have entered Memel.)

LATE WAR NEWS SUMMARY

Turkish Armenia is said to have won another victory, capturing a Turkish base on the Black Sea near the Russian border. Petrograd asserts that the Turks retreated in disorder.

Two more British steamers have been destroyed by Germany's submarine raiders. They were torpedoed in the English Channel.

The Turkish War Department announced today that the French battleship Bouvet had been sunk during the bombardment of the Dardanelles. No confirmation has been received from Paris or London.

The Constantinople statement indicates that the Turkish fleet, whose location has been unknown for some time, again is engaged actively in the Black Sea. It is said to have attacked a Russian naval base on the Crimean coast, inflicting considerable damage.

Unofficial dispatches of recent date have described the former German cruisers Goeben and Breslau, now among the principal units of the Turkish fleet, as having been put out of commission and as stated that the Russian fleet was on the way to attack the Bosphorus.

What is said to be a presentation of Austria's attitude toward Italy, as set forth in a Vienna dispatch to Rome, contains the statement that Austria, if she agrees to make territorial concessions sufficient to satisfy Italy, will defer formal transfer of the territory until after the war. Austria, it is said, desires to assure herself that Italy will adhere to her promise of neutrality in return for the grant. This attitude is described in Rome as unsatisfactory to Italy.

A Paris dispatch states that Austria is resisting German pressure which several representatives of the dual monarchy will go to Berlin to present their reasons for desiring to resist Italy's wishes.

Information from Bucharest is that the Austrian forces in Bukovina have been reinforced and are undertaking a strong offensive movement. It has been reported recently that the Austrians were being hard pressed and might be forced to evacuate Czernowitz.

REPORT GERMAN TROOPS LEFT EASTERN FOR WESTERN FRONT

London, March 19, 3.55 A. M.—A special to the 'Times' from Petrograd says the Russian military authorities are convinced that some of the 33 German army corps massed in the eastern war theatre already have gone to Belgium or France, or presumably to reinforce troops facing the British.

The dispatch also says that the Germans probably are sending reinforcements to the Galician theatre, where the 'Russians have gained a complete mastery of the situation. Everything goes to show that owing to these causes a serious German offensive in East Prussia must be abandoned.'

GERMAN SUBMARINES CHASE STEAMERS GOING TO ENGLAND

London, March 19, 4.30 A. M.—Several incoming steamers report having been chased by German submarines. The Glenamoy from Calcutta, reports having escaped from one of these craft, which the officers of the steamer say, succeeded in sinking another steamer that they were unable to identify of Benefey Head.

The steamer Colchester, which plies between Rotterdam and Harwich, was pursued yesterday for the second time in two days by the U-28, but escaped.

SUCCESSFUL AUTOMOBILE SHOW ON HOME STRETCH

has attracted hundreds to the Kelker street hall, Fourth and Kelker streets. The closing days of the show are expected to bring out hundreds of out-of-town people interested in autos.

The development of farming with the automobile has been one of the results of the excellent cars of to-day, and the farmers attending Kelker street market, immediately under the snow, will be given an opportunity to go through the exhibit.

The Reese concert orchestra will give the following program at to-night's show:

Part I—March, 'Thurston,' A. J. Stacey; overture, 'Morning, Night and Noon,' Suppe; waltz, 'Naid,' P. At the Arena

The sixth annual show of the Harrisburg Automobile Dealers' Association, the veterans, Third and Delaware streets, is on the last legs of the best show the association has ever held. There is almost as much an auto show on the outside as on the inside, for a large sprinkling of the visitors are prospects to such an extent that they require demonstrations, and the arena show is a busy place with little excursions starting out at intervals.

The experience of the dealers that the public was awaiting the easy comparison of machines by seeing them side by side before making a decision was a pleasing one and sales have been better than ever before. If business keeps up as it has during the first part of the week, there will be established a high water mark that will be hard to beat in succeeding exhibits.

The veteran dealers are more than pleased with the outpouring of buyers:

Louis Cortese and Arthur Rubin will render the following program on the harp and violin to-night:

Part I—March, 'Made in U. S. A.,' Santos; selection, 'Bohemian Girl,' Balfe; 'Salut d'Amour,' E. Elgar; 'Waltz of Peace,' Cr. Harris; 'Melody in F,' A. Rubinstein; 'In a Rose Garden,' B. Gaston; 'Humoresque,' A. Dvorak.

ARMENIAN HORRORS APPALL

Whole Plain of Alashger Literally Covered With the Bodies of Men, Women and Children

By Associated Press.

London, March 19, 2.10 P. M.—Appalling accounts of conditions in Armenia have reached the officials in London of the Armenian Red Cross fund.

The latest recital is from an Armenian doctor named Dererian, who says that the whole plain of Alashger is virtually covered with the bodies of men, women and children. When the Russian forces retreated from this district the Kurds fell upon the helpless people and shut them up in mosques. The men were killed and the women were carried away to the mountains.

The organizers of the Red Cross fund say there are 120,000 destitute Armenians now in the Caucasus.

Collection Soon to Adorn Walls at Police Headquarters

The others will follow as soon as completed by the photographer. It took almost a year to get a collection of photographs of all of the Mayors of Harrisburg.

Below Freezing Temperature

The temperature dropped to 28 degrees last night and the partly cloudy condition was responsible for a moderately heavy frost. It did no damage as the crops are not sufficiently far advanced. There will be only slight changes in the weather conditions to-night and occasional rains may result.

GUILTY OF PASSPORT FRAUD

Madden and Cook, Accomplices of Stegler, Will Be Called for Sentence Late To-day

By Associated Press.

New York, March 19.—Sentence was to be imposed late to-day upon Richard Madden and Gustave Cook, who were found guilty by a federal jury yesterday of conspiracy against the United States in helping Richard P. Stegler, a German naval reservist, to obtain a false American passport. The maximum penalty for the offense is two years in prison, or \$10,000 fine, or both, but in fixing their punishment Judge Cushman will have before him the jury's recommendation for the sentence.

The case of Stegler, who became the government witness against the two men and confessed to his own part in the conspiracy, was to be called immediately afterward. Stegler, according to the announcement of his counsel, will plead guilty. It was intimated that in pleading for a light sentence, his counsel would make reference to Stegler's story that he was led to obtain the passport by a representative in this country of the German government.

That the suspicions of a young girl led to Stegler's arrest were disclosed to-day at the United States District Attorney's office. The girl, whose name is withheld, was an employe of a photographer who took Stegler's picture. Stegler told the photographer that his name was Madden and that he wanted the photograph for use on a passport. The girl's assistant became convinced from Stegler's teutonic features that, in spite of the name Madden, he was a German. She notified the Department of Justice here of her suspicions and department agents took up the case.

PIANO AT TRAINING SCHOOL

It Is No Wonder the Coming Teachers Didn't Work This Morning

There was little work done at the teachers' training school, in the Stevens building, 121 Chestnut street, this morning. The reason is obvious. Recently the members of the school gave an entertainment to raise money for a piano. The entertainment was successful.

The girls selected two pianos and as many music stores in the city and this morning the question was put by Miss Wert, and one in the store of C. M. Sigler was selected. The store was telephoned and in a short time the piano was moved into its new quarters.

Norman Kurzenkabe gave a short concert for the school and then a further question arose. A gaudy silk cover was deemed necessary, and a committee was named to select the cover. Piano accompaniment for the morning devotional exercises is now the program. No wonder the coming teachers did little work this morning.

The complaint was listed and will be heard by the Commission during the week of March 29, at the regular meeting.
