SAFER CREDITS

The Regional Bank's New Measure Will Help Business Men in Many Ways

Better credits, rather than an extension of credit, is the much-to-be-desired effect which the Federal reserve act will have on business. The new regional banks will exercise a useful function in assisting member banks to improve the character of their loans.

The most useful function in matters pertaining to health is the digestive system, for it is from this source we receive our daily help in renewing the waste portions of the body, keeping the blood pure and well supplied with red corpuscles, and the general condition up to Nature's standard.

Therefore, watch the digestion and at the first sign of weakness or distress see that immediate assistance is given. This can be efficiently supplied by the use of Hostetter's Stomach Bitters.

It has a well-known reputation as a tonic and appetizer and can be relied upon to help you regain your appetite, assist the entire digestive system and help Nature in the promotion and maintenance of health. Make Hostetter's Stomach Bitters your first choice in any ailment of the stomach, liver or bowels. You will find it well worthy of your confidence. Insist on having the genuine.—Adv.
