### WOMEN TO CALL FOR TRUCE AMONG WARRING NATIONS

New York, March 26.—The program for the Woman's International Congress in the interest of peace, to be held at The Hague next month, just received here from Holland, shows the first act of the Congress will be to urge a truce in the European war. Women of practically all nations, including those at war, are expected to attend the Congress. Exercises will be held in Dutch, English, French and German.

"Each of the belligerent nations claiming that it is not an aggressor, but is fighting in self-defense, will be asked to publicly define the terms on which they are willing to make peace," says the program. It is proposed that the women demand that all future international disputes shall be referred to arbitration, the Powers uniting to bring pressure to bear on any country resorting to arms.

The franchise for women as an effective means of preventing future wars is to be a topic of discussion, and the Congress is to adopt a declaration that there shall be no transference of territory without the full consent of the men and women in it. In calling the Congress the women of Holland issued an appeal to the women of the world.

"My Imperial thanks to all who have contributed to this great success. Like the glorious exploits of my army and my navy this victory of those at home fills me with joy and pride in being the first servant of such a nation at such a time. I request you to publish this message."

### GET MURDERER WITH ENGINE

Roy Champlin, Caught at DuBois, Admits He Is Wanted for Slaying Uncle  
DuBois, Pa., March 26.—By bringing into service a switching engine on the Pennsylvania railroad, George Stahl, a DuBois policeman, yesterday captured Roy Champlin, of Weisville, N. Y., wanted for the murder of his uncle, Henry McGee, on March 16.

Champlin appeared at the home of R. H. McIntosh, in West DuBois avenue, where he asked for something to eat. Mrs. McIntosh had been reading of the murder and the description of Champlin tallied with that of the man at her back door. As soon as Champlin left Mrs. McIntosh telephoned for Stahl.

The cop made a search of the railroad yards and found that two hoboes had started to walk down the track in the direction of Falls Creek. The cop hailed a switching engine and overtook the two men near Hills mine. Champlin and his companion made for the woods over the hill as soon as they saw they were being pursued, but Stahl headed him off and before Champlin could get to his 45 automatic revolver the cop had the drop and both threw up their hands.

Champlin's companion was unarmed and later given his freedom.

At the jail Champlin admitted that he was the man wanted. He said he had gone to the home of his uncle, Henry McGee, to get some clothing. His uncle refused to give him the clothing and a fight ensued. Champlin showed a scar over his eye which, he said, was made when his uncle hit him several times with a heavy piece of iron. Champlin says he drew his revolver, fired and then escaped. He remained around Weisville two days and then came in this direction. He asked whether his uncle was dead.

### FATE OF BECKER WITH COURT

Arguments for and Against New Trial Concluded in Albany

Albany, March 26.—The fate of former Police Lieutenant Charles Becker, who twice has been sentenced to be electrocuted for instigating the murder of Herman Rosenthal, rests with the Court of Appeals. Arguments on appeal from the second judgment of conviction were completed before that body yesterday.

Martin T. Manton, Becker's attorney, concluded his argument begun Wednesday, and Robert C. Taylor, an Assistant District Attorney of New York, argued against a reversal of the judgment and the granting of a new trial.

Should the Court of Appeals decide adversely to Becker, his next recourse would be a request for executive clemency to Governor Whitman, who, as District Attorney of New York county, prosecuted him, or an appeal to the United States Supreme Court on the ground that his constitutional rights had been violated.

### CUTS REFUSER'S THROAT

Stewart staggered into the house and fell to the floor in the presence of his wife. Surgeons from this city were rushed to the Stewart home, and, although the victim is in a serious condition, he is expected to recover. His assailant is still at large.

### IF BACKACHY OR KIDNEYS BOTHER

Eat Less Meat and Take a Glass of Salts to Flush Out Kidneys—Drink Plenty Water

Uric acid in meat excites the kidneys, they become overworked; get sluggish, ache, and feel like lumps of lead. The urine becomes cloudy; the bladder is irritated, and you may be obliged to seek relief two or three times during the night. When the kidneys clog you must help them flush off the body's urinous waste or you'll be a real sick person shortly. At first you feel a dull misery in the kidney region, you suffer from backache, sick headache, dizziness, stomach gets sour, tongue coated and you feel rheumatic twinges when the weather is bad.

Eat less meat, drink lots of water; also get from any pharmacist four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to clean clogged kidneys and stimulate them to normal activity, also to neutralize the acids in urine, so it no longer is a source of irritation, thus ending bladder weakness.

Jad Salts is inexpensive, cannot injure; makes a delightful effervescent lithia-water drink which everyone should take now and then to keep the kidneys clean and active. Druggists here say they sell lots of Jad Salts to folks who believe in overcoming kidney trouble while it is only trouble.—Adv.
