DESTROYER SAVES LAPLAND FROM SUBMARINE ATTACK

BRITISH DESTROYER WHICH DROVE OFF GERMAN SUBMARINE ABOUT TO ATTACK THE LAPLAND - PHOTOGRAPH TAKEN FROM THE STEAMSHIPS DECK BY A PASSENGER.

Dashing out of Liverpool into the Irish Channel under the cover of dusk, the steamship Lapland, now in the Red Star service, had a narrow escape from a German submarine just after she left the harbor escorted by a British torpedo boat, and when she landed her passengers in New York they were an overjoyed lot to be safe ashore again. Following the excitement which was caused when the passengers first saw the submarine, which was then attacking another steamship, the passengers were further stirred when the torpedo boat guarding the Lapland attacked the German raider. For the next day and a half as the Lapland raced westward, her engines crowded as hard as they could be driven, there was little sleep among the passengers and none at all for Captain Bradshaw and his officers until they had passed well beyond the cruising limits of any submarine. The photograph above, taken from the deck of the Lapland, shows the British destroyer giving chase to the German submarine.

RECIPE TO CLEAR A PIMPLY SKIN

Pimples Are Impurities Seeking An Outlet Through Skin Pores. Pimples, sores and boils usually result from toxins, poisons and impurities which are generated in the bowels and then absorbed into the blood through the very ducts which should absorb only nourishment to sustain the body. It is the function of the kidneys to filter impurities from the blood and cast them out in the form of urine, but in many instances the bowels create more toxins and impurities than the kidneys can eliminate, then the blood uses the skin pores as the next best means of getting rid of these impurities which often break out all over the skin in the form of pimples. The surest way to clear the skin of these eruptions, says a noted authority, is to get from any pharmacy about four ounces of Jad Salts and take a tablespoonful in a glass of hot water each morning before breakfast for one week. This will prevent the formation of toxins in the bowels. It also stimulates the kidneys to normal activity, thus coaxing them to filter the blood of impurities and clearing the skin of pimples. Jad Salts is inexpensive, harmless and is made from the acid of grapes and lemon juice, combined with lithia. Here you have a pleasant, effervescent drink which usually makes pimples disappear; cleanses the blood and is excellent for the kidneys as well.—Adv.
