NEW AUTO AGENCY FOR THE REGAL

D. W. Fitting, with office and residence at 1240 Market street, Harrisburg, has lately engaged in the automobile business.

THE NEW REGAL IS HIS CAR

He is an experienced motorist and a careful mechanic—energetic, young and full of ambition. He starts in his new enterprise under favorable conditions and is anxious to meet his friends and those interested in his line.—Adv.*

OVERLAND WINS RACING EVENT ON LAKE SUPERIOR

Many See Roadster Make Eight-Mile Run in 8 Minutes and 11 Seconds—Firm Will Give One a Month Next Winter

Automobile ice racing on Lake Superior, a novelty in winter sport, arranged by Duluth motor car dealers, as the closing event of their first automobile show, proved a great drawing card. At least 10,000 spectators saw an Overland roadster win the feature event, an eight-mile race. The four-mile oval was lined with spectators while the shore was also literally dotted with people.

The cars were equipped with tire chains to enable them to hold the track on the turns, where the slippery ice made speed difficult. The Overland covered the two laps in 8 minutes, 28 seconds, remarkably fast time considering the difficulties of the novel course. The second car finished one minute and 11 seconds later, leading the third by a full minute.

The race, which was virtually the first ever attempted on Lake Superior, proved such a popular form of sport that it has been decided to give an ice racing program once a month next winter.

With the support of the Duluth business men, the dealers of the city hope to offer prizes large enough to induce many of the world-wide drivers to enter. In this way they expect to establish the city as a center for winter sports.

Andrew Redmond, the local dealer, sold his entire exhibit at the Sixth Annual Auto Show last week. Dr. E. K. Lefever, of Boiling Springs, got the new six-cylinder five-passenger Chandler. Dr. H. G. Walters, the surgeon, who has been driving a Columbus Electric car since 1906, purchased the handsome four-passenger Overland coupe. Frank Oenslager, of Riverside, got the first seven-passenger six-cylinder Overland.—Adv.*

MANY CALLS FOR DODGE CAR

The Steamer Arabic from Liverpool Brought One Hundred Inquiries to Detroit Firm Recently

The steamer Arabic which recently arrived in New York from Liverpool, carrying the largest mail consignment ever brought from England to the United States, brought nearly a hundred inquiries to Dodge Brothers, Detroit, on the new car. Foreign interests in Dodge Brothers' car is shown by the great volume of mail and the numerous cablegrams received daily at the Detroit plant from all quarters of the globe.

MOTORCYCLE NOTES

Reports show that there are practically 7,000 motorcycles being used by rural mail carriers in the United States. Motorcycles are to take the place of twenty horses which were recently auctioned off by the Pittsburgh, Pa., police department.

Every motorcyclist in Maryland is invited to participate in what is to be one of the biggest endurance runs ever staged in the east. Howard A. French, a dealer of Baltimore, is promoting the event, the details of which have not yet been completely worked out.

C. A. Kuntz, a motorcyclist of Bremen, Ind., recently won a prize from the Technical World magazine for sending the most interesting original news story. Kuntz is a milkman and in his article tells how, for \$370, the price of a good team, he was able to make a motorcycle milk cart. He says he carries three milk cans in the attachment on his motorcycle, and that he is able to make his route in half the time required by horses. Each evening he has to travel nine miles to get home. This distance he covers in just thirty minutes, while it took him two and a half hours to make the trip with a horse. Kuntz also uses his motorcycle for hauling supplies from town, and sometimes even carries young pigs and calves on the two-wheeler.

American Dry Powder Fire Extinguisher. Tested—Tried and Proven. The effect of the powder thrown upon a fire is almost incredible. EBY CHEMICAL COMPANY Manufacturing Chemists and Physician Supplies. 23 S. FOURTH ST., HARRISBURG, PA.

CHALMER OWNERS SPEND VACATIONS IN THEIR CARS

Instead of Taking Their Annual Trip to Europe This Year They Are Going to Have a Look at America

Mars has motorized the gentle art of taking vacations. Hugh Chalmers, president of the Chalmers Motor Company, of Detroit, declares that his mail bags are jammed with letters from car owners who assert that instead of taking their annual trips to Europe this year they are going to have a look at America from the tonneaus of their touring cars.

"The ignorance of America on the part of some of these prospective tourists," observed the Detroit motor magnate with a chuckle, "is something pathetic. Many of them look forward to prowling about among American motor trails back of the steering wheel with all the naive and artlessness of children about to cross the threshold of some fairy land.

"They will find their homespun vacation on the Great American Playground all and more than they are looking forward to. Judging from the floods of mail I am receiving, not only most of those who usually go abroad for summer touring, but many of those who usually spend their vacations at inland summer resorts or on the seashore, are planning to go cross-country motoring instead this year.

"The democratizing influence of the motorized vacation," continued the Chalmers head, "will prove great. It is one thing to whirl across the continent in the seclusion of a Pullman. It is another thing to cross by easy stages in your car, pausing to dicker for grub, gasoline or lodging for the night at a farm house, ranch house or some crossroads inn. Every motorist who crosses the continent in his car for a visit to the expositions on the Pacific coast will return home an incomparably better American for having undertaken the jaunt. Democracy is a matter of getting acquainted."

"Come, and we will tell you more about it," says Ross Morton, of the Keystone Motor Car Company, the local distributors. Adv.*

\$449.99 RUNS REO A YEAR

Dr. N. W. Hershner, of Mechanicsburg, Says Average Cost Is 2 7-10 Cents Per Mile

Dr. N. W. Hershner, of Mechanicsburg, has been a Reo enthusiast for a great many years. He owned a number of other makes of cars before he got his first Reo in 1911. Since that time he has had nothing but Reo cars. Dr. Hershner drives an average of one thousand miles a month, winter and summer, and as his practice is very much in the country, he encounters some very bad roads.

The doctor has kept a very accurate account of all the expenses of his Reo automobile from January 1st, 1914, to January 1st, 1915, and the cost of operation including tires, oil, gasoline, repairs, upkeep and every conceivable expense except the garage, which he owns, is \$449.99 or an average of 2 7-10 cents a mile. This, like Dr. Farnsler's report on the upkeep of a Reo car, is not exceptional mileage.—Adv.*

SOLD HIS ENTIRE EXHIBIT

George E. Bentley Disposes of All Paige Cars He Displayed at Sixth Annual Auto Show

George E. Bentley, proprietor of the Riverside garage and dealer in Paige cars, which he exhibited at the sixth annual automobile show, March 13 to 20, reports the sale of his entire exhibit. The following named persons are some of the purchasers: Henry M. Stine, Harrisburg, purchased the first 6-46 seven passenger touring car; W. L. Stoev, Harrisburg, purchased the 4-36 five passenger touring car. A car load of Paige 6-46's is coming in to this agency next week and C. A. Goodhart, of Shippensburg, gets one of these.—Adv.*

Cheering Comment

"That infant of yours kept me awake half the night," said the irritable neighbor. "Well, I congratulate you," replied the weary father. "That comes nearer being a kind word than anything I have heard today. Nobody else owns up to getting half a night's sleep."—Washington Star.

YOUNG AMERICAN ACTRESS GETS CHIEF ROLE IN NEW WAR PLAY

When Charles Frohman produces within a month Justus Miles Forman's new play, "The Hypphen," which deals with the effect of the present European war on the United States, the leading feminine rôle will be played by Miss Gail Kane. In the new play Miss Kane, who has risen to a prominent place among the younger American actresses, will have the rôle of Lily Beulow, daughter of a German-American family living in Pennsylvania, which, through secret agencies of hypernated Germans, becomes tragically involved in the war. Under the arrangement with Mr. Frohman the play "The Hypphen" will be produced in one of Mr. Frohman's theatres in New York.

THE CUNNING OF CROWS. THE GREATEST RAILROAD. In India These Birds Have Been Labeled "Shreds of Satan." Africa's Famous Cape to Cairo Line Will Be Unique. Travelers in the orient have much to say about the Indian crow, a bird that for uncanny knowledge and prunkish audacity has perhaps no equal. Corvus splendens—thus have ornithologists flatteringly labeled him. But a naturalist who knows the Indian crows at first hand has called them "shreds of Satan, cinders from Tartarus." To give these impish creatures their due, however, it should be said that life in India is not a little enlivened by their dance. A correspondent witnessed the following incident: A small hawk had seized a little bird and perched on a leafless branch to devour his prey. The spectacle drew two crows to the spot. They hopped and flapped from branch to branch, noisily discussing the strategy of their intended raid. Then one of them quietly slipped away through the surrounding foliage. At the same time his mate flew in front of the perching hawk and, hovering within a foot of his beak, maintained a bustling menace of snatching the titbit. That effectively compelled the attention of the hawk. His prey firmly grasped beneath his feet, he angrily hissed and lunged at the hovering nuisance. So lively was the skirmish that the human onlooker forgot the existence of the second crow. But now that wily bird reappeared some distance in the rear of his stunted victim. With stealthy sidings and short, noiseless flights, he drew near. Then he made a swift dash, seized the hawk's long, barred tail by the tip, hung on to it with his full weight and toppled the luckless hawk in a complete back somersault from the branch! The released titbit was instantly seized by the first crow, and the clever pair bore off their booty with much triumphant cavort.—Youth's Companion. The great thing in the world is not so much to seek happiness as to earn peace and self respect. Artistic Printing at Star-Independent.
