## NEWS OF THE SPORTING WORLD SCHOLASTIC CAME TO-NIGHT WINNING A BATTLE

properly used In all the measure-ments of trunk and limbs Willard shows an advantage in structure, muscle and chest expansion varying from two to four incher

chest expansion varying from two to four inches. To offset these physical assets John-son has the benefit of ring wisdom and eraft cultivated during his long career as championship contender and holder. Just as Willard surpasses Johnson in every point of physical makeup, the Galveston puglikst excels the Kansas boxer in all departments of the science of giving and evading punishment. With youth and power ranged against experience and skill, the battle is likely to develop into a contest in which ring strategy will equalize brute strength and courage.

d courage. Johnson's ring assets are well known, Johnson's ring assets are well known, but uncertainty clouds Willard's pros-pects. In his short period of active glove battling he has never faced an opponent of the power, skill and experi-ence of Johnson. The negro is no phys-ical weakling, even at the age of 38 years, and, while Willard must be ac-horded the advantage here, it is likely corded the advantage here, it is likely that the champion's offensive and de-fensive skill in both boxing and clinch-ing will sufficient the state of the state

fensive skill in both boxing and chuch-ing will nullify this to a considerable extent. In the closing rounds of the battle it is probable that endurance and courage will, play an important part. Willard has shown both thes quali-ties, but up to the present time has not been noted for aggressiveness or boxing ability. Whether he can rise to the momentum will be domonstrated in the been noted for aggressiveness or boxing ability. Whether he can rise to the opportunity will be demonstrated in the supreme test at Havana next Monday. The future drawing powers of a new champion, towering far above many of his predecessors, adds a glamor to the battle which the promoters have had in mind since they began the prelimi-nary arrangements some months ago. That the match making was not without its delays and upsets is shown by the fact that if the puglilists meet as schedued next Monday exactly sk

That the match making was not be without its delays and upsets is shown by the fact that if the puglists meet as scheduled next Monday exactly # Jack Curley and the other promoters of the big bout decided upon securing Johnson's signature to the articles of agreement. The big champion was in France at that time and Carley was en-trusted with the commission to go find the Texas negro and secure his en-dorsement on the articles which has been signed by Willard a at the synchic to the kansan weights to take the title from Johnson, and they still believe that the Kansan will prove the victor.

Two months later the memorable campaign of 1800 began. The 20th of May saw Napoleon on the heights of St. Bernard. The 22d, Larmes, with the army of Genoa, held Padua. So far all had been well with Napoleon. He had compelled the Austrians to take the negation be desired reduced take the position he desired, reduced the army from 120,000 to 40,000 men dispatched Murat to the right and June 14 moved forward to consummate his masterly plan. But God threatened to overthrow his

H

How One Defeat Was Turned

Into a Brilliant Victory.

The Ceitral Grammar school five of Steelton defeated the Evans Grammar school five, champions of the Reading League, Saturday afternoon in Felton Hall, Steelton, by the score of 46 to 29. Steelton made sure of its chances and played a steel there must scheme! A little rain had fallen in the Hall, Steelton, by the score of 46 to 29. Steelton made sure of its chances and played a steady floor game until a chance for a basket arrived. The great-est crowd of the season saw the con-test. It is a signal victory for the Steelton team as the visitors have won two cups this season and sent the chal-lenge.

Alps, and the Po could not be crossed In time. The battle was begun. Milas, pushed to the wall, resolved to cut his way out, and Napoleon reached the field to see Larmes beaten, Champeaux dead, Desaix still charging old Milas with his Austrian phalanx at Marengo till the consular guard gave way, and the well planned victory was a terrible defeat.

 6 play of the winners, making seven and
2 eight field goals, respectively. Cox, of
4 the visitors, made fourteen of his team's
4 points. The line-up: Just as the day was los Desaix, the boy general, sweeping across the field at the head of his cavalry, halted on the eminence where stood Napoleon. There was in the corps a drummer boy, a gamin whom Desaix had picked up in the streets of Paris. He had fol lowed the victorious eagle of France in the campaigns of Egypt and Germany As the columns halted, Napoleon shout ed to him, "Beat a retreat!"

## The boy did not stir. "Gamin, beat a retreat!"

The boy straightened up, grasped his drumsticks, turned and looked Napo-leon straight in the eyes, and said, "Sir, I do not know how to beat a retreat: Desaix never taught me that, can beat a charge-oh, 1 can beat a charge that will make the dead fall into line. I beat that charge at the Pyramids, I beat that charge at Mount Tabor, I beat it again at the bridge of Lodi. May I beat it here?"

Napoleon turned from the boy to Desaix and said, "We are beaten; what The Result When a Vessel Strikes One shall we do?

To merchantmen, to the smaller an "Do? Beat them! It is only 3 o'clock older warships-to everything that floats except the very highest and more recent products of the shipbuilder's art - the mine presents the danger of comand there is time enough to win a vic-tory yet. Up! the charge! beat the old charge of Mount Tabor and Lodi!" A moment later the corps, following plete and almost instant annihilation The rigidity of the ship is in itself an the sword gleam of Desaix and keep ing step with the furious roll of the element of danger, for the water sur gamin's drum, swept down on the host rounding it is incompressible. ## LAW OF GRAVITY VIOLATED. HERE IS A REAL STAR ditions Under Which Water Ac-tually Flows Upward. AND SHE'S ONLY 11

There are conditions upward and rises above its source. If a glass tube be dipped into water the column inside will be above the level of the sur-rounding surface. Moreover, if a tube of half the diameter be substituted the THE REAL HERO OF MARENGO, of half the diameter be substituted the column doubles its height. The water creeps along the inside of the tube, owing to the adhesion, and forms a owing to the adnesson, and top, cup shaped depression at the top.

An explanation is not diffican be proved mathematically that if the diameter of a circle be diminished one-half the circumference is also re-duced to that extent, while the area is one-fourth of its former value. The circumference of the column of water being reduced one-balf, its contact with the glass, and hence the adhesive force, is also diminished to that extent while the cross section, and hence the weight, is decreased to a fourth of what it was before. Therefore the s ond column can be twice the height of the first without exceeding the lifting

Remarkable as the underlying prin ciples of this phenomenon undoubtedly are, nature made use of them long be-fore man made their discovery. Every tree and flower adds its testimony. The core of a tree or plant, instead of being a single open channel, consists of a spongelike substance containing many miniature tunnels through which the sap and moisture collecte roots flow apward in small rivulets. fising higher and higher in sheer de-flance of the great law of gravity.—St Louis Republic.

Taking the Jewsharp Seriously. The jewsharp has been taken far nore seriously as a musical instrument than most of us have ever imagined. Its music has been known all over Eu

rope for centuries, and quite elaborate effects have been produced by it. One virtuoso devised an ingenious by means of which he played five harps differently tuned, and Eulenstein used no fewer than sixteen instru ments, keeping them on a table in front of him. And Sir Charles Wheatstone, inventor of the concerting, once wrote an elaborate essay on the t nic of the jewsharp.-London Mail.

Thought Astor Was Crazy. People said John Jacob Astor was crazy because he paid \$1,000 an acre when he bought the estate of Aaron

Burr about a hundred years ago. It was a farm of 120 acres, located about where Twenty-first street is now in Manhattan. In ten years he com-menced to sell lots at \$5,000 an acre, but he did not sell much at that price.

"When I was still new to collecting, in the south of France I discovered one day, to my great joy, a large female of Saturnia pyri hidden away in some bushes. The specimen was the first 1 bad ever caught, and 1 decided, on account of its large body, to stuff it (a quite unnecessary operation; I have kept dozens since unstuffed). The moth was dist apparently killed by being forced into a cyanide both, where it was left about an hour. The abdomen was then emptied and the cavity filled with column wool sectored to a second with cotton wool soaked in a saturated solution of mercuric chloride. The inpinned and set, was discovered next day attempting to fly away from the setting board."

Her Alimony Explained. Miss Curley kept a private school and me morning was interviewing a new pupil. "What does your father do to earn

his living?" the teacher asked the little

A distinguished entomologist writes: reau of American republics, and said: "Mr. Barrett, I am looking for young man who is not afraid of hard work and who wants to make a repu-tation for himself, to go as minister to Siam to settle the claim of Dr. M. A. Cheek involving several million dol-tars, and also involving some delicate matters in connection with the interpretation of our treatles with oriental countries. This particular case is one of the most important we now have in the orient. You have received strong indorsements from the Pacific coast as consul general to Yokohama, but the office was filled when your recom-mendations arrived. Will you accept the position as minister to Siam? By first, what do you know about Siam? ALL BAFFEL Couldn't remember wheth-er Siam was in Asia or Africa, but a little thing like this didn't bother him, so he said, "Mr. President, I know all about Siam." Mr. Barrett couldn't remember wheth-

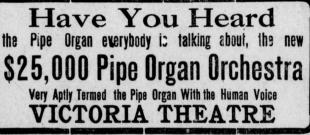

country that produced the famous Si-amese twins."

Mr. Cleveland, with a twinkle in his eye, arose gravely and said, as he shook hands with Mr. Barrett: "Mr. shook hands with Mr. Barrett: "Mr. Barrett, I am happy, indeed, to get hold of a man with such profound knowledge and abundant information about Siam. As a matter of fact, I am glad you know nothing about it, as you will not be prejudiced one way or the other in regard to the questions to be settled there." Mr. Barrett went to Siam, where he

Mr. Barrett went to Siam, where he Alt. Barrett went to siam, where he stayed for four years. At the time of his appointment he was twenty-six years old and was the youngest minis-ter plenipotentiary that the United States had ever appointed.—Portland Irnal.
