Dives, Pomeroy & Stewart, Street Floor.

## COMPANY SELLS \$2,000,000 WORTH OF 'HOLLIER EIGHTS'

Fred Lewis, Head of the Firm and a Mechanical Genius, Incorporated Many Clever Ideas in the New Automobile

Latest sensation in the automobile world, the story of which is now given out for the first time, specifications having been withheld, and only a favored number of large distributors and dealers have been shown the car which has been held under cover during its production, and it was only lately that the trade learned that two million dollars' worth of the new cars had been sold to the large distributors and the company were in position to deliver the goods.

Fred Lewis is the mechanical genius responsible for the many clever ideas incorporated in the new car. Mr. Lewis is well and favorably known in the trade, his father having been the originator of the Lewis Spring and Axle Company, and the present head grew up accustomed to the heavy thud of the trip hammer and the glow of the molten metal in the plant of the Lewis Spring and Axle Company.

This company has for many years been building cars and parts for different makers, and are now building the New Hollier Eight, strictly within its own factory. Mr. Lewis' experience in building both automobile and

aeroplane motors has especially fitted him for the designing and production of this new candidate for popular favor.

Every feature in the new Hollier has proven its efficiency and durability, as the work has been under way for many months, and the new eight offered is a proven product in which all of the "high spots" have been removed.

Mr. Lewis' inventive genius is shown in the many practical improvements which he has made in the eight cylinder motor. His method of attaching cantilever springs, and the improved method of connecting the piston rods to shafts, etc.

The Hollier is a lightweight machine, but is fitted with a 3-inch bore motor which is only 1-8-inch less than a well-known car of almost double the weight. The abundance of power divided with eight impulses furnishes high power and speed as well as economy of tires and machine.

The ample capital and the enormous production facilities of the Hollier company has enabled it to gain a lead of a full year in marketing the new "Eight."

Deliveries will be made from distributing centers in the near future to dealers. Harrisburg is one of the points of distribution from which fourteen counties will be supplied. Regardless of the popular price of the Hollier it is a car of the highest quality, both in workmanship and material and carries every car mark of the experienced designer.

on high gear. The car establishes a new criterion of automobile value, being listed F. O. B., Jackson, \$985. Deliveries are promised in the immediate future.—Adv.

## Rifle Clubs Get Krag-Jorgensen

Washington, March 31.—All Krag-Jorgensen rifles long since discarded by the U. S. army and stored in government arsenals, are being distributed to "government" civilian rifle clubs in the various States which were organized under an act of Congress, it was announced to-day by the National Rifle Association of America. Recent published reports were to the effect that these rifles were being sold to the warring nations.

## Grain Fields Ravished by Fire

Lebanon, March 31.—Two acres of new grass and wheat were burned yesterday in the field of Morris Moyer, of Millbach Centre, when sparks from burning trees on the farm of John Mock, adjoining, started a fire. Men employed on the Mock farm were destroying some old trees by fire. With the aid of sticks, brooms and forks, farmers succeeded in saving about one acre of the standing grain. The loss amounts to several hundred dollars.

S. K. Snavelly Dies at Littitz  
Littitz, March 31.—Samuel K. Snavelly, 68 years old, died yesterday from a complication of diseases, after a lingering illness. He was a former resident of Harrisburg and a cigar manufacturer many years. His widow, three brothers and a sister survive, the latter residing in Harrisburg.

## KEEPS HEART ALIVE 3 HOURS

Surgeon's Experiment on Swindler Suicide, However, Failed to Win Soul Back

Boston, March 31.—After Willard O. Wallace, of Pittsburgh, an alleged confessed swindler, who took poison in the city prison, yesterday, had been pronounced dead, his heart action was restored by massage and he lived in an unconscious condition three hours more before he was again declared dead.

Wallace was on his way to Court to answer charges of larceny by false drafts on banks at New Orleans, San Francisco and Portland, Ore., when he told an inspector that he had swallowed poison. After hospital physicians had worked over the man for an hour, they declared him dead, no heart beat being perceptible, and turned the body over to the medical examiner.

It was nine minutes later when by the medical examiner's permission Dr. William H. Brickley, of the hospital staff, began a trial of manual massage. An incision five inches in length was made and through this Dr. Brickley thrust his hand and gently massaged the heart.

In fifteen minutes the color of the man's face changed from purple to red and heart action was once more apparent. With constant massaging by eight members of the hospital staff working in relays, life was maintained for three hours.

When arrested Monday night Wal-

lace was allowed to keep about \$20 in his possession. This he spent on dinners for himself and four men who were confined in nearby cells.

"I've had a high old time for the last few months. I don't like to stop," he is said to have told the cell attendants.

The police say that Wallace had been variously known as C. K. Hitchcox, Claude Howard and S. H. Conrad.

## DRILL FOR ARTESIAN WELL

Water Wanted For Refrigeration At Metropolitan Hotel

Probably the first time in many years that an artesian well has been drilled on Market street, is what is occurring now in front of the Metropolitan hotel, at Fourth and Market streets.

The water is wanted for the new refrigeration plant which was recently remodeled. It has been found that in using city water from the reservoir the temperature varies at different seasons of the year, while in using artesian well water the temperature would be about fifty degrees the year around. The drill work is being done by Kohl Brothers, of Palmyra.

## Aged Woman Dies at Hopeland

Hopeland, March 31.—Mrs. Elizabeth Zentmeyer, died yesterday at her home from the infirmities of age. She was 89 years old and the oldest resident. She was one of the pioneers of this place. She was a member of the Lutheran church. A son survives.

STAR-INDEPENDENT WANT ADS. BRING RESULTS.

## EASTER FLOWERS GALORE

Holmes Seed Company Has the Old Favorites and Many New Ones

Just now when everybody is thinking about flowers for Easter there is a lot of comment on the big showing of the Holmes Seed Company, 106 and 108 South Second street. This store which has been noted for the magnitude and magnificence of its display for Easter, for a number of years, has broken all records. The interior is a riot of colors in which tulips, jonquils, lilies, narcissus, roses, rhododendrons, azacias, hyacinths, gardenias, lilacs, tansies and many other "blend" their brilliant hues.

Mr. Holmes bought on an unusually extensive scale this year in order to get big price concessions from the growers. He has been so successful the public can buy the prettiest kinds of thrifty potted flowering plants from 20 to 25 per cent. less than they usually sell for. All of these plants have been carefully selected and are guaranteed free from disease. Prices range from a few cents each up to ten dollars or more. Of course the latter prices are for very large blooming shrubs in tubs. One of the features of the display is the latest floral novelty, the metrosideros. It is very odd and its flowers resemble large red bottle brushes. Notwithstanding the almost unpronounceable name and peculiar shape it is very pretty.

The Harrisburg Hospital is open daily except Sunday, between 1 and 2 o'clock p. m. for dispensing medical advice and prescriptions to those unable to pay for them.

## TO GIVE AWAY 2,000 EGGS

Alderman of Fifth Ward Plans Easter Treat For the Kiddies

Fritz Kramme, alderman of the Fifth ward, is going to play Easter bunny to about 2,000 children Sunday morning at 9:30 o'clock when he will distribute that many colored eggs. The distribution will take place at the alderman's home, 445 Verbeke street.

The alderman has not asked for police aid to control the crowd but he expects to have enough children there to make use of all the eggs which he is busy coloring to-day.

Eggs were abundant in the city markets to-day and the Easter bunny's demand for them did not force up the price. They sold for 20 and 22 cents a dozen, the figures which have been prevailing for several weeks here.

## Band Makes First Appearance

The first appearance of the Trainmen's band of Harrisburg, took place last night when it gave a concert in the Chestnut street auditorium in the auspices of the Employees' Relief and Compensation Fund. The automobile which was given away by the organization was won by C. J. Thomas, a roadman on the Philadelphia division.

## Policeman Suspended for Speeding

Norristown, Pa., March 31.—Charged with violating traffic laws he is supposed to enforce, Charles Parvin, a motorcycle policeman, yesterday was found guilty by the City Council Police Committee and suspended two days without pay.
