

Pal! Listen to this:

Prince Albert is the one pipe tobacco that gets right under the epidermis of the most veteran pipe smoker. Men who have become case-hardened to tongue tortures are falling in line along with young fellows who are just getting pipe broke. Men everywhere love the ripping good flavor and fragrance of

PRINCE ALBERT

the national joy smoke

but what they like most is P. A. peacefulness. They like the absence of the tongue and throat suffering, taken out of P. A. by our famous patented process. P. A. is sold in the tidy, pocket-handly red tins, 10c; tippy red bags, 5c; also in pound and half-pound tins; but the pound crystal-glass humidor is the jim-dandy package for home and office use. You go to it!

You can buy any of these at any store that sells tobacco.

READING FIVE IS FINED

Eastern League Expels Pretzels, Their Manager and Henry, of Camden Team

Philadelphia, April 2.—Manager A. Berliner, of the Reading basketball team, was expelled last night from the Eastern League for admitting that he endeavored to frame up the race for the Eastern League pennant with the Camden club, so that the season would end in a tie and make a post-season series necessary.

This action was taken during a sensational meeting of officials of the league held at the Bingham last night. Manager Henry, of the Camden club was also expelled from the league on the ground that he made charges against the league. Berliner declared that he had tried to frame up the race and that the Camden club agreed to do this.

He said that Andy Sears, of the Reading club, at a conference with Jackie Adams, captain of the Jersey club, fixed the race.

The players denied this, but the entire Reading team was expelled from further competition in the league.

President Scheffer presided at the storm session and the meeting lasted far into the night.

TENER IS OPTIMISTIC

National League President Predicts Great Baseball Year

Chicago, April 2.—Internal strife among the big baseball leagues has given place to harmony for a time at least, according to John K. Tener, president of the National League.

"The season of 1915 promises to be one of the best professional baseball has experienced," he said. "The war in Europe will keep people with money to spend here at home and their attention naturally will turn to outdoor sports."

Mr. Tener, Mrs. Tener and a party of friends, all of Philadelphia, stopped off in Chicago on their way home from the Panama-Pacific International Exposition, where they assisted at the dedication of the Pennsylvania building.

Before his departure last night Tener conferred with B. B. Johnson, president of the American League.

HANGED BY A GHOST.

Curious Story of a Murder and the Discovery of the Crime.

An old volume of the Quarterly Review mentions a crime discovered in a most extraordinary way in Australia in the year 1830, of which a public record is preserved and which figures with full details in the journals of that period.

The confidential steward of a wealthy settler near Sydney stated that his master had suddenly been called to England on important business and that during his absence the whole of his immense property would be in his exclusive care.

Some weeks after an acquaintance of the absentee settler riding through his grounds was astonished to perceive him sitting upon a stile. He strode forward to speak when the figure turned from him with a look of intense sorrow, and walked to the edge of a pond, where it mysteriously disappeared.

On the morrow he brought a number of men to the water to drag it, and the body of the man supposed to be on his way to England was brought up. The steward was arrested, brought to trial and, frightened at the story of his master's ghost, confessed the crime, stating that he did the murder at the very stile on which his master's ghost had appeared. He was duly executed.—Case and Comment.

RUNNING UPSTAIRS.

Physical Energy It Expends Quoted in Horsepower.

To lift 550 pounds one foot in one second requires what is known as one horsepower. Similarly a horsepower is able to raise twice that weight one foot in twice the time, or one-half foot in just that time. Moreover, it can raise half 550 pounds one foot in half a second, or two feet in a second, and so on. Therefore when we lift one-fourth of that weight, 137½ pounds, four feet in one second, we are exerting a horsepower.

Accordingly, when a person who weighs 137½ pounds runs upstairs at the rate of four feet a second, he is exerting the equivalent of a horsepower. For a man weighing twice that much, 275 pounds, it would be necessary to climb at the rate of only two feet a second to exert a horsepower. It is possible to do much more.

As a matter of fact, a horse often exerts many times a horsepower. The average horse can draw a wagon up a hill where a ten horsepower engine with the same load would fail. A horse power does not represent the greatest momentary strength of the greatest horse, but is a measure of the power which he can exert continuously.—New York World.

BABY SAVED, BROTHER BURNED

Lad Set Fire to Home While Playing With Matches

Hagerstown, Md., April 2.—Carroll, 4-year-old son of John Stonesifer, of Union Mills, was burned to death while in his home with a baby sister. Mrs. Stonesifer was called to the bedside of a neighbor, who was ill, and left the two children in the care of a woman who lived in an adjoining house. She kept watch over them until ten minutes before saw smoke issuing from the house and rushed in, quickly put out the fire and rescued the baby. After the smoke had cleared away a search was made for the boy and his body was found in a box in the room that had been on fire. It is thought that the boy found matches in his father's pockets.

50,000 JUGS BEER FOR EITEL

Naval Board Members Gasp at Size of Captain Thierichens' Requisition

Washington, April 2.—If the Prinz Eitel Friedrich, the German sea raider at Hampton Roads, takes a chance with the British cruisers lying off the Virginia capes instead of interning, she will go out with 50,000 bottles of beer, 100 bottles for each of the 500 men aboard.

A naval board appointed by Secretary Daniels to determine the quantity of coal and other supplies needed by the Eitel in case she went to sea, cut down every item in the requisition made by Captain Thierichens except one. The naval board members gasped when they discovered that Thierichens wanted 50,000 bottles of beer, but they approved the item.

Secretary Daniels also gasped when he looked over the beer item. However, the Secretary found that while the international regulations placed a limit on the amount of coal and food supplies, said rules were silent as to beer.

FISH NOT A 'LOBSTER'

Son of Financier Punctures Broker For Alleged Insult

New York, April 2.—Sidney Fish, son of Stuyvesant Fish, the financier, was summoned before Magistrate Ten Eyck in the Tombs court yesterday on complaint of Theodore S. Todd, a custom house broker, who charged him with assault.

Last Friday Todd said he had an argument with Fish in his office during which he called Fish "a lobster not a fish." Fish said Todd did not call him either of the names, but used a more questionable epithet which he resented promptly with his fists. The magistrate dismissed the case saying such matters could be patched up outside of courts.

N. J. LAUDS WILSON AT FAIR

Speakers' Chair Made of Wood From Every State

San Francisco, April 2.—President Wilson was eulogized in verse and prose at the dedication of the New Jersey State building at the Panama-Pacific Exposition yesterday. A message of greeting from the President was read and a chair made of pieces of wood from every State in the Union and sent here by Governor James F. Fielder, of New Jersey, was used in turn by the speakers, who comprised representatives of the Nation, State, city and exposition.

Thomas V. Cater, representing Governor Fielder, made the dedicatory address, New Jersey's resident commissioner, Col. M. R. Margerum, presiding.

LEAVES \$150,000 TO YALE

General Pine's Will Provides \$250,000 For Training Ansonia, Conn., Children

Ansonia, Conn., April 2.—Under the will of the late General Charles H. Pine, made public yesterday, Yale will eventually receive an addition of \$150,000 to the \$50,000 scholarship fund established by General Pine about three years ago.

The will also provides for the creation of a fund of \$250,000 to be devoted to manual training of Ansonia boys and girls.

91 JITNEYS IN ATLANTIC

Business Men Put Private Cars On Streets—Some Own Chauffeurs

Atlantic City, April 2.—The popularity of the jitney bus here gives promise of eclipsing that of the famous rolling chairs along the boardwalk. Although the ninety-first jitney license was issued yesterday the demand for the nickel service is in excess of the supply of cars and the drivers are reaping a harvest.

Contractors, undertakers, commission merchants, electricians, policemen, constables, druggists and hotel proprietors are included among those who have put their private cars into the 5-cent service and many have given up their old businesses to drive their own machines. Few are making under

\$10 a day, and the average is considerably above that.

In addition to the ninety-one licensed jitneys, many taxicabs have entered the 5-cent field.

Woman Pensioner of 1812 Dies

Cumberland, Md., April 2.—Mrs. Hattie Ann Ryan, 98 years old, the only known person drawing a pension from the war of 1812, died yesterday at the home of her son, Daniel Ryan, near this city, from infirmities.

Worked Underground 50 Years

Pottsville, April 2.—Henry W. Unger, said to be the oldest miner in Schuylkill county, died yesterday at his home in Reinerton at the age of 85 years. He worked underground for fifty years and was never injured and was considered one of the most skill-

ed miners in the State. He was the father of twelve children, one of whom is the Deputy County Recorder, A. A. Unger.

Woman Plunges Down Cellar Steps
