

How Fat Folks May Become Slim

A Simple, Safe and Reliable Way That Calls for No Drastic Diet, or Tiresome Exercises

To be excessively fat is very mortifying. People who are too stout are mighty sensitive on this subject.

If you have been getting too stout of late and want to reduce your weight in a simple, safe and reliable way, spend as much time as you can in the open air, practice deep breathing and get from any good druggist a box of oil of korein capsules.

Even a few days treatment should show a noticeable reduction in weight, the flesh should become firm, the skin smooth and the general health improved.

Every person who is ten or fifteen pounds over normal weight should give this treatment a trial. You will probably find it is just what you need.

P. O. BUSINESS GREATER

Revenues Grow Month by Month, Following War Depression

Washington, April 6.—Postal revenues, which are regarded as an unfailing barometer of business prosperity or depression, have been steadily increasing month by month.

In July, before the war, there was an increase in postal receipts of 4.7 per cent. over the corresponding month of 1913. The effect of the war was indicated when a decrease of 1.2 per cent. was noted in August.

Then the tide began to turn. The November decrease was 5.71 per cent. In December the decrease was only 4.87. January reports brought the decrease down to 4.73, February to 4.59, while March figures show a decrease of only 3.95.

U.S. MAKES STUDY OF CLOTH INDUSTRIES OF NEW YORK

Statistics Compiled By Government Show Wide Range in Number of Employes and Wages at Different Periods of the Year

Washington, D. C., April 6.—Bulletin No. 147, just issued by the Bureau of Labor Statistics of the U. S. Department of Labor, is devoted to a study of employment conditions in the cloak, suit and skirt industry, and the effect of those conditions upon the annual earnings of the workers.

The bulletin is divided into two parts, the first dealing with seasonal fluctuations of employment in the industry, as shown by pay rolls of establishments in New York City and Boston; the other comprising a study of occupations in the industry and the presentation of plans for the apprenticeship of cutters and the education of workers.

Pay roll data for all productive labor is seventy-five shops in New York City show two busy seasons; one lasting fourteen weeks, from the end of July until the end of October; and one twelve weeks from the end of January until the middle of April.

The small number permanently employed, as compared with the highest number needed during any week and with the much larger number on the pay roll at some time during the year, indicates that a considerable proportion of the employes do not receive from the industry an adequate amount during the year for their support.

FLAGS TORN INTO STRIPS BEFORE PERMYSL'S FALL

Petrograd, April 6.—A remarkable feature of the surrender of Permysl was the fact that not a single Austrian flag was captured, says the "Rusky Slovo." The secret of their disappearance was discovered, this newspaper says further, through the confession of Slav war prisoners who arrived at Kiev. The said night before the surrender of the fortress all the flags were torn into strips. These strips were numbered and distributed among individuals who hid them in the linings of their coats and caps. They were required to take an oath to restore them upon their release from captivity, so that the flags might be reconstructed, thus giving the regiments the right to a further corporate existence.
