Tests of Red Fire Spread Report That Big Blaze Was Raging

San Francisco, April 7.—Tests made of red fire in the tower of jewels at the Panama-Pacific Exposition last night caused a double alarm of fire to be turned in and sent several fire companies to the scene. The report rapidly spread through the city that the tower of jewels, the center of the electrical illumination system and also one of the concessions on the amusement "zone," were burning and that the entire Exposition was threatened.

The red fire was being tested in preparation for the "nine years after celebration," to be held April 18, the anniversary of the great fire, and the presence of firemen as a precaution gave rise to the false alarm.

Last Day to Offer Bills

Last Day to Offer Bills

This was the last day for the introduction of bills in the House for passage at this session of the Legislature and a large number were introduced. Mr. Gibson, of Lycoming, introduced a number of road bills in skeleton form, which can be filled up in committee in case the necessity arises. The administration road bills may be substituted for one of these skeleton measures. This is not an unusual practice as it is done at every session of the Legislature.

Among the other bills introduced were:

were:
Mr. Spencer, Wayner—Making a sliding scale for expenses of candidates at
primary and general elections and
regulating political advertising.
Mr. Lafferty, Philadelphia—Requiring magistrates in misdemeanor cases

Mr. Ostrander, McKean—Requiring the immediate report of births and deaths to local health authorities.

Mr. Lindsey, Warren—Appropriating \$50,000 for the building of a State industrial home for women.

To take the place of a light measure killed in the House by the country members, who did not feel disposed to equip farm machinery with light after night, Representative Wildman this morning introduced a bill in the House evering practically the same ground. It requires that in case of collision between two vehicles at night the person driving the vehicle not equipped with lights which can be seen from both front and rear be liable to damages.

ROCK ISLAND TAKES SUDDEN RISE OF MORE THAN 3 POINTS

Vigor-Bethlehem Steel Yields Two Points and Drops to Its Decline of Yesterday

By Associated Press.

New York, April 7.—Wall Street.

Conflicting conditions received from a mixture of buying and selling orders were reflected in to-day's early trading. Harriman shares, United States Rubber and a few less important issues attained highest prices of the year and some of the specialties added one or more points to recent gains. Bethlehem Steel, however, yielded another two points to its decline of yesterday and United States Steel, Reading and Baltimore and Ohio were inclined to the effect.

Selling pressure overcame buying capacity before the end of the first hour and many initial gains were promptly surrendered. Union Pacific fell back a point and other leaders were at or under yesterday's close. Even those specialties whose course has not been guided by the general tendency, were disposed to droop, Rock Island was suddenly pushed forward in the second hour, advancing 3 3-8 points and the balance of the list showed renewed vigor. Bonds were irregular.

the submarine warfare of Germany is having an effect in England.

La addition to the daily announcement of the sinking of vessels, reports have been received showing great increases in the price in England of objects necessary to the maintenance of life, many of which appear to be greatly above the prices prevailing in Germany.

The situation on the eastern front, judging from the news available in Berlin, changes but little. Only desultory skirmishes here and there are taking place. The great conflict in the Carpathians appears to be growing more intense and covering a greater area every day. In spite of gains at different points by both sides, there has been no development indicating a decision of the whole conflict. Furthermore, German military experts say there is nothing to indicate as yet the final decision may be expected soon.

TURKEY BETTER PREPARED THAN EVER, SAYS MARSHAL

Vienna, April 7, Via Amsterdam and London, 4.25 P. M.—Field Marshal Von Der Goltz, on his way back to Constantinople from Berlin, stopped in Vienna and saw Emperor Francis Joseph. Later he spoke to a reporter of the "Neue Freie Press" of his visit, saying: "I found Emperor Francis Joseh in a serious mood, but resolute and very confident."

Regarding the situation in Turkey, Field Marshal Von Der Goltz said:

"Turkey to-day is better prepared than ever. She has a million and a quarter of well-trained men in addition to several hundred thousand reserves for any emergency. As the entente powers are interested politically in exaggerating news, the destruction of the outer forts at Sédd-el-Bahr and Kum Kaleh, which was only partly favorable to them, was made to appear a great vicotry. How little Constantingreat victory. How little Constantingreat victory. How little Constantingen even from the fact that the Sultan remained in his palace a short distance from the sea. Nor did these attacks have the least effect upon the population."

Two Russian delegates have arrived at Sofia, Bulgaria, to arrange for railway communication between Russia and Saloniki, Greece. The Sofia dispatch containing this announcement does not explain by what means this could be accomplished, as it would involve the use of railways through neutral countries. Neither is it explained that Russia desires to use the railroads for military purposes.

tries. Neither is it explained that Russia desires to use the railroads for military purposes.

Another attempt to force the Dardanelles apparently is under way. An official announcement from Constantinople states that a cruiser and a torpedo boat were struck by shells during a bombardment of the outer forts on Monday. The bombardment, it is said, was without results and no serious attack was attempted yesterday. No official confirmation has come from London or Paris concerning this fighting.

The Turkish War Office reports a resumption of hostilities in the Caucasian compaign. It announces that a Russian force advanced on the Turks near the frontier, but was driven back to Russian territory, and that the Turks, after 18 hours of hard fighting, occupied several Russian towns.

The Rome correspondent of a Paris newspaper telegraphs that Italy and Serbia are at the point of concluding an agreement under which Italy will not object to Serbia's acquisition of territory on the Adriatic, provided it is not fortified. If this agreement is concluded, as is expected, the correspondent says, Italy's participation in the war may be considered imminent. German newspapers make few comments on the American note to Great Britain and France concerning the plan of the allies for cutting off trade to and from Germany. One newspaper, however, expresses the opinion that the United States is making a 'faar-eaching retreat' and is surrendering the principle that a blockade must be effective ing retreat" and is surrendering the principle that a blockade must be effective.

BIG SHRAPNEL ORDER FROM FRANCE FOR CARNEGIE WORKS

Pittsburgh, April 7 .-- An order calling for 45,000 tons of steel rounds for shrapnel has been placed with the Carnegie Steel Company by a Cleveland concern acting for the French

government.

The order is said to be really a doubling of one placed by the same interests with the Lackawanna Steel Company and calling for a total of 90,000 tons, at a cost of approximately \$2,300,000.

ARGUES FOR JITNEY CHARTER

came across the body of a foreigner hanging by a rope from the limb of a tree. When the boys discovered the body they ran to their home and told their father. Coroner Eckinger had the body cut down and started an investigation. He pronounced the death suicide.

No reason for the man's action could be learned, although in one of his pokkets was found a letter addressed to Herman Yossef, Steelton, P. O. B. 68, Nord Amerika, but the residence of the man could not be learned.

The letter was written by the dead man's wife, who resides in Zimony, Hungary. It is also believed that he had a daughter living in Steelton, for the wife said she had sent some material for a dress for their daughter, Julia, who resided with her father.

CLOSING OF RIVER GAP DEPENDS ON FINANCES

If Arbitrators of the Claim of Opperman for Extras on Sewer Job Leave the City Enough Money, Work May Be Done at Market Street

With the likelihood of a decision coming within the next week or ten days from the board of arbitrators who will decide what money, if any, is yet due W. H. Opperman on the contract under which the big intercepting sewer was constructed, the City then will know whether it is financially, able to expend \$4,000 or \$5,000 to close the gap in the river front wall at Market street.

expend \$4,000 or \$5,000 to close the gap in the river front wall at Market street.

Opperman's claim for extras on the big sewer job totals almost \$30,000. The City's engineers, however, fix the amount at much less, On the amount to be paid to Opperman depends whether there will be sufficient money remaining in the sewer loan fund with which to close the gap in the wall.

The arbitrators, it was learned today, have advanced so far with their work that they may be able to announce their decision next week. Should it be found that the City will have sufficient money to complete the river wall job, then the only objection to closing the gap, it is conceded, will be the question of the legal right of the City to do so. City Solicitor Seitz already has said that it can be done legally but threats of injunction suits should the work be started have been made notwithstanding his opinion.

James H. Puertes, of New York City, consulting engineer of the Harrisburg Board of Public Works, was in the city a few hours to-day, having stopped off while on the way to New York from the West. This morning he inspected the river wall and consulted with the members of Board of Public Works, and this afternoon inspected the Paxton creek improvement. He is pleused with the progress of the work, he said.

WORDS IN THE MAKING. Our Language Grows by Terms Created

Language can be made in the library, no doubt, and in the laboratory also, but it is most often and most effectively created in the workshop and in the market place, where the imaginative energy of ou race expresses itself spontaneously in swift creating the lacking term in response to the unexpected demand. Nothing than picturesque vocables like scare head and loan shark windiammer and tributions to the English language and all of them examples, of the purest English. Hen minded is an adjective devised by Mr. Howells to describe those women who are so common in all walks of life and who are made up of only one aim at a time and of manifold anxieties at all times. Scare head and loan shark are the products of the newspaper office, while wind-jammer was put together by some down east sallor man, inheritor of the word forming gift of his island an-cestors who helped to harry the armada. "Windjammer," remarked Pro-fessor Gildersleeve, trained by his intimate knowledge of Greek to ap-preciate verbal vigor as well 2s verbal delicacy—"windjammer is a fine word, I grant, and so is every Angle-Saxon compound that grows and is not

But all new words are not of neces sity good words. Ben Jonson, who was himself a frequent maker of new was nimself a frequent maker of new words, displayed his shrewdness when he declared that "custom is the most certain mistress of language as the publicke stampe makes the current money," adding as a caution. "But wee must not be too frequent with the mist, every day coyning."—Brander Matthews in Harper's Magazine.
