CAPITOL HILL

PHILA'S BIG MILK SUPPLY

Almost 175,000,000 Quarts of Milk Gets Into the Quaker City in a Year, Say Shippers

A delegation representing the Philadelphia Milk Exchange appeared before the Public Service Commission yesterday afternoon in opposition to the rates of the Pennsylvania and the Philadelphia, Baltimore & Washington Railroad Companies on milk, cream and similar commodities.

Some of the rates which became effective on February 23 are advances over the rates in existence prior to that time and are characterized by the complainants as being excessive, discriminatory, unreasonable and unjust.

Some of the regulations in the tariffs also were attacked, particularly that providing that the carload minimum when loaded in cans shall be 3,000 quarts and when loaded in cases 6,000 quarts.

Objection was made because the tariff does not publish carload rates on cream and in that it fails to provide that mixed carloads of milk, skimmed milk, buttermilk, pot cheese and cream shall be entitled to the carload rate for each commodity subject to proper regulations.

The complainants also ask that the carriers be required to publish rates and charges for refrigeration, or icing, of carload quantities.

It was brought out at the hearing that during the year 1914 there were shipped into the City of Philadelphia 173,835,846 quarts of milk.

Ban on Circus Animals

New orders issued by the State Livestock Sanitary Board establish new quarantined areas in the State on account of foot and mouth disease, and specifically enumerate the circus and menagerie animals which may not be brought into the State until further orders. Eighteen counties remain under partial quarantine.

No county is entirely under quarantine. Lancaster was the last county to be completely under the quarantine regulations. The new order supersedes the previous one of March 16. The circus and menagerie animals which are subject to the quarantine regulations are as follows, being the same as figure in the federal restrictions: Deer, peccaries, cattle, sheep, goats, zebu, buffaloes, American bison, camels, llamas, giraffes and antelopes.

As this list of ruminants and cloven-footed animals includes some of the prize exhibits of shows, the restrictions amount to an order preventing circuses from touring Pennsylvania so long as the quarantine lasts, which will be throughout the present spring, in all probability.

DON'T USE SOAP ON YOUR HAIR

When you wash your hair, don't use soap. Most soaps and prepared shampoos contain a much alkali, which is very injurious, as it dries the scalp and makes the hair brittle. The best thing to use is just plain mulsumed coconut oil, for it is pure and entirely greaseless. It's very cheap, and beats soap or anything else all to pieces. You can get this at any drug store, and a few ounces will last the whole family for months.

Simply moisten the hair with water and rub it in, about a teaspoonful is all that is required. It makes an abundance of rich, creamy lather, cleanses thoroughly, and rinses out easily. The hair dries quickly and evenly, and is soft, fresh looking, bright, fluffy, wavy, and easy to handle. Besides, it loosens and takes out every particle of dust, dirt and dandruff.

The Harrisburg Polyclinic Dispensary will be open daily except Sunday at 3 p. m., at its new location, Front and Harris streets, for the free treatment of the worthy poor.

TO OPEN TWO-DAY SESSION

County Chairmen of Pennsylvania Woman Suffrage Association will open a two-day convention in the Board of Trade building this city, starting to-morrow morning, when the chairmen from all counties in the State will be present to discuss plans for the coming campaign.

Following the convention Friday evening a motion picture play, entitled "Your Girl and Mine," will be held at the Regent theatre, when all the county chairmen will attend.

The magnitude of the play is shown by the fact that there is a cast of more than 300 characters, a greater number than a peated in "Quo Vadis."

The play is a visualization of arguments for woman suffrage, stated from the masculine point of view, with the emphasis on woman's rights and the hardships individual women have to undergo.
