Dandruff Soon **Ruins The Hair**

Girls---if you want plenty of thick, sautiful, glossy, silky hair, do by all cans get rid of dandruff, for it will arve your hair and ruin it if you

starve your hair and ruin it if you don't. It doesn't do much good to try to brush or wash it out. The only sure way to get rid of diandruff is to dissolve it, then you destroy it entirely. To do this, get about four ounces of ordinary liquid arvon; apply it at night when re-tiring; use enough to moisten the scalp and rub it in gently with the finger tips. By morning, most if not all, of your dandruff will be gone, and these or four more applications will completely dis-solve and entirely destroy every single 1 sign and trace of it. You will find, too, that all itching and digging of the scalp will stop, and your hair will look and feel a hundred times better. You can get liquid arvon at any drug store. It is inexpensive and four ounces is all you will need, no matter how much dandruff you have. This simple remedy never fails.—Adv.

NISSLEY KILLS 9-MONTHS BILL Local Lawmaker Convinces House That Measure Should He Dropped Representative John C. Nissley, of the Second district of Dauphin coun-ty, objected stremously last night to the Sensenie bill which requires judi-eial decisions within nine months, and was responsible for the defeat of the measure which has alrendy passed the Senate. It was dropped from the House calendar on motion of Mr. Nissley. Mr. Nissley said it would work a hardship on the judges of Dauphin county court on account of the great number of State cases which are argued here. Mr. Waiter, of Franklin, and Mr. Stein, of Allegheny, both said it was not the business of a Legisla-ture to meddle with the judiciary of the House that it had passed the third judgeship bill for Dauphin county and probably that would relieve the con-spition in this county. He said ho hoped to see Mr. Nissley appointed to the vacancy on the bench here if it we created. Mr. Forster, of Phila-delphia, seconded the Nissley motion that the nine months' till be dropped from the calendar and the vote was almost unanimous.

THE SUCCESS AT LES EPARGES, NEAR ST. MIHIEL-THE BAYONET CHARGE OF THE FRENCH.

This blocks at this brands, where St. although the New York Herald and the London Sphere, shows the French attack on the crest of the hill, near the little village of Les Eparges, in the neighborhood of St. Mihiel, The French attack on this import in position, which partly commands the German position at St. Mihiel, was prepared by methodical sapping. By galleries the French had made headway from the bottom of the valley toward the enemy's trenches, in front of which sap heads with mines in them had been constructed. These mines were exploded and the line of cavities thus formed wrecked the glacis and offered the first protection to the French assaulting troops, schleved remarkable results. All the necessary defences were destroyed. Most of the enemy fled, and when the French appeared with bayonets fixed the remnant surrendered, They numbered only twenty-five.
