Berlin, via London, April 9, 10, 20 A. M.—The Olympic games of 1916 have not yet been transferred from Germany, and the international committee has not the power to direct such action, according to a statement made by Count Von Francken-Sierstorff, vice chairman of the German Olympic committee. Whether or not the games will be held depends on the course of the war, the Count said, but if they are held, it will be in Berlin. The international committee is still at work and the German vice chairman is in regular communication with Baron Pierre De Coubertin, president of the international committee, who is now at Lausanne.

Six Teams Prepare For the Opening of the Baseball Race On May 22

Millersburg, Dauphin, Halifax, Duncannon, Marysville and Newport were represented at a meeting of the Dauphin-Perry League here last evening when final plans were adopted for the coming baseball season. The schedule was adopted and such other details as were necessary were arranged.

One new rule, which will prevent the stealing of a player without the consent of his manager, was adopted. Players' lists must be in the hands of the president, Charles W. Rebendall, by April 22. The season will officially open May 22.

All of the clubs are working to get their grounds in shape for the season now and already practice games have been scheduled. Millersburg will play their opening game with Williamstown on April 25. Newport has scheduled the Hassler A. C. for May 8 and the P. R. R. Y. M. C. A. for May 15.

CANADIAN BOWLERS AHEAD

United States Bowlers Mobilize to Attack Leaders

New York, April 9.—United States bowlers taking part in the tournament of the National Bowling Association here rallied their forces to-day in an effort to displace the Canadian bowlers who still hold the highest scores in the singles and for two-men and five-men teams. Twelve five-men teams, including five from Philadelphia, and one from Wilmington, Del., were on the list of contestants for to-day.

With twenty-four bowlers in the singles and twelve two-men teams on the list, important changes among the leading teams were expected. To date no five-men team had been able to beat the score of 2,805 set by the Canadians of Montreal, and J. B. Pelletier, of Montreal, still headed the list in the singles with a total of 602. The highest singles score thus far made in the tournament is 247, rolled by R. Lanoreaux, a Canadian.

OLDING WON'T PLAY THIRD

Connie Mack Decides Not to Spoil Good Outfielder

Philadelphia, April 9.—Rube Olding will not play third base regularly for the Athletics during the season. This was the decision of Connie Mack yesterday following many days of consideration.

"Rube is willing to play the bag," said Mack, "and I considered him seriously for the position from the time that Baker notified me that he would not play again, but I have decided that I would not spoil a great outfielder to make a fair third baseman of him."

This decision leaves the third base position open, for Mack declared he did not know who would play the difficult corner when the American League season began. The Athletics have three candidates for the place—Kopf, Bostick and McConnell.

This is the opinion of Jack Johnson, who, learning that films of some of the rounds of the fight were to be shown at several Havana theatres to-night, started right out to stop what he termed an infringement of his property rights.

RUSH STARTS GRIDIRON WORK

Thirty Princeton Players Report for Spring Practice. Princeton, April 9.—John H. Rush, the new Tiger gridiron mentor, was in charge of the first spring football practice, which was held yesterday afternoon with thirty candidates reporting. The large number of letter men participating in other sports kept the number down, but it is expected that the next few days will see at least a score more out, as Princeton means business in this sport and every one is behind the new coach, Captain Glick and Jack Stucky, '08, the coach of the scrub eleven last fall, assisted Rush in the drill.

Despite the warm weather there was some real work done, though it was of an elemental nature, as the men are not in the best of condition. The drill consisted of falling on the ball, holding the ball, picking it up on the run and the throwing and receiving of forward passes. It is Rush's plan to hold practice five afternoons a week, gradually stiffening the work, and to have a little actual scrimmaging if possible.
