TRY U. S. MATCH WOOD

Supply of Russian Aspen in Brazil Stopped by War, Samples of Substitutes Are Being Arranged

Washington, April 9.—American manufacturers of match wood may find a market for their product in Brazil, if a sample shipment now being arranged by the U. S. Forest Service proves suitable to the Brazilian match manufacturers whose ordinary supply of Russian aspen has been cut off by the European war. As it is regarded as an excellent opportunity for the introduction of North American forest products into South America, the forest service is trying to enlist the cooperation of private lumber concerns who are reaching out for export business.

The Brazilian match factories, according to a cablegram from a traveling agent of the Department of Commerce, have been using annually about 1,000,000 feet of Russian aspen and have been forced by the war to seek substitute. On the agent's recommendation of American match woods, a request has been made to the forest service for samples of western white pine, sugar pine, cottonwood and basswood, eight bolts of each, 7 feet, 3 inches long and 12 to 20 inches in diameter. The national forests contain large

supplies of both sugar and western white pine suitable for the manufacture of matches, and used for this purpose in the United States. It has been difficult, however, to make up samples of these woods, for the reason that the forest service has no funds which can be used to pay railroad transportation charges from the west to New York or to pay ocean freight as required by the steamship companies. The necessity to transport the samples across the continent, instead of sending them direct to Rio Janeiro from San Francisco or Portland, is due to present shipping conditions on the west coast.

That the Brazilian manufacturers have agreed to pay freight and customs charges, however, has encouraged a Memphis concern to promise to furnish cottonwood samples. The forest service is trying to get in touch with other firms which could furnish the pine and basswood.

Italy's Premier

Antonio Salandra, premier of Italy, who steers his country in neutral channels despite war pressure in Europe, comes from the southern region of Puglia and has thirty years of parliamentary training to assist him in the undertaking. He is in the prime of life, and his lifelong legal training his quick sense of humor and a quiet, aristocratic contempt for mental vulgarity and demagogic postures of every kind give him the happy mastery which revealed itself since the first days of his difficult leadership at the chamber of deputies.

Evening Ledger War Pictures

To-morrow will be the final day of the engagement in this city of the celebrated war pictures which are being presented under the auspices of the Philadelphia "Public Ledger"—Evening Ledger, at the Majestic theatre.

While the major interest in these remarkable pictures centers in the Kaiser and the other great leaders in the monumental struggle, there are many other interesting and unusual pictures thrown upon the screen. It is doubtful if these pictures ever again will be seen in this city. At any rate to-morrow's two performances close the present engagement.—Adv.

LeRoy, Talma and Bosco

Following a twelve years' tour which has carried him around the world, LeRoy, together with Talma and Bosco and a company of fifty magicians, fakirs and jugglers, will appear at the Majestic Monday and Tuesday, with daily matinees. The most sumptuous stage setting ever carried by a magical show will be seen. One hundred tons of baggage, filling three cars, is carried with the show.—Adv.

An Unequaled Record

John Philip Sousa has traveled farther and given more concerts than any other musician. In the tours of Sousa's band during the past twenty-two years, he has visited twenty-five countries, given 10,000 concerts, covered 650,000 miles of travel, and delighted millions of people. The soloists who will be heard with the band here on Wednesday evening, April 14, at the Majestic, are Miss Virginia Root, soprano, and

Miss Margel Gluck, violiniste, also Herbert L. Clarke, cornetist.—Adv.

David Wardfield

Widespread interest is being aroused in the coming to the Majestic theatre next Thursday evening of David Wardfield, who will once more appear in his finely conceived character of Simon Levi in "The Auctioneer." In fact, the mail orders have been pouring into the box office in a way that would indicate that one of the biggest engagements of the season will be recorded. The sale of seats will open Monday morning at the box office at 9 o'clock and not more than ten seats will be sold to any one person. Mr. Wardfield's engagement at the Belasco theatre, in New York, where he appeared in "The Auctioneer" the greater part of last season, rivaled in point of receipts and popularity any engagement that he has ever played in that city.—Adv.

At the Orpheum

It's a bill-out is generally declared one of the season's very best, that brings the Orpheum's present season to a close. Acts of a high Keith standard comprise the current bill from first to last and it can truthfully be said that each of them are recognized artists in the Keith market. Chief of them is a great comedy vehicle exploiting the well-known efforts of Sam Mann, who, with an excellent cast, is presenting a side-splitting comedy, entitled "Lots and Lots of It." Also Diamond and Brennan, the nifty girl and the clever comedian, who have an exceedingly bright and clever skit of songs, dances and patter called "Nifty Nonsense." Another of the biggest features is Travoto, the novelty violinist, who can make his violin do everything but talk, and his eyes do the rest. Also Charles Lawlor and daughters, presenting vaudeville's finest character singing specialty.—Adv.

At the Colonial

A real beauty show is now in progress at the Busy Corner. It is the act called, "The Rose of Panama," a big musical comedy attraction with a bevy of the prettiest Broadway beauties anybody could wish to see. It also employs an attractive stage setting, effective light effects, and its principals are several clever comedians and a very pretty miss playing the role of "The Rose." The act is a blaze of light, song, frolic and beauty and is in itself worth several times the price of admission in vogue at the Colonial. Three other splendid Colonial acts of the usual standard of Colonial excellence support the big attraction. Interesting features in moving pictures complete the performance.—Adv.

At the Victoria

The Victoria's wonderful pipe organ orchestra, which has been delighting the crowds of people, who have appreciated this up-to-date motion picture theatre's efforts to please its patrons in a measure for succeeding all others, has very aptly been termed the pipe organ with the human voice. The greatest of all musical instruments combines the grandeur of the cathedral organ with the finest symphony orchestra. By means of its many controls the player can bring out the same sensitive feeling as an artist can upon his

violin, cello, flute, harp or any like musical instrument.

To fully appreciate the possibilities of this great pipe organ one must hear it played while the pictures are being shown. To-day we present for the first time in this city "The Black Spot," an exceptionally strong silent drama in four parts. And, of course, every Wednesday and Friday we show the Pathe Daily News, the animated newspaper that always contains the very latest scenes taken in the war-ridden countries of Europe. Several other good pictures go to make up an unusually strong bill for to-day. Adv.

At the Regent

Delegates to the suffrage convention in this city will attend the film production of "Your Girl and Mine," at the Regent theatre in a body to-night. The six-reel play tells a suffrage story and it is replete with thrills. In the very title of the film a moral is concealed but who cares for morals when one can see a woman triumph over a brute in a hand to hand combat, a marriage, a murder and an automobile abduction which breaks all former speed records. These are only a few of the many spectacular events shown in the six reels. Dr. Anna Howard Shaw, America's most prominent suffragist, appears in the film.

For to-morrow Manager Magaro will show "Life's Shop Window." It is a story of a suave gentleman who sows the seeds of discontent in the mind of a credulous country girl who is married to a hardworking, home-loving farmer. The polished rascal with his glib talk about London, New York and Paris not only alienates the pretty little woman from her husband but also tries to lure her away from him. The intervening scenes are said to be exceptionally good.—Adv.

Broadway Star Feature at Photoplay To-day

Another famous Vitagraph all-star production, released under the head of Broadway-Star features, is shown to-day at the Photoplay. "Lifting the Ban of Coventry," in three dramatic reels, with Lillian Walker and Darwin Karr, assisted by Julia Swayne Gordon, is a wonderful production of the modern military social railing of an officer in the United States army. In a moment of folly, Karr marries a girl of the music hall and takes her to his headquarters, introducing her as his wife. The social code demands that they both be put under the Ban of Coventry for the act, and Karr's whole life is devoted to lifting the ban which ostracizes him from his fellow comrades. To-morrow Charles Chaplin, in a new two-reel Essanay, "The Jitney Elopement." Adv.

Electroplating Mirrors

A new method of silvering mirrors consists of depositing the metal on the glass by means of a high potential electric current. A plate of metal is placed against the glass; this is laid flat on the table, and the air above it is exhausted to a high degree of vacuum. Then a small quantity of hydrogen gas is introduced, and the current is turned on through a negative pole attached to the metal plate. In thirty seconds the glass has been silvered.

TO SPEND \$1,000 ON CAMP

State Boys' Work Committee of Y. M. C. A. Plan Many Improvements at Inglenook Site

Improvement plans for the boys' camp of the State Y. M. C. A. at Inglenook were strongly discussed at a meeting of the State Boys' work committee at State headquarters, Calver building, yesterday morning. Following the meeting the committee left for the camp in autos loaned by Vance C. McCormick, C. A. Kunkel and H. B. McCormick.

It has been planned to expend \$1,000 on improvements to the baseball field, tennis courts, erection of a new pier for boats and the purchase of a swimming float with a springing board and diving heights.

No action was taken on the much needed dining pavilion. Albert M. Chesley, State boys' secretary and director of this year's camp, is planning to make it the most successful year, and from present indications it is believed that 200 boys will be registered on June 29, the opening day of the camp.

The following members of the committee were present at the meeting and inspected the camp: P. B. Wonseller, chairman; Norristown; Ralph W. Harbison, Pittsburgh; Vance C. McCormick, C. A. Kunkel, this city; J. B. Carruthers, State secretary; A. E. Shirey and Albert M. Chesley, director of the camp. Other members of the committee are: Dwight Meigs, Pottsville; W. H. Ridgway, Coatesville, and James Shand, Lancaster.

MAMMOTH AERATORS

How the Water in the Catskill Aqueduct Will Be Purified

The great Catskill aqueduct of New York City is to have two immense aerators. One is to be at Ashokan, where the water can be purified before it enters the aqueduct, and the other at Kensico, where the water will be purified a second time just before it reaches New York City.

The second aerator will be in the center of a three acre basin, 460 feet long and 240 feet wide in the widest part. Into the floor are set, in row after row 1,600 nozzles, each of which will throw a jet of water from fifteen to twenty feet high. The jets will strike each other and thus break up the water into clouds of spray and bring every drop into contact with the

air and help free it of impurities. This thorough airing will be especially beneficial in the autumn, when the water from the lakes and ponds is likely to have an unpleasant taste, owing to the presence in it of microscopic vegetation.—Youth's Companion.
