

GRIPPE A ROBBER OF STRENGTH AND FLESH

Run Down, Underweight People Should Regain Lost Flesh and Strength at This Season

People who have gone through winter suffering a succession of coughs, colds, grippe, catarrh or other ailments peculiar to cold weather will probably be surprised, if they climb on a weighing scale, to see how much flesh they have lost.

The best way to regain lost flesh and strength is through the original source of all flesh and strength—your food. Food, however, produces flesh and strength only in the proportion in which its nourishing elements are absorbed by the blood.

THE POWELL-WILLIAMS DELIGHT BIG AUDIENCE

Musicians Accord Famous Artists a Flattering Reception in Chestnut Street Auditorium—The "Total Eclipse" Delights Local Singers

A large and appreciative audience of music lovers was rewarded last night for attending the joint concert of Maude Powell, the leading American violinist, and Evan Williams, the famous Welsh concert tenor, in the Chestnut street auditorium. The artists received a flattering reception.

The program was varied and pleased the most critical musicians in the audience. Madam Powell's best numbers were the prelude in C minor by Fiorillo and the prelude in E Major by Bach. In these numbers she was unaccompanied and displayed the purity of tone which she has reached after years of effort.

Mr. Williams pleased his audience most with Barelett's "Dream," "Sweet Miss Mary" by Neidlinger and "A Perfect Day," by Carrie Jacobs Bond. One of his numbers was the "Total Eclipse" from "Samson," the oratorio to be presented by the Harrisburg Choral Society April 29. The Bach-Gounod "Ave Maria" for voice and violin brought the concert to a delightful close at 11 o'clock.

The New Home Treatment for Ugly, Hairy Growths

(Boudoir Secrets) Here is a simple, yet very effective method for removing hair and fuzz from the face, neck and arms: Cover the objectionable hairs with a paste made by mixing some water with a little powdered delatone. Leave this on for 2 or 3 minutes, then rub off, wash the skin and the hairs have vanished. No pain or inconvenience attends this treatment, but results will be certain if you are sure to get real delatone.—Adv.

and newspaper space comes to realize that it is not so much what you say to-day as what you do to-morrow that counts.

Scare headlines, catch phrases, high sounding "copy," "bold face" and "italics," may serve to start the flow of trade into a store, but if satisfaction doesn't come out in every package, success will never be a permanent resident.

Thus it is that we give our first and greatest attention to merchandise before we start to advertise. We make sure that those things about which we intend to write are right and then we give our pen full sway, knowing that our enthusiasm will never equal the quality which inspires it.

Just now the whole store is resplendent with new spring styles. Suits with soft rolling lines to coat front and vest lapel; with straight trim trouser lines, with all the clever little touches here and there that give clothes their individuality.

You Can't Tell Whether Your Watch Needs Cleaning

Of course if it doesn't keep good time, you know there is something wrong. But it's a mistake to wait until it begins to lie about the time, or stops completely. A watch requires cleaning and oiling every 12 to 15 months. Regular attention of this kind adds years to the accurate service you get from your watch and saves many dollars on repair bills. Your watch may need cleaning and oiling now. You can't tell—but Diener can. Let us examine it; if it needs no attention we'll say so, and if it does you'll be told exactly what is necessary and your further pleasure awaited. There's no charge for the examination. Bring your watch in to-day.

the bill on first reading in the House on Wednesday morning and on second reading on Thursday morning, and, if the opposition to the bill does not kill it on second reading, it is proposed to fix a special order for its consideration for final passage on Tuesday, April 20, when the question of its final disposition by the House will come up.

Some of the opponents of the bill say that they will endeavor to get a test vote on it on second reading on Thursday, and that unless it is amended in some particulars, which they are not yet certain about, they will rally to its defeat. Others are disposed to make no set opposition to the bill until it comes up on final passage in the House when the real test will come. Many of the members of the House have prepared speeches for or against the bill, and think that they should be made when the bill is up for final consideration. As yet all of the Dauphin county members are reported to be opposed to the bill as it is now drawn.
