

# Why Drag Through Life Wearing Worthless Trusses?

## 90 Per Cent. of the Suffering and Trouble Ruptured People Go Through Is Caused By Spring and Leg-Strap Trusses

Aren't you sick and tired of wearing trusses you can't make hold, which hurt you so much that you can't get any sleep? Don't you know that such contraptions will sooner or later let your rupture get the best of you? Don't you know they are almost sure to cripple you up, so you won't be able to keep at work, won't be able to make a living?

Aren't you afraid they'll gradually let you get so bad that sooner or later you'll have to face a dangerous operation? Aren't you willing to risk a sixty-day test—without having to make a cent—and see for yourself what a relief it is to get rid of such misery-causing makeshifts?

No More Belts, Leg-Straps or Springs We have found a way to hold any man's rupture without tin snail pressure, without any belts or spring around your waist, without having to wear leg-strap.

It is our guaranteed rupture holder. It is as big an improvement over elastic and spring trusses and so-called "appliances" as the modern locomotive is over the first steam engine ever built.

60 Days Trial to Prove It We have so much faith in it—have seen what it has done for so many men—that we are willing to make one especially for your case and send it to you for sixty days' trial. Willing to give you plenty of time to see for yourself just how good it is.

If it doesn't keep your rupture from coming out or bothering you in any way, then you can send it back and it won't cost you a single penny. It is the only thing you know of for rupture that you can get on long enough trial to make sure, because the only thing good enough to stand a long and thorough test.

All About It in Free Book Don't send any money. Just write for our free book—cloth bound, 20 separate articles, 86 pages—and find out every-

thing you want to know. It is full of facts never before put in print. It shows just why operation is nearly always a gamble with death and why those who manage to live through it often have to keep on wearing a truss. It exposes the fakes and humbugs—puts you on guard against being fooled and against throwing money away. And it tells all about our guaranteed rupture holder—the famous Clute. Shows how simple it is. Why it needs no belts or leg-straps. How it instantly and automatically protects you against every strain, so your rupture can't be forced out. How it provides the only way ever discovered for overcoming the weakness which is the real cause of rupture. How it has brought complete cure in thousands of cases that seemed almost hopeless. How it is waterproof and will hold in the bath. How you can get it on in ten days' trial and how little it costs if you keep it.

Explains the care and attention we give you and why, because of our long experience and thorough knowledge of rupture, we are successful in cases that would utterly baffle your local truss fitters. Write for the book to-day. That will take you only a minute. But it may free you from trouble and worry for the rest of your life.

### CHILD DISFIGURED FOR THREE MONTHS

Pimples Spread All Over Face, Itching and Burning Intense, Could Not Sleep, One Cake Cuticura Soap and One Box Cuticura Ointment Healed Her.  
Water St., Mayville, N. Y.—"When my little daughter was three years old I noticed a hard dry scale on her forehead. Her face broke out in pimples. It spread all over her face, disfiguring her for three months. It caused the skin to crack open and bleed. I had to hold her hands off her face as she would scratch her face still it would bleed, the itching and burning were so intense. It would itch and burn so she could not sleep. "She was under treatment for a year but it didn't help her. Then I used Cuticura Soap and Ointment and she found relief right away. It took one cake of Cuticura Soap and one box of Cuticura Ointment to heal her." (Signed) Mrs. E. L. Adams, June 13, 1914.

Sample Each Free by Mail With 23-p. Skin Book on request. Address post-card "Cuticura, Dept. T, Boston." Sold throughout the world.
