Alaska's White Death

Affasta's white Death

A fearful type of storm in the so called "white death" of Alaska. This is a fog in which the whole air becomes full of minute particles of ice. It is thick beyond relief, and exposure to it for any length of time in the open means certain death to human beings.

Holland's Abode of Peace
Zeist, in Holland's is best known as
the abode of peace. The religious community of Moravians has been settled
there for over a century and a half.
Its gray, sober looking buildings stand
in their own well cultivated grounds,
within which the members lead a life
of Quaker-like simplicity. There is little display even of the goods they
make, particularly their tinwares,
which are sold in small rooms that
have no likeness to shops except, for
the plain counter that runs across
them.—London Chronicle.

Explaining Gravitation's Lav

Explaining Gravitation's Law
If you ask a scientific man why* a
stone falls to the ground he will tell
yuo that he doesn't know. Not long
ago he would have replied that it fell
to the ground because the earth and
stone attract one another. This is very
much the same as saying that an unsupported stone falls to the ground
because, as has been ascertained by
frequent experiments, an unsupported
stone falls to the ground.—Scientific

New York, April 12.—Wall Street—Resumption of stock dealings to-day was in marked contrast to last week's frenzied movement. Instead of further advances, the list evinced a reactionary trend, with numerous losses of a point or more.

advances, the list evinced a reactionary trend, with numerous losses of a point or more.

Trading was again extensive, however, U. S. steel, Reading, Southern Pacific and Baltimore and Ohio being offered in lots of 10,000 shares or over. Union Pacific, Canadian Pacific and Reading were among the heaviest issues. In keeping with its recent action, Bethlehem steel pursued a contrary course losing a point at the outset, and soon advancing three. Secondary prices showed general improvement.

The business of the first hour was well in excess of 300,000 shares which constituted a record for that period, except last Saturday when over half a million shares changed hands.

Early losses were langely recovered despite persistent realizing, but towards midday the list fell back again, Reading and a few other leaders going under initial declines.

Selling was mainly of local and European origin but commission houses reported further out of town buying on a more moderate scale. Steel was under restraint because of its unsatisfactory March tonnage statement but Bethlehem Steel scored a maximum rise of five points. Bonds were firm. "Valley of Dried Bones"

"Valley of Dried Bones"

The island of Jamaica possesses a "valley of dried bones." It is near the Canacuna gap, in the Maroon county. This valley, though in the heart of the "wet country," is bare of leaf and life. The limestone rock is hot. Giant trees, which seem to have been blighted suddenly, stand up gaunt and dead. Alkbough vegetation seems to have been dense here in former years, nothing will grow now During the hot season the temperature is almost unbearable. It is visited by seismic disturbances, which cause the dead trees and hot stones to rattle like dry bones.

The Wrong Place
Lawyer—''My client did not understand, your honor, as he is very deaf.''
Magistrate—''And he has come to this court for a hearin?''
Lawyer—''Yes, your honor.''
Magistrate—''Then tell him he had better go to a specialist.''—Baltimore American.
