**WAR CREATES BIG DEMAND FOR AMERICAN CHEESE**

Washington, April 14.—The per capita consumption of cheese in the United States in 1910 was 3.8 pounds. This has increased to 4 pounds in the last five years, according to an estimate of the Department of Commerce. With the war abroad, the export of American cheese has increased and the importation of foreign-made cheese has decreased.

American cheese, of which the exports had decreased from nearly 150,000,000 pounds in the fiscal year 1881 to less than 2,500,000 pounds in 1914, is again finding its way to foreign markets in rapidly increasing amounts. The half-year ending with December showed a total export of more than 2,500,000 pounds; January, 1915, 3,000,000 pounds, and February nearly 7,500,000 pounds, the aggregate for eight months of the current fiscal year being 13,000,000 pounds, or more than in any fiscal year since 1907.

England is now and for many years has been the largest foreign market for American cheese.

Holly man named Dougherty stood in the midst of a circle of negroes here yesterday afternoon and offered to wager \$4,000 that he could "trim" any man "my size you got in this blamed town."

The husky Dougherty was arguing about the Willard-Johnson championship battle and since the police declared he had "enough liquor beneath his belt to stagger a mule," the Holly man was prepared to do "wonders." He bluffed every man in sight until the police arrived. When taken in custody by the constable Dougherty calmed down.

On the march to police headquarters he threw his four thousand to the ground and again wanted to "bet." Then some one snatched up the "roll" and gave it the once over. It consisted of four \$1 bills and some "change."

**Combing Won't Rid Hair of Dandruff**

The only sure way to get rid of dandruff is to dissolve it, then you destroy it entirely. To do this, get about four ounces of ordinary liquid arvon; apply it at night when retiring; use enough to moisten the scalp and rub it in gently with the finger tips.

Do this to-night, and by morning, most if not all, of your dandruff will be gone, and three or four more applications will completely dissolve and entirely destroy every single sign and trace of it, no matter how much dandruff you may have.

You will find, too, that all itching and digging of the scalp will stop at once, and your hair will be fluffy, lustrous, glossy, silky and soft, and look and feel a hundred times better.

You can get liquid arvon at any drug store. It is inexpensive and never fails to do the work.—Adv.

**This Frees Your Skin From Hair or Fuss**

The method here suggested for the removal of superfluous hair is quick and certain and unless the growth is extremely stubborn, a single application does the work. Make a stiff paste with some powdered delatone and water; apply this to the hairy surface and after about 2 minutes rub it off, wash the skin and the hairs are gone. To avoid disappointment, be sure your druggist sells you delatone.—Adv.
