Contractors estimated that the amount of building operations which will be affected by an extended strike will reach a figure close to the \$100,000,000 mark. Work on a number of downtown office buildings is at a standstill, as thousands of other union men, including the teamsters, excavators and building crafts affected by the strike.

S. B. Watts Tells Brotherhood About S. B. Watts, local manager of the Bell Telephone Company of Pennsylvania, gave an illustrated lecture en titled "Talking Across the Continent"

He showed pictures of cabins placed along these lines with provisions and materials, so that the linemen can fix up breaks, for it often happens that they go out and get into a snow storm and cannot return for two or three days. He also showed that a telephone conversation was much different from the travel by railroad. That while one train can follow another on the same track, carrying thousands of people, only one conversation can pass at a time over this circuit. In other words in a message from Harrisburg to San Francisco, the subscriber has the full use of 3,400 miles of wice with no interruptions from any one. of all patriots.

Can Tell Truth About People

"I have got to the point where I can tell the truth about the people. A fellow comes in, you know, and shakes his head and says, "That river and harbor bill is awful—perfectly awful; just a pork barrel, where they are robbing the Treasury."

Iates Her Experiences
Two addresses were given at Market Square Presbyterian church yesterday by Madame Barakat, a Syrian woman. She told the story of her life, in the evening, from the time that she fled for refuge to a Christian mission.

After many thrilling experiences and much persecution on account of the religion, Madame Barakat with her husband, landed in Philadelphia with an English vocabulary of two words, "Dana" and "Chestnut." By means of these she found Dr. Dana, at that time the pastor of the Walnut Street Presbyterian church.
