CAVE-IN WRECKS HOUSES

Water and Gas Mains Broken When Surface of Ground Sinks in Larksville
Wilkes-Barre, April 16.—Many houses were damaged, water and gas mains were broken and damage to the extent of thousands of dollars was done by a cave-in in the Bennett and Cooper veins of the Delaware and Hudson Company at Larksville yesterday. The cave-in district takes in about two acres and there are many deep holes and depressions. A number of homes were badly wrecked.

The home of Thomas Temperine was broken in two by the cave-in and is a total wreck. The cave-in twisted and turned over buildings on their foundations and some of the structures are greatly tilted. Walls and partitions of the buildings have been damaged so badly that they never can be made right. The bursting of the water mains caused the company to cut off the supply and there is grave danger in case fire should start.

She said she had quarreled with her mother and resolved to leave home. After clipping her hair she bought and donned boy's clothes. Then she got a place as a night messenger in a publishing house.

Afraid to sleep in a lodging house among men, she slumbered every day in moving picture houses. But the work soon began to bore her, and the heavy snow on April 3 made her want to go home. "May Duffy's Do For Many Others, What It Has Done For Me"

Because a healthy system will throw off germs through the various eliminating organs of the body, the waste-repairing and strength-producing properties of Duffy's Pure Malt Whiskey prove particularly valuable in the relief of throat and lung troubles, as this gentleman so clearly states:

"I feel it a duty to tell everybody the good Duffy's Pure Malt Whiskey has done me. Four years ago I became very ill—had suffered for years with lung trouble; in fact have lost two sisters, a nephew and niece with the same malady. The doctors told my family I could not possibly live the winter through. I read your advt. and resolved to try Duffy's, and it has certainly done wonders for me. I am much better than I have been for years, and as I have taken no other medicine but yours, I feel all the credit is due to Duffy's. May Duffy's do for many others what it has done for me."

AT 100, SHUNS FRESH AIR

Never Slept With Window Open and Pitties Ozone Cranks
Rome, N. Y., April 16.—Orvel S. Dorman, who has just passed his one hundredth birthday and is still hale and hearty, says he has never slept with the window open at night except in the intensely hot weather, and then simply to get cool air—not fresh.

He pities the "fresh air cranks," as he calls them, that they will not be here to see him make good his boast of seeing two centuries.

Two years ago Mr. Dorman required a physician for some slight indisposition. Arriving at night the doctor found the windows of the sleeping room closed tight. The doctor opened them, but Mr. Dorman ordered them closed again.

Mr. Dorman never uses tobacco in any form, leans strongly toward prohibition and says he never swore. He attributes his long life to a clear conscience, plenty of hard work, absence of worry and minding his own business.

He received congratulatory letters from President Wilson and Governor Whitman on his birthday.

ARIZONAN KILLED 124 BEARS

One Trophy Is Skin of Huge Silver-tip Shot at Distance of 2 Feet
El Paso, Tex., April 16.—J. H. T. Cosper, one of the best known cattlemen of Arizona, is also known far and wide in that State as a bear hunter. He has never made a real bear hunt, he says, but that on all his trips over the ranges he has carried a gun and in the past 30 years he has accounted for 124 bears.

Mr. Cosper settled along the Blue River in what is now Greenlee county, Ariz., in 1885, and engaged in the cattle business. At the time, Geronimo was making his raids along the Blue River and conditions were far from peaceful for the young cattlemen.

Even yet the district along the Blue and White rivers and the White Mountains is but sparsely settled, the chief inhabitants, as Mr. Cosper puts it, being roving bands of cattle. There is plenty of game, and besides bear, he has killed numerous mountain lions or cougars and hundreds of wild turkeys.

Describing a bear rug in his home Mr. Cosper says that it is the hide of a huge silvertip and measures eight by nine feet. He killed this bear by shooting it in the mouth at a distance of about two feet, the big animal having crept upon him. It weighed 800 pounds.

"I have raised six boys on the Blue and the older boys have killed their share of bears," said Mr. Cosper. "We have never had a doctor's bill to pay of the country, but he went crazy. Then we had one doctor, but he starved to death. Clifton is my nearest town and it is sixty miles south of us and that over trails. There are no roads worthy of the name."

James Madison—"Father of the Constitution"

THE FOURTH PRESIDENT of the United States considered it a greater honor to be declared the Father of the Constitution than to have been elected twice to the highest office in the gift of his countrymen. No more ardent, intelligent, far-sighted and constant student of governmental problems ever lived than Madison. They were his life-long passion. He it was who labored with all his gigantic ability and indomitable will to have deeply imbedded in our National Law those vital principles which forever guarantee to all Americans Religious, Commercial and Personal Liberty. In private life he was genial and social—yet temperate. Many a foaming glass of good barley-malt beer he drank with his bosom friend Thomas Jefferson—"Father of the Declaration of Independence." Madison died at 85 and Jefferson at 83; both were unalterably opposed to tyrannous Prohibition Laws, and advocated legislation which encouraged the brewing industry. Upon the tenets of the Constitution of the U.S.A. (to which Madison devoted the best of his genius) Anheuser-Busch & Co. have founded their great institution. To-day 7500 people are daily required to produce and market their honest brews. Their chief brand Budweiser is sold throughout the civilized world—the drink of your forefathers—the drink of the noblest men who ever lived—the drink of the great triumphant nations. Budweiser sales exceed any other beer by millions of bottles.
