EDUCATIONAL DEPARTMENT IN CHARGE OF EXERCISES Civic Club Will Hold Interesting Exercises To-morrow at the Fresh Air School, Fifth and Seneca Streets

To-morrow afternoon the educational department of the Civic Club will hold some interesting exercises at the Susquehanna school building. This is the fresh air school, situated corner of Seneca and Fifth streets. The school board put several thousand dollars in the proper equipment of the building itself for this class of pupils, but there seemed no funds to put the grounds in proper order. The grounds, too, in fact, were about as unattractive as school grounds could be, and the Civic Club was anxious to do something toward their betterment. Some years ago the board gave the educational department permission to beautify the grounds of the school buildings, and while some advantage has been taken of this permission, the department has not done as much as it wished through lack of funds. The Susquehanna building, however, made a peculiarly strong appeal to the women. The grounds are 120 by 100 feet and not a spear of grass was growing there. The ground was ungraded, full of lumps and hillocks, and the soil was made of ashes. The cost of putting the grounds in proper shape was so tremendous that it was evident the department could not meet the expense in full. However it was fortunate enough to enlist the aid of W. H. Lynch, head of the department of streets and public improvements and of Harvey M. Taylor, head of the department of parks and public grounds. The school premises being city property, the two commissioners could of course give most generous aid there, and they did it. Under Mr. Lynch's direction the ground was graded and some real "soil" placed on top of the ashes. City Forester Mueller, acting under the directions of Mr. Taylor, has surrounded the grounds with a most beautiful hedge; has planted trees, flowers and shrubs, has made flower beds and a vegetable garden for the children—in fact has brought beauty from ugliness, and has given the children a lesson in civic pride. While the flowers will not be in bloom to-morrow or the grass sprouted, exercises will be held nevertheless in honor of the completion of the work. Some people have called it the most important work undertaken by the Civic Club. Those who never saw the grounds in their former condition cannot comprehend what a transformation has taken place. All interested are invited to attend the exercises which will commence promptly at 1:30 to-morrow. The Department paid for the planting and digging. Following is the program: School verse, pupils; "Why We Are Here," Mrs. Mabel Cronise Jones; greetings from the president of the Civic Club, Mrs. William Henderson; spring song, "Margery" Bathon; a few words from Harry Boyer, president of the School Board; William H. Lynch, head of the Department of Street and Public Improvements and Harvey M.

Miller are spending the week trout fishing. They will camp on Paddy's mountain, Centre county.
